

DIGITECH

DEiK/DIGITAL TECHNOLOGIES BUSINESS COUNCIL

COMPANY PROFILES

Nail OLPAK
President of DEİK

Foreign Economic Relations Board, DEİK, is a business platform that has been continuing its activities for 39 years in order to enhance bilateral economic relations between Türkiye and other countries. We continue our works with an understanding of “Business Diplomacy” together with our 152 country based and sectoral business councils all over the world.

DEİK Digital Technologies Business Council is one of the sectoral based councils under DEİK that has been established in 2022. Its purpose is to carry out projects on globalizing Türkiye’s digital technologies ecosystem. To this end it aims to make Türkiye a tech hub and to create digital corridors with other countries, to create platforms to bring together global venture capitals, domestic venture capitals, scale-ups and start ups. The Digitech Business Council operates its functions with the following 10 sub-committees: Cloud Technology, financial technologies (Fintech), mobile Technologies, gaming, cyber security software technologies, innovative technologies, venture capital, health technologies, and web3-blockchain.

Digital technologies will be the most important player behind the economic transition. Hence, we are implementing policies and measures in the field of e-government, big data, artificial intelligence, innovative technologies, fintech and cybersecurity. The use of digital technologies to boost the country's competitiveness is central to our efforts.

Türkiye’s digital technology ecosystem has proven to be attractive to both domestic and international investors. Recent developments in Türkiye’s startup ecosystem has strengthened investors’ conviction that Türkiye is a major hub in the global technology market.

R. Erdem ERKUL

DEİK/Digital Technologies Business Council
Chairperson

R. Erdem Erkul, PhD, is a technology entrepreneur, who has achieved remarkable work in the technology field with distinct and strong experiences. Mr. Erkul is also one of the founders of Cerebrum Tech. Mr. Erkul was appointed as the Honorary Consul of the Republic of Korea in Sivas by May 2024.

During the high school and university years, Mr. Erkul worked as a content creator at Türkport, one of Türkiye's first internet portals. In the following years, he continued his career in different big companies.

Erdem Erkul had taken charge in different positions in Microsoft Türkiye and MEA Region for many years. In addition, Mr. Erkul had worked as a director and company spokesperson at Samsung between 2014-2018. Moreover, in these years, he had taken part in different R&D and innovation projects and tasks between South Korea and Türkiye. Erkul had an important role in establishing innovation and R&D centers in Türkiye and MEA.

R. Erdem Erkul served as vice president of the Council of European Professional Informatics Associations (CEPIS), based in Brussels, between 2014-2017. In addition, he is actively working in distinct and important positions today. Mr. Erkul is a board member of Türkiye Bilişim Vakfı (TBV - Türkiye Informatics Foundation) and Global Girişimcilik Network (GEN Türkiye - Global Entrepreneurship Network). Erdem Erkul is also vice president of Council of European Professional Informatics Societies (CEPIS). Furthermore, he also serves as the chairperson of the Foreign Economic Relations Board (DEİK) Digital Technologies Business Council and he is DEİK Sectoral Business Council Coordinator Chairperson. In addition, Mr. Erkul is a member of the DEİK Board of Directors and Executive Committee. Moreover, Mr. Erkul was elected as a member and contributor of the Forbes Technology Council in August 2023.

Erdem Erkul, PhD, stands out in the studies on e-government, e-participation, smart cities, artificial intelligence, metaverse, new generation technologies, WEB 3.0 and entrepreneurship, and he is known as a pioneer in these fields. Mr. Erkul has national and international diplomas in the fields of public administration, innovation, entrepreneurship and business. Besides his achievements and successful work and entrepreneur life, he is interested in different hobbies in his private life, and he plays qopuz (kopuz) and baglama (bağlama) which are traditional Turkish instruments.

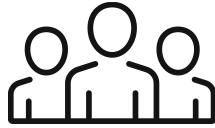

FOREIGN ECONOMIC RELATIONS BOARD OF TÜRKİYE (DEİK)

Foreign Economic Relations Board (DEİK), Türkiye's window to the world; is a voluntary-based business organization, aiming at strengthening the Turkish private sector since 1985.

With a key focus on "Business Diplomacy", DEİK has been working on developing foreign economic relations of Türkiye's private sector, seeking both foreign and domestic investment opportunities and enhancing bilateral trade between Türkiye and its potential partners.

With its 152 Business Councils worldwide, DEİK mainly acts to improve Türkiye's trade and investment relations in a strategic manner with direct contact in these 144 countries.

DEİK is working with the task of "conducting the foreign economic relations of the Turkish private sector" and carries out activities under the coordination of the Ministry of Trade.

