

Country	Project Name	Main Sector
Bahrain	East Hidd Residential City Project	Construction
Bahrain	Abqaiq, Eastern Province (Saudi Arabia) - Sitra Refinery, Central Governorate (Bahrain) Crude Oil Pipeline Project	Energy & Utilities
Bahrain	Strategic Water Distribution Station, Seef District	Energy & Utilities
Bahrain	Muharraq Arad Fort Tourist Resort, Muharraq	Construction
Bahrain	United Tower Project, Bahrain Bay	Construction
Bahrain	Dragon City Retail Development, Diyar Al-Muharraq	Construction
Bahrain	Investment Gateway - Bahrain Project, Muharraq	Construction
Bahrain	Arad Housing Units, Muharraq	Construction
Bahrain	National Oncology Centre, King Hamad University Hospital, Muharraq	Social Infrastructure
Bahrain	Salmaniya Medical Complex Upgrade, Manama	Social Infrastructure
Bahrain	Muharraq Hospital (Part of GCC Marshall Plan)	Social Infrastructure
Bahrain	One&Only Luxury Resort, Seef, Capital Governorate	Construction
Bahrain	GCC Railway Network	Transport
Bahrain	The Avenues Corniche Project, Manama	Construction
Bahrain	Muharraq Ring Road Project	Transport
Bahrain	Alba/Nuwaidrat Intersections Development Project	Transport
Bahrain	Strategic Water Distribution Station, Al-Madina Al-Shamaliya	Energy & Utilities
Bahrain	Dry Bulk Logistics Hub, Bahrain Logistics Zone, Al-Hidd, Muharraq	Transport
Bahrain	Fairmont Al-Jazayer Luxury Resort	Construction
Bahrain	Bahrain Marina Development Project, Manama	Construction
Bahrain	Hidd Transmission Substation Project, Muharraq	Energy & Utilities
Bahrain	King Hamad Causeway, Bahrain - Saudi Arabia	Transport

Bahrain	Mohammed bin Khalifa Al-Khalifa Specialist Cardiac Centre, Awali	Social Infrastructure
Bahrain	Bahrain Bay - Four Seasons Hotel, Manama	Construction
Bahrain	King Abdullah Medical City, Southern Governorate	Social Infrastructure
Bahrain	Bahrain University Campus, Muharraq	Social Infrastructure
Bahrain	Sheikh Jaber Al-Ahmed Al-Sabah (SJAS) Highway	Transport
Bahrain	Marassi Al Bahrain Mixed-use Waterfront Project, Diyar Al-Muharraq Community	Construction
Bahrain	Hawar Islands Tourism Project, Northern Dohat	Construction
Bahrain	Al Madina Al Shamaliya Sewage Treatment Plant	Energy & Utilities
Bahrain	Alba The Line 6 Expansion Project, Smelter	Construction
Bahrain	Alba The Line 6 Expansion Project, Fifth Energy Plant	Energy & Utilities
Bahrain	GARMCO Re-melt & Casting Facility	Construction
Bahrain	Umm Al Hassam Transmission Substations Project, Capital Governorate	Energy & Utilities
Bahrain	Riffa Transmission Substations Project, Southern Governorate	Energy & Utilities
Bahrain	Muharraq - Manama Fourth Causeway	Transport
Bahrain	Al Fateh Highway Tunnel, Juffair Interchange	Transport
Bahrain	Modern Residence-2, Amwaj Islands	Construction
Bahrain	Water Bay - Residential Complex, Bahrain Bay	Construction
Bahrain	BDF Military Hospital - Clinic and Car Park Facility, Wadi Al Sail, West Riffa	Social Infrastructure
Bahrain	Wahat Al Muharraq Residential Project, Qalali, Muharraq	Construction
Bahrain	Al Areen Palace and Spa Five-Star Resort Hotel Expansion	Construction
Bahrain	Second Airport, Manmade Island off the North Coast	Transport
Bahrain	Canal View, Island of Dilmunia, Muharraq	Construction

