

The State Committee of Industry, Energy and Subsoil use of the Kyrgyz Republic announces
the submission of the license for the right to use the subsoil on the following objects

Object	Type of mineral	Type of subsoil use	Location	Geological description	Start price of object
Karakuldzha square	Oil and gas	Geological exploration	Osh region, Kara-Kuldzha district	South Ferghana, a small fragment of which is East Akburinsky Square, one of the oldest and most important oil and gas regions of the Ferghana oil and gas region. According to existing taxonomic schemes, Karakuldzhinsky Square is located near the southern border of the Ferghana oil and gas province and directly adjoins the South Ferghana fold zone (Akramkhodzhaev, 1970); many of them have already established industrial oil and gas potential of Paleogene, Cretaceous, Jurassic and Paleozoic (Permian) deposits. However, according to researchers, the possibility of detecting reservoir deposits of oil and gas in this territory is far from exhausted. In the light of the new model of the structure of the southern framing of the Ferghana Depression, localized burials of various types buried under thrusts of the Paleozoic complexes in the Mesozoic Cenozoic reservoirs located in the northern part of the South Fergana zone are promising for the detection of hydrocarbon reservoir beds.	14 470 (fourteen thousand four hundred seventy) US dollars.

The auction will be held on November 13, 2019 in the village of Kara-Kulzha in the building of the district state administration of the Kara-Kuldzhinsky district of the Osh region of Kyrgyz Republic. Registration of auction participants from 11-30 to 11-50 hours.

Those wishing to take part in the auction must submit documents for participation no later than 15:00 on November 7, 2019 at the State Committee for Economics of the Kyrgyz Republic at the following address: Erkindik Avenue 2, office No. 227, Bishkek.

The conditions, requirements for participation, as well as other information related to the auction can be found on the website www.gkpen.kg, by phone: (+996 312) 90-40-40 + 1021, as well as in the Geology Department of the State Committee for Economics and Politics of the Kyrgyz Republic, office No. 206, daily from 9-00 to 18-00 hours.

*The State Committee of Industry, Energy and Subsoil use of the Kyrgyz Republic announces
the submission of the license for the right to use the subsoil on the following objects*

№	Object	Type of mineral	Type of subsoil use	Location	Geological description	Start price of object
	Tashkumyr Square	Oil and gas	Geological exploration	Jalal-Abad region, Nooken District	Tashkumyrskaya Square and its environs are rich in oil manifestations, both natural and artificial. In the geological section of the area, Paleozoic, Mesozoic, and Cenozoic formations are noted; the expected productive strata are localized in the latter and are confined to Paleogene deposits.	3433 (three thousand four hundred thirty three) US dollars.

The auction will be held on November 12, 2019 in the city of Massa in the building of the district state administration of the Nooken district of the Jalal-Abad region of the Kyrgyz Republic. Registration of auction participants from 11-30 to 11-50 hours.

Those willing to participate in the auction must submit documents no later than 15:00 hours on November 7, 2019 year to the State Committee of Industry, Energy and Subsoil use of the Kyrgyz Republic, address: Bishkek, Erkindik Blvd., 2, room № 227.

The terms and conditions of an auction, requirements for participation and other information related to the auction can be found on the website: www.gkpen.kg, by phone: (+996 904040 ext. + 1021, as well as in the Department of Geology of the State Committee of Industry, Energy and Subsoil use room № 206, everyday from 9:00 to 18:00 o'clock.