FINBERG

Field of Activity: VC Management Company

Web: <https://finberg.com.tr/>

Established in 2018 as a wholly-owned subsidiary of Fibabanka, Finberg is Turkey's first fintech-focused venture capital company. Since 2018, Finberg has made 62 investments totaling \$88 million, including 12 venture capital funds, with a strategic focus on fintech, e-commerce, and logistics technologies.

Today, Finberg operates through five primary funds and positions itself as a VC management company. These funds allow Finberg to invest in a diverse range of startups, from seed-stage to growth-stage companies.

Finberg plays a vital role in Turkey's entrepreneurial ecosystem. By aligning with Turkey's dynamic market needs and global trends, Finberg offers unique value to its portfolio companies through capital, mentorship, and a broad industry network. Beyond financial investment, Finberg provides strategic partnerships and growth support, positioning companies for success both locally and internationally.

With a proven track record of securing high-quality deals like United Payment, Colendi, and İkas, Finberg maximizes value for its stakeholders by investing in scalable, technology-driven business models that are innovative and resilient. Its selective approach reflects Finberg's mission to build sustainable businesses, not just to chase valuations—an approach that has earned it a trusted place in the VC landscape.

Looking ahead, Finberg aims to expand its influence in Turkey and the surrounding region by supporting startups that create innovative solutions and technology.

HOMETECH & MIPO

Field of Activity: Electronic Products (Notebook, Tablet, Smart phones, Smart watches, Gaming equipment, Phone accessories, Small home appliances etc.)

Web: <https://www.mipo.com.tr/> , <https://www.hometech.com.tr/>

Aral Group, with over 40 years of experience in manufacturing, distribution, sales, marketing and logistics, established Hometech Electronics in 2004 to focus on consumer electronics. After strengthening its partnership with Microsoft, the company shifted to producing notebooks and tablets, becoming a top-selling tablet brand in Turkey.

Hometech continued to make computers accessible through affordable entry-level models. Recently, the company's Ministry of Industry approved R&D center has driven innovation, especially in smartphones. In 2023, it launched Mipo, an Android-based smartphone brand, offering six models known for their price-to-performance ratio. Mipo will expand with new smartphones, smartwatches, and accessories.

Through continuous innovation and accessibility, Hometech aims to further grow in the competitive electronics market and is looking for global partners to manufacture in local partnership and expand globally.

TRA TECH

Field of Activity: Venture Capital

Web: <https://www.trabilisim.com/>

TRA Bilişim was founded on January 1, 2017, within Sakarya University Teknokent, focusing on software development for various applications like BOSS, MAKAS, and Dilim. The company has expanded its influence by supporting freelance entrepreneurs and project owners, alongside managing its own successful software projects across diverse fields. This dual role emphasizes TRA Bilişim's commitment to fostering innovation both within its organization and throughout Turkey's entrepreneurial landscape.

TRA Bilişim serves a wide range of clients from sectors such as banking and agriculture. Its client base includes industry-leading companies that rely on advanced technology to drive growth and innovation, a reflection of TRA Bilişim's role in empowering companies to leverage digital transformation for business success. By catering to pioneering organizations that are dynamically adapting to technology trends, TRA Bilişim has established itself as a vital support system for companies seeking to maintain a competitive edge in today's technology-driven world.

Since its establishment, TRA Bilişim has been recognized for its contributions to the technology sector. In 2017, it was awarded first place at Sakarya University Teknokent, ranking highly in both the "General Ranking of Entrepreneurial Firms" and "R&D Achievements among 0–4 Year-Old Entrepreneurial Firms." This achievement underscores the company's dynamic and innovative approach to software development. Additionally, in 2021, TRA Bilişim won the top prize in the R&D category for technology employment, further solidifying its reputation as a leader in tech-driven employment initiatives.

Looking ahead, TRA Bilişim aims to continue providing software support to leading Turkish companies in sectors such as finance, agriculture, and more. With a strategy grounded in the importance of continual adaptation to evolving technology, TRA Bilişim remains dedicated to advancing Turkey's tech landscape, enabling industries to adapt to and capitalize on the rapid changes brought by digital transformation.

TURKCELL

Field of Activity: Telecommunication

Web: <https://www.turkcell.com.tr>

Turkcell is a converged telecommunication and technology services provider, founded and headquartered in Turkey. It serves its customers with voice, data, TV and value-added consumer and enterprise services on mobile and fixed networks. Turkcell's shares have been traded on the Borsa Istanbul (BIST) and New York Stock Exchanges (NYSE) since July 11, 2000, and it is the only Turkish company to be listed on the latter exchange. Turkcell is also quoted on the Borsa Istanbul Sustainability Index.

