

What We Do?

Upon its establishment in 1985, the Foreign Economic Relations Board of Turkey (DEİK) was assigned with the following tasks: to organise and manage the foreign economic relations of the Turkish private sector, in particular with respect to foreign trade, international investments, services, contracting and logistics; *to analyse investment opportunities at home and abroad; to help boost the country's exports, and to coordinate similar business development activities.*

Legal Framework

In 2014, DEİK was restructured, and with law No: 6552 of 11 September 2014 assigned the task of “conducting the foreign economic relations of the Turkish private sector”, to become ‘business diplomacy’ organisation comprising Business Councils, Founding Institutions and individual members that represent Turkey’s business community and its leading entrepreneurs, contributing to the functioning of the institution on a ‘voluntary basis’.

Turkey:

- Serving as an example for economic and political development on a regional and global level based on cooperation between the private and the public sector and civil society;
- Achieving macro-economic stability;
- Being globally competitive with leading entrepreneurs and brands;
- Producing high-tech;
- Innovating;
- Having a significant share in world trade;
- Being one of the world's foremost investment, finance and R&D centres;
- Applying modern standards in all areas.

Mission Statement

- To help companies deepen their market presence and to access new markets;
- To formulate and implement strategies and policies on foreign economic relations;
- To carry out activities designed to attract direct foreign investments to Turkey;
- To broaden the national, regional and global networks the private sector relies on in its activities;
- To carry out activities that support the country's diplomacy and contribute to the development of bilateral and multilateral social relationships;
- To represent the Turkish business community in international and multinational organisations, and to lobby for the country on international platforms.

Working Principle

ACTION

DEİK organizes international events to gather top executives, business people, entrepreneurs, academicians and NGO representatives from Turkey and all around the world to develop cooperation between Turkey and other countries as well as to boost bilateral trade volume.

POLITICS

DEİK cooperates with international institutions to create new opportunities for Turkish BusinessWorld.

INFORMATION

DEİK develops foreign economic strategies, reports and publications with the aim of generating 'competent' and 'effective' studies to shed light in Turkish business world's foreign economic relations.

With each passing day, globalisation brings people, countries and even continents closer together; interactions increase, borders are removed...

International capital flows ever more reely asthe world economy is reshaped...
Foreign economic relations can no longer be regarded as imports, exports and investments alone;

DEİK views foreign economic relations as far more than trade and of an importance beyond influence, global policies and representation of one's country.

Business Councils

DEİK's DNA: BUSINESS COUNCILS

Business Councils implement the decisions taken by DEİK executive organs.

They are the fundamental units of the organisation and establish the bilateral, multilateral and corporate cooperations in the countries, sectors and areas of interest for which they are responsible. There are three different kinds of Business Councils at DEİK: "Country Based Business Councils", "Sector-Specific Business Councils" and "Business Councils with Specific Purposes".

Business Councils

Sector-Specific Business Councils

Their purpose is to gather valuable sector-related information in one place and in collaboration with the public and the private sector as well as with civil society organisations, to establish development plans.

Country Based Business Councils

DEİK's Country Based Business Councils are established on the basis of cooperation agreements signed with counterpart organisations. Their purpose is to develop and deepen bilateral economic relations with the respective country.

Business Councils with Specific Purposes

DEİK's two Business Councils with Specific Purposes are Turkish World Business Council (2007), which unites Turkish businesspeople and entrepreneurs, domiciled abroad and The Foreign Investment Business Council was established in 2013 with the purpose of understanding the dynamics of Turkish private sector investments in foreign countries, of generating solutions for needs arising in connection with such investments, and of ensuring a high degree of coordination with the state in this respect. The Council aims to become one of Turkey's leading corporate organisation in this area.
