

**'AIM TO ACHIEVE THE BEST, BE READY
TO ENDURE THE WORST'**

Our company

CARINEX TURNOVER
MILLION HUF

Established in 1993

Staff 12 peoples, most of them have security clearance report

Design & integration of standard and tailor made systems, consulting & training

National security & intelligence services, LEAs and MoDs

NATO AQAP 2110:2016, ISO 9001:2015, suitable supplier to the NATO tenders

Net sales income: USD 11+ million (2018)

Competences

Telecommunication (satellite, GSM) monitoring, radio reconnaissance and direction finding(DF) systems

Lawful Interception: landline, GSM monitoring and locating, IP processing

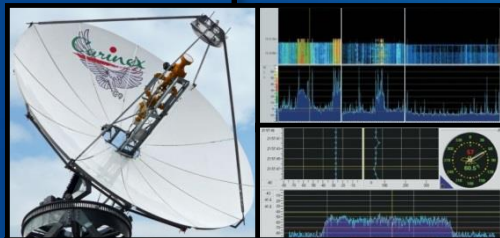

Special security devices and systems: audio, video surveillance and recording, DF, tracking

Data and information protection, equipment, system and technologies of TSCM

Cyber security products, services & training

INTELLIGENCE COUNTERINTELLIGENCE

Telecommunication monitoring, radio surveillance

VSAT, Thuraya, Iridium, Inmarsat, IsatPhone

Radio monitoring and direction finding (DF)

Countrywide Lawful Interception (LI): landline, mobile and IP networks

Tactical (off-air) solutions:

- passive/active GSM monitoring
- IMSI, IMEI catchers

Special security solutions

Tracking systems (GPS/DF)

Audio and video recorders, transmitters

Audio and video processing software

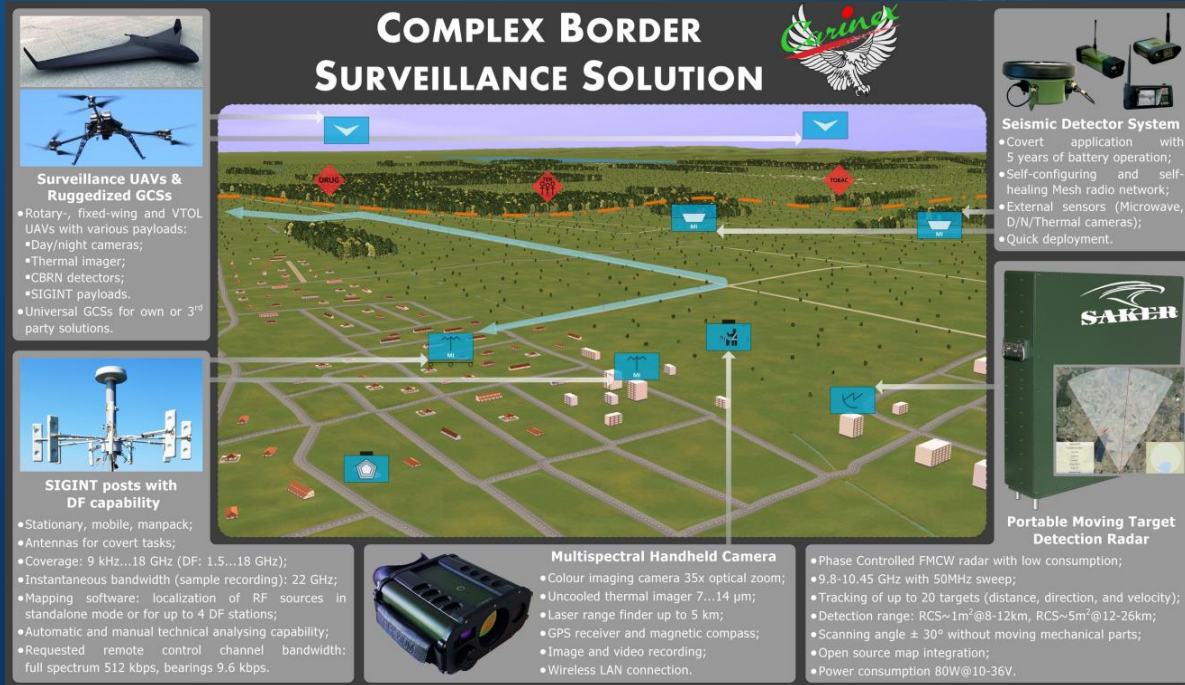

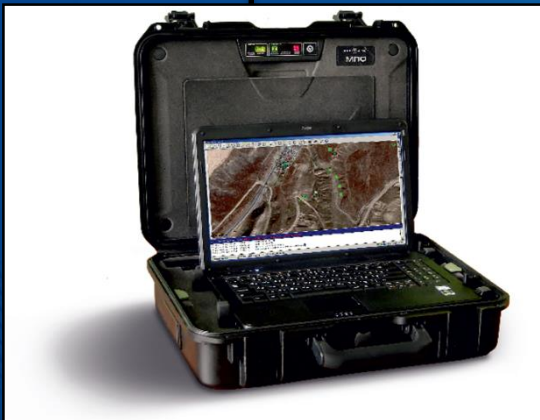

Audio/video surveillance

Unmanned systems:

