

ALMATY INTERNATIONAL AIRPORT

Expansion Project

11 November 2021

General Information

- TAV took over the airport on April 30th 2021.
- TAV is 85% beneficial owner of Almaty Airport and associated fuel and catering businesses, and Kazakhstan Infrastructure Fund, managed by VPE Capital and backed by Kazyna Capital Management, holds the remaining 15% stake.
- EBRD, IFC, EDB and DEG are the lenders for the project and the loan to be provided will support a 780m USD development project.
- TAV will immediately build a new international terminal, a new Government VIP & General Aviation Terminal, new access roads and also make refurbishment to existing facilities.
- *240m USD CAPEX* program to construct a new passenger terminal to address capacity constraints and to modernize of the Airport.
 - Ensure the compliance of Almaty International Airport with international standards (such as ICAO, IATA).
 - Increase passenger satisfaction as in other TAV Airports such as Ankara, Izmir, Skopje, Zagreb and Madinah Airports which have been selected best airports by ACI in their category.
 - Increase passenger comfort and reduce waiting times with the brand new international terminal.
 - Enhance passenger experience with a variety of commercial offerings.
 - The new terminal will be the first EDGE Advanced certified sustainable airport terminal in the Central Asia region.