Turkcell's target has been to become an integrated communication and technology services player in the region, operating a converged mobile and fixed network platform and offering a wide range of innovative products and services. Turkcell believes that it is important to offer our consumer and corporate customers the full range of our mobile, fixed and broadband services to meet their expectations.

Turkcell also has investments abroad. Launched in 1999 as a wholly-owned subsidiary of Turkcell, Kuzey Kıbrıs Turkcell operates as a mobile operator and fixed internet provider. In Belarus, Turkcell acquired 80% of the shares of BeST from the State Assets Committee of the Republic of Belarus in 2008 and increased its shareholding to 100% by 2022 December.

Turkcell was one of the first among the global operators to have implemented HSPA+. It has announced two new HSPA+ Technologies on its 3G network to meet rising data usage. Turkcell launched LTE services in its home country on April 1st, 2016, employing LTE-Advanced and 3 carrier aggregation technologies in 81 cities. Turkcell offers up to 10 Gbps fiber internet speed with its FTTH services. Turkcell, with its wide coverage area and diverse range of services abroad, is therefore, able to provide its subscribers with mobile communication services, both in Turkey and around the world.

TÜRKİYE TECHNOLOGY FUND

Field of Activity: Fund of Funds
Web: turkiyeteknolojifonu.com.tr

Established in 2023 by the Türkiye Wealth Fund (TWF), the Türkiye Technology Fund (TTF) serves as the sovereign wealth fund's official fund-of-funds program, strategically crafted to elevate Türkiye's venture capital ecosystem. With a core mission to drive Türkiye's growth stories on a global scale, TTF focuses on investing in venture capital firms that prioritize sustainable growth, foster local innovation, and enhance Türkiye's competitiveness on the world stage.

Designed to accelerate the growth of Türkiye's VC and startup ecosystem, TTF deepens access to venture capital through dedicated funds, catalyzing investment in transformative technologies that not only propel new ventures but also enhance growth in TWF's traditional portfolio. This strategic approach advances technological investments in sectors critical to Türkiye's long-term development and economic resilience.

TTF's mandate specifically supports venture capital firms that invest in the "Türkiye Nexus": businesses founded in Türkiye, employing top local talent, or advancing technological innovation within the country's dynamic landscape. This focus aligns with TTF's commitment to shaping the industries of the future, from artificial intelligence and cybersecurity to deep tech and green energy. By facilitating investments across these high-impact sectors, TTF seeks to empower local and regional entrepreneurs to transform bold ideas into global success stories.

Balancing financial performance with strategic impact, TTF pursues a dual mandate of generating robust returns while strengthening Türkiye's technology ecosystem. TTF partners with venture capital firms that go beyond capital provision to serve as active collaborators, offering startups the guidance and resources needed to scale impactful innovations.

As a catalytic force within the nation's startup landscape, TTF plays a pivotal role in sparking innovation, accelerating sustainable growth, and paving the way for the next generation of transformative companies emerging from Türkiye. Designed to attract world-class venture capital funds and visionary entrepreneurs, TTF is poised to be the foundation on which Türkiye's market-shaping enterprises will thrive, making an indelible mark both locally and globally.

ZIRAAT BANK

Field of Activity: Banking

Web: www.ziraatbank.com.tr

Ziraat Bank More Than a Bank

Ziraat Bank continues to play a pivotal role in shaping the Turkish banking sector, as it has historically done in the past.

It was founded in 1863 as a modest charity fund and developed with great strides over time. Today, Ziraat Bank is regarded as the most established and reliable financial entity in Turkey, and it is considered one of the country's most significant assets. With a customer-focused approach and a commitment to digitalization, Ziraat Bank provides secure, fast, and accessible financial solutions to individual and corporate customers across Türkiye and around the world.

Ziraat Bank shapes Turkish banking sector today as it did in the past with its rich variety of products and services, synergistic structuring with its subsidiaries, unrivaled market knowledge and experience, human resources and strong financial structure.

Ziraat Bank strengthens its vision of digitalization with the latest technologies and enables its customers to carry out their financial transactions easily and safely by using innovative technologies effectively. In addition to being the bank with the largest branch network in Türkiye, Ziraat Bank offers global services through its international subsidiaries and produces financial solutions worldwide. As a leader in digital transformation, Ziraat Bank continuously enhances platforms such as Ziraat Mobile, Internet Banking, and innovative payment systems to elevate the customer experience.

In addition to digital innovations, Ziraat Bank also stands out with its support for sustainability and social responsibility projects. With its investments in green financing, energy efficiency and environmentally friendly projects, the Bank aims to create a lasting impact not only in the finance sector but also in the social sphere.

With over 160 years of experience and innovative solutions, Ziraat Bank is a leader in digital financial services. By adapting to the changing needs of its customers, it will continue to take strong steps forward in the financial world of the future.