- UAVs
- payloads
- Ground Control Stations
- Counter-drone systems

Complex border control systems

Integration of different operations and solutions

Data and information protection, technical protection

Different type of detectors for active devices and signal analysers

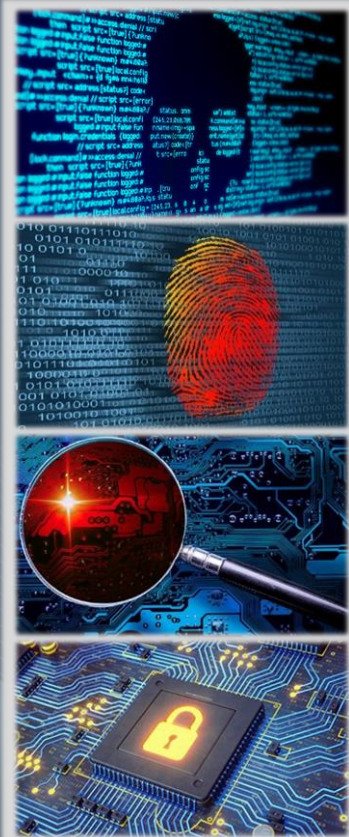

Equipment against passive devices (non-linear junction detector, camera detector)

Modular, configurable, multi-band jammers

Data and information protection

- equipment
- software

Cyber security cooperation

HUNTYDEFENSE
HUNGARIAN CYBER SECURITY CONSORTIUM

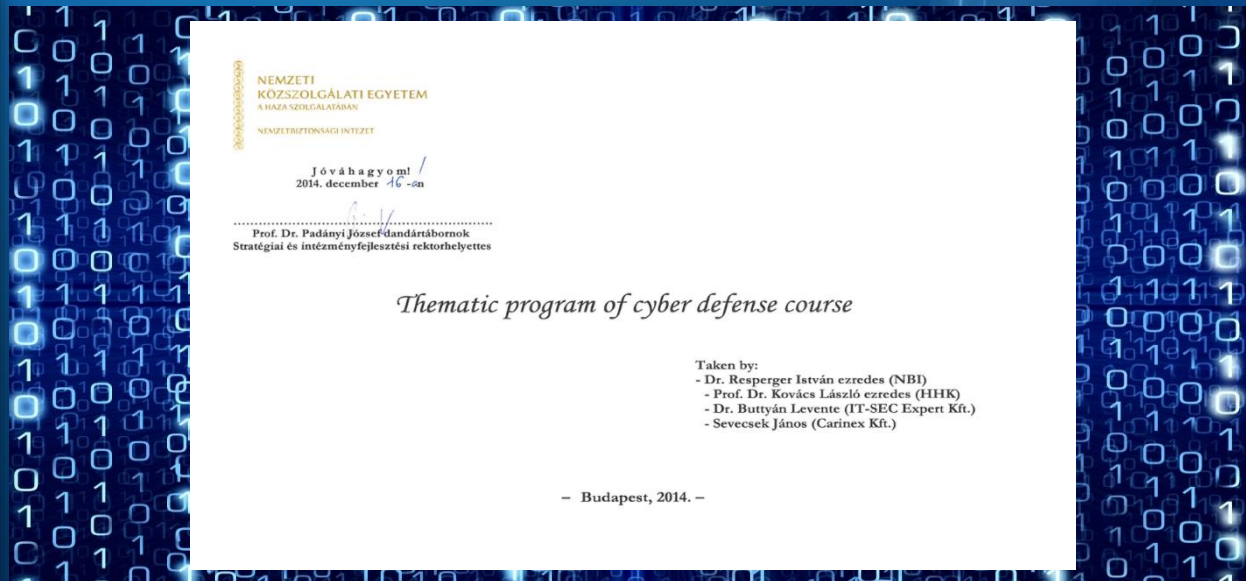

ITSec Area

UKATEMI
TECHNOLOGIES

Cyber security and operations

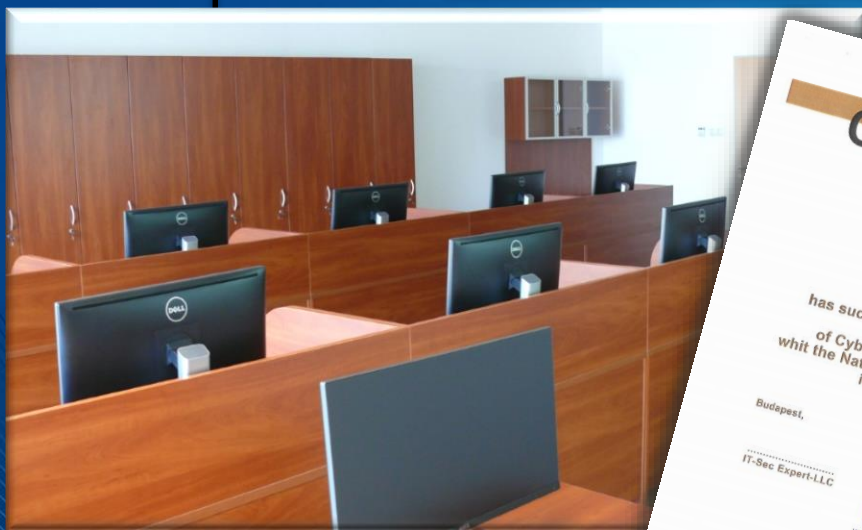

Post gradual education and training program for IT security specialists responsible for governmental and critical infrastructure networks

GOV CERT/SOC design and training
