

## INNOVATION AND TECHNOLOGY FORUM III TURKEY - SLOVAKIA

Istanbul, June 19th 2012

ISTANBUL  
CHAMBER OF INDUSTRY

CONSULATE GENERAL OF THE  
SLOVAK REPUBLIC  
ISTANBUL

### SLOVAK COMPANY PROFILES

(Slovak firmaları buradan inceledikten sonra,  
görüşme seçimlerinizi [www.surveymonkey.com/s/slovakforum](http://www.surveymonkey.com/s/slovakforum) adresinden yapabilirsiniz)

#	COMPANY	REPRESENTATIVE	ACTIVITY OF THE FIRM	LOOKING FOR
1	<b>SPINEA s.r.o.</b> <a href="http://www.spinea.sk">www.spinea.sk</a>	<b>Mr. František TAKÁČ</b> Manager	Research, development, production of high-precision reducers with constant gear ratio that were introduced on the market under the trade mark TwinSpin. High precision reducer/gearbox with a radial thrust bearings integrated into a compact unit, protected by several worldwide patents. Rotary support module based on a bearing reducer TwinSpin, Electro-mechanical actuator based on a modified TwinSpin high-precision reducer.	We are expecting Turkish business partner and potential customers.
2	<b>ZTS VVÚ Košice a.s.</b> <a href="http://www.ztsvvu.eu">www.ztsvvu.eu</a>	<b>Mr. Peter VASILKO</b> Manager	Robotic carriages for internal transport, heavy duty hydraulic teleoperators, packaging lines for products on pallets, palletizing machines for piece goods, transport and handling systems, tar paper roof tiles manufacturing plants, electronic weighing systems, labelling machines, electronic control systems for manufacturing, special trailers (low loader trailers)...	Our company is open to serious cooperation and delivering new technologies in field automation technologies processes in industry.

3	<b>ZELPO - Železiarne Podbrezová a.s.</b>  <a href="http://www.zelpo.sk">www.zelpo.sk</a>	<b>Mr. Vladimír SOTÁK</b> General Director  <b>Mr. Marcel ADAMČÁK</b> Marketing Director	Production of rolled steel seamless tubes and precise cold drawn tubes from carbon and low alloy steel within size range of 3-140 mm. Tubes are designed for use in various fields of industry, in particular in engineering, automobile production and energy sectors.	We are interested to find partners for our trading (sales and purchase activities) and also partners for our Research and development centre (ZP VVC) that main projects are: Research and development of micro-alloyed steels, rolling of bimetallic tubes for energy industry, boiler alloy tubes, cohesion strength of Zn layers...
4	<b>TS PLZEŇ a.s.</b>  <a href="http://www.tsplzen.cz">www.tsplzen.cz</a>	<b>Mr. Milan JIRÁSKO</b> Technical Director	Development, projecting and manufacturing, delivery, assembly and commissioning of open-die forging presses with forging force 40 ÷ 200 MN, extrusion presses for forging of materials from Cu, Al and steel, curing presses for curing of tires for trucks, tractors and heavy building machines, equipment for cold rolling of strips, deliveries of spare parts.	Seeking of new customers for sales of own products or modernizations of existing equipment at customers, contacting companies suitable for cooperation, discussing of possibilities of joint participation of investment projects.
5	<b>SYLEX s.r.o.</b>  <a href="http://www.sylex.sk">www.sylex.sk</a>	<b>Mr. Dušan SYNAK</b> General Manager	Design, development, production and assembly of components and subsystems for optic and metallic networks. Design and development, production and assembly of products, production and test devices in the field of electronics, optoelectronics, sensors and sensor systems.	We are looking for the local partners to buy our products and/or to collaborate with us on the projects where our products can be applied.
6	<b>ELCOM s.r.o.</b>  <a href="http://www.elcom.sk">www.elcom.sk</a>	<b>Mr. Miloslav KARAFFA</b> General Director	GENIELITE is an international networking project focused on energy savings and lighting ergonomomy. Delivery of highest quality products in the area of lighting technology and its control with rapid investment payback. The offer includes a unique power-line lighting control system REGULIGHT, lighting sources of all types, building energy certification software and further products.	We are searching for partnership/joint venture within the GENIELITE networking project. We look for reliable partners to enter the market through a channel of global network world-class solution providers, including value added resellers, system integrators and distributors, energy saving solutions

