

KÖR-KER LTD.

ENVIRONMENTAL AND TRADING LIMITED COMPANY
FOUNDED: 1994

INTRODUCTION

In the field of asbestos containing issues we provide an extensive solution, which starts from identification and lasts till disposal. Asbestos containing materials were used in more than 3000 different products in numerous forms including fields such as fire protection, heat insulation and roofing just to name a few. Later on it was proven that asbestos fibers are really dangerous in case of inhalation. (mesothelioma, lung cancer, etc.). therefore, it was necessary to forbid the use of it, remove and replace it by other not harmful building materials.