Bahrain	LNG Terminal, Al-Hidd, Muharraq	Construction
Bahrain	Wastewater Treatment Plant, Northern Town	Energy & Utilities
Bahrain	Dilmunia Gateway Bridge (DGB) Project	Transport
Bahrain	King Fahd Causeway Expansion Project	Transport
Bahrain	Mondelez Biscuit Plant, Al Hidd, Muharraq	Construction
Bahrain	Layan Water Park and Residential Complex, Durrat Al Bahrain	Construction
Bahrain	Residence Sharq, Island of Dilmunia, Muharraq	Construction
Bahrain	Budaiya Highway Upgrade, Northern Governorate	Transport
Bahrain	Hawar Islands Tourism Project - Phase 1, Northern Dohat	Construction
Bahrain	Hawar Islands Tourism Project - Phase 2, Northern Dohat	Construction
Bahrain	BAPCO Oil Refinery Expansion, Sitra	Construction
Bahrain	Al Ahsa (Eastern Province) - Bahrain Bridge	Transport
Bahrain	Bahrain Mumtalakat Alloy Wheels Manufacturing Facility	Construction
Bahrain	Alba Aluminium Pot Line 6 Expansion Project	Construction
Bahrain	Bahrain Aiport Modernisation - Baggage Handling System, Muharraq	Transport
Bahrain	Bahrain Aiport Modernisation - Terminal Building Project, Muharraq	Transport
Bahrain	Baoshang Bank Logistics Hub Project	Construction
Bahrain	Diyar Al Muharraq Development	Construction
Bahrain	Diyar Al Muharraq Development - Housing Project	Construction
Bahrain	Durrat Al Bahrain Marina Project	Construction
Bahrain	East Hidd Residential City Project Phase 1	Construction
Bahrain	East Hidd Residential City Project Phase 2	Construction
Bahrain	Fibreglass Plant, Bahrain International Investment Park , Salman Industrial City	Construction
Bahrain	Fuelpipeline and Storage Facilities Expansion	Construction
Bahrain	Garmco Re-melt and Casting Facilities Expansion	Construction

Bahrain	North Manama Causeway Project	Transport
Bahrain	Busaiteen Link project	Transport
Bahrain	Sitra Field Pipelines and Storage Expansion	Energy & Utilities
Bahrain	Bahrain Oil Field - New Gas Processing Plant (CGP-III)	Energy & Utilities
Bahrain	Tatweer Petroleum - Gas Dehydration Facility	Energy & Utilities
Bahrain	Hawar Island Solar Power Plant	Energy & Utilities
Bahrain	Manama Central Market Revamp Project	Construction
Bahrain	Marina West Project, Budaiya	Construction
Bahrain	Marsa Al Seef Project	Construction
Bahrain	National Assembly Project	Social Infrastructure
Bahrain	Northern Town Residential Project (Al Madina Al Shamaliya) - Phase 2	Construction
Bahrain	Ras Al Barr Resort Project	Construction
Bahrain	Banader Rotana Hotel Project	Construction
Bahrain	Sukoon Tower, Juffair Manama	Construction
Bahrain	Tubli Sewage Treatment Plant (STP) Phase 4 Expansion	Energy & Utilities
Bahrain	Souq Al Buhair Renovation Project, East Riffa	Construction
Bahrain	Muqaba Sewerage Network Project	Energy & Utilities
Bahrain	El Mercado Village Residential Project, Janabiya, Northern Governorate	Construction
Bahrain	Awali Gas Pipeline Project	Energy & Utilities
Bahrain	Bahrain Bay Twin Tower Apartment Block	Construction
Bahrain	Bahrain International Airport (BIA) Modernisation Project, Muharraq	Transport

