

**The State Committee
for Industry, Energy and Subsoil Use of the Kyrgyz Republic
announces an auction to provide a license for the right to use subsoil at the next facility.**

№ of Lot	Field name	Type of mineral	Type of subsoil use	Field location	Brief geological characteristics	Starting price of the field
1	Ysyk-Ata field	gold	Geological exploration	Kochkor district of Naryn province and Panfilov district of Chui province of the Kyrgyz Republic	Most of the area of work (up to 60%) is covered by glacial deposits of significant thickness. The increased gold content is associated with veins of quartz, quartz-barite composition. The thickness of the cores does not exceed 0.5 m to 3.0 m. The length of individual cores is not great - from the first tens of meters to 200.0 m.	3066 (three thousand sixty six) US dollars
2	Pytan-Dongurmin field	gold	Geological exploration	Kochkor district of Naryn province of the Kyrgyz Republic	The divisive parts of the northern and north-eastern slopes of the mountains are covered with glaciers and snowfields. Elevated gold contents are associated with veins of quartz, quartz-barite composition, which have a predominantly northwestern sub-latitudinal strike. The thickness of the cores does not exceed 0.5 m. The length of individual cores is not very large - the first tens of meters.	7000 (seven thousand) US dollars

The auction will be held on September 18, 2019 at 12-00 in the building of Municipality of Kochkor district of the Naryn province. Registration of participants of auction from 11-30 to 11-50 o'clock.

Anyone wishing to participate in the auction must submit documents for participation in the auction no later than 15:00 o'clock on September 13, 2019 at the State Committee for Industry and Energy at Erkindik Avenue 2, Bishkek, office No. 227. Details of all necessary documents for participating in the auction contained in the "Terms of the auction to provide the right to use the subsoil object".

The conditions of the auction, the requirements for participation in the auction, as well as other information regarding the auction can be found on the website: www.gkpen.kg, by phone: tel. +996 312 90-12-57 (+1023), as well as in the Department of Geology of the State Committee for Industry, Energy and Subsoil Use of the Kyrgyz Republic, office. No. 209, daily from 9-00 to 18-00 hours.

*State Committee for Industry, Energy and Subsoil Use of the Kyrgyz Republic
announces holding of the Auction for Providing the License for the Right to Use Subsurface Mineral Resources of the following Facility*

№	Facility name	Mineral deposit type	Subsoil use type	Facility location	Geological summary	Starting price of the Facility
1	Ak-Korgon Area	Sand and gravel mix	Geological prospecting work	Naryn District, Naryn Region	The productive horizon is represented by the Upper Quaternary blanketlike field of bouldery-gravel-sandy deposits (QIII) with a thickness from 4.0 m to 4.5 m, in average 4.25 m. Crushed stone and sand are suitable for concrete.	141 (one hundred forty one) US dollars

The auction will be held on **September 14, 2019 at 12-00 p.m.** in the mayor's administration building of Naryn city, Naryn Region. Registration of auction participants will be **from 11-30 a.m. to 11-50 a.m.**

Everyone wishing to participate in the Auction must submit documents for participation in the auction **no later than 3:00 p.m. on September 11, 2019** to the State Committee for Industry, Energy and Subsoil Use located at the address: office No. 227, bldg. 2 Erkindik Avenue, Bishkek city. The detailed information on all necessary documents for participation in the auction is stated in the **"Terms of the Auction for Providing the Right to Use the Subsurface Use Facility"**

For the auction conditions, requirements for participation in the auction, as well as for any other information regarding the auction please refer to website www.gkpeh.kg, call by phone: 904040 (1023), as well as apply to the Geology Department of the State Committee for Industry, Energy and Subsoil Use of the Kyrgyz Republic, office. No. 209, daily from 9-00 a.m. to 6-00 p.m.