				companies, lighting producers, electrical installation companies, street lighting service companies, energy producers and distributors.
7	<b>TESLA Liptovský Hrádok a.s.</b>  <a href="http://www.teslah.sk">www.teslah.sk</a>	<b>Mr. Roman PALAJ</b> Chairman of the Board and CEO  <b>Mr. Ján Vyšňan</b> Key Account Manager	Producer of telecommunication equipment (public switches, PABX switches, phone sets etc.). Telecom products for use in public or private networks. IP based products in capacities from 1 customer up to several thousand customers determined for operators, corporate networks, as a standalone products or complete solutions (i.e. corporate solutions, city networks, operator exchanges etc.). Products are equipped with many kind of interfaces offering analog, digital, ISDN, GSM or IP interface.	We are looking for a local distribution partner with excellent knowledge of telecom market. We are offering full support of strong telecommunication company with long term experience on telecom markets.
8	<b>DYNAMIS, Ltd.</b>  <a href="http://www.dynamis.sk">www.dynamis.sk</a>	<b>Mr. Ondrej CHROBÁK</b> General Director	Development of residential zones, construction of dwellings (building construction of low energy consume dwelling houses). Building of ready made houses, based on modular building system with light gauge steel frame system from galvanized steel, resistant to an earthquake with minimum energy costs during the lifetime.	Presentation of an innovative project in dwellings construction, resistant to an earthquake and with low energy costs during the lifetime.
9	<b>VUKOV EXTRA a.s.</b>  <a href="http://www.vukov.sk">www.vukov.sk</a>	<b>Mr. Vladimír VÁMOŠI</b> General Director  <b>Mr. Milan JAVORSKÝ</b> Commercial Director	Manufacturing and handling processes, automated production and packaging cells and production lines. Design, manufacturing and applying the conveyors and conveying systems. Production according to customer design of various parts, assemblies and units from various fields of industry such as automotives, civil engineering, woodworking, food industry, and even in nuclear energy field and in aviation.	We have an interest for realizing the turnkey projects in various fields of industry for automation of material handling operations and designing, manufacturing and, installment of special single purpose machines.

10	<b>IPESOFT spol. s r.o.</b> <a href="http://www.ipesoft.sk">www.ipesoft.sk</a>	<b>Mr. Ján PAULÍNÝ</b> Commercial Director	Innovative information solutions for smart, real-time management of manufacturing production and the energy industry. Solutions and applications provide powerful tools supporting the real-time decision making for managers at all levels. The main contribution is providing the effective and up-to-date information about the state of production or business processes.	We are looking for business partners in energy management and trading system implementation/selling. We are looking for technology companies to partner with in order to use our core real-time technology as a basic for their own solutions development. We would like to establish long term partnership bringing mutual benefits for all parties.
11	<b>TOMARK s.r.o.</b> <a href="http://www.tomarkaero.com">www.tomarkaero.com</a>	<b>Mr. Daniel TOMKO</b> General Director	Specialized in the machining, shaping, and cutting of metals and in the manufacture of welded structures and components for the mechanical engineering industry. Products for o demanding customers according to their drawn documentation. <i>TomarkAero</i> division, specialised in aviation, the company is involved in the manufacture of the all-metal two-seater microlight sports aircraft Viper SD-4, microlight/LSA aircraft, ideal for travelling, flight schools, tourism and glider tows.	We would like to get in contact with companies in the mechanical engineering and aviation industry.
