

**Under the patronage of the Governor of the Central Bank of Iraq**  
**The Banking Technologies Conference**

**Is to be held Under the slogan**

**(Developing the infrastructure for Information technology and Payment Systems)**

**Introduction**

Given the advancement in the banking sector, business methods and bank customer service in a manner that would rise to the international service standards, The Iraqi Private Banks League, under the patronage of the Central Bank of Iraq, is privileged to invite you to participate in the Banking Technologies Conference due to be held at Babylon Hotel in Baghdad on the 6<sup>th</sup> and 7<sup>th</sup> of May 2017

This conference comes after endeavors made by Iraqi banks to develop their business based on the vision and strategy of the Central Bank of Iraq aimed at uplifting this sector, developing their business and integrating modern technology in their banking systems and to utilize the successful experiences provided by the international companies in applying banking systems and software in many countries of the region as a means to connect the bank branches and electronic management in addition to e-payment services using the cards or the mobile, thus facilitating and encouraging the winning of more clients benefitting from the technology to speed up providing services to them.

Based on the foregoing, the Iraqi Private Banks League has adopted holding this significant event endeavoring to advance the banking business in Iraq and to keep up with the latest products of international banks and financial institutions.
