Central Corridor and Role of Turkic Council States

Turkic Council States with high logistic potential for the trade between Asia-Europe

- Increasing waiting times at the Asian ports
- Container crisis all over the World
- Increasing demand for road transport

Reducing logistics costs by removing the barriers and facilitating backload

Proposals

- Gradual liberalization of road transport starting from transit)
- Removing the road user charges
- Facilitation of Visa for Professional Drivers
- Increasing Ro-Ro capacity
- Reducing port cost
- Developing alternative routes and transport modes not competitive but complementary to each other