Bahrain	Al Dur 1 Independent Power Generation and Water Desalination Plant	Energy & Utilities
Bahrain	Durrat Al Bahrain	Construction
Bahrain	Muharraq Sewage Treatment Plant, Hidd	Energy & Utilities
Bahrain	East Sitra City Residential Project	Construction
Bahrain	Wastewater Treatment Plant Upgrade, Tubli Water Pollution Control Centre	Energy & Utilities
Bahrain	Deerat Al Oyoun - Residential Development, Diyar Al Muharraq	Construction
Bahrain	SULB Integrated Steel Complex, Hidd, Muharraq	Construction
Bahrain	Mina Salman Interchange	Transport
Iran	Persian Gulf Coast Water Supply Pipeline	Energy & Utilities
Iran	Styrene Petrochemical Park, Pars Special Economic Zone, Assaluyeh, Bushehr	Construction
Iran	Imam Khomeini Airport - Parand City Subway Line	Transport
Iran	Chabahar-Zahedan-Mashhad Railway	Transport
Iran	Gharachilar (Karachinar) Hydropower Plant, Aras River	Energy & Utilities
Iran	Said Rajee Port Renovation Project	Transport
Iran	Kish Island Gas Electric Power Plant, Hormozgan	Energy & Utilities
Iran	Simareh Dam Project, Ilam	Energy & Utilities
Iran	Bafq Iron-Ore Pelletizing Plant, Yazd	Construction
Iran	Special Petrochemical Zone, Iranshahr, Sistan and Baluchestan	Construction
Iran	Mehran Four-Lane Highway, Iran - Iraq	Transport
Iran	Second Power Station, Kish Island, Hormozgan	Energy & Utilities
Iran	Silk Road Economic Belt Railway	Transport

Iran	Qazvin Wind Park, Kahak	Energy & Utilities
Iran	Tabriz-Bazargan Highway Project	Transport
Iran	Tabriz Tramline Project, East Azerbaijan	Transport
Iran	Bushehr Nuclear Power Plants - Phase II	Energy & Utilities
Iran	Iran-Iraq-Syria Natural Gas Pipeline (Friendship Pipeline)	Energy & Utilities
Iran	Manjil Wind Farm Expansion, Gilan	Energy & Utilities
Iran	Tabas Coal Fired Power Station, Khorasan	Energy & Utilities
Iran	Tabriz-Bazargan Highway, Phase - I (Tabriz Airport - The Southern Ring Road Subway)	Transport
Iran	Tabriz-Bazargan Highway, Phase - II	Transport
Iran	(Shalamcheh - Khuzestan)Iran - (Basra)Iraq Rail Line	Transport
Iran	New Solar-Powered Desalination Plant, Hormozgan	Energy & Utilities
Iran	Tehran-Qom-Isfahan High Speed Rail Project	Transport
Iran	Bandar Abbas Steel Plant, Hormozgan	Construction
Iran	Iran - Oman Subsea Gas Pipeline Project	Energy & Utilities
Iran	NALCO Aluminium Complex, Chabahar Free Zone	Construction
Iran	Arvand Free Trade Zone Wind Farm, Khuzestan	Energy & Utilities
Iran	Shiraz Metro - Line 2 - Phase I, Shokufe - Azadi, Fars	Transport
Iran	Shiraz Metro - Line 2 - Phase II, Fars	Transport
Iran	Shiraz Metro - Line 3 - Phase I, Fars	Transport
Iran	Shiraz Metro - Line 4, Fars	Transport
Iran	Shiraz Metro - Line 5, Fars	Transport
Iran	Shiraz Metro - Line 6, Fars	Transport
Iran	Shiraz Metro - Line 1, Phase I, Ehsan Square - Namazi, Fars	Transport
Iran	Shiraz Metro - Line 1, Phase II, Namazi - Gol-e-Sorkh Square, Fars	Transport
Iran	Shiraz Metro - Line 1, Ehsan Square - Gol-e-Sorkh Square, Fars	Transport
Iran	Shiraz Metro - Line 2 , Fars	Transport
Iran	Tehran - Shomal Freeway	Transport
Iran	Tehran-Shomal Freeway, Section 3 (Pol-e Zanguleh - Marzanabad)	Transport
Iran	Tehran-Shomal Freeway, Section 4 (Marzanabad - Chalus)	Transport

Iran	Iran-Pakistan-India-China Pipeline Project	Energy & Utilities
Iran	Pilot Geothermal Power Facility, Meshginshahr, Ardabil province	Energy & Utilities
Iran	Kuwait-Iran Pipeline Project	Energy & Utilities
Iran	Sarooj Pars Complex, Kerman	Construction
Iran	Iran(South Pars Gas Field) - Iraq(Basra) Gas Pipeline Project	Energy & Utilities
Iran	Chabahar Port Development Project, Sistan and Baluchestan	Transport
Iran	Tabriz (East Azerbaijan, Iran) - Yeraskh (Ararat, Armenia) Fuel Pipeline	Energy & Utilities
Iran	Arvand Free Trade Zone, Khuzestan	Construction
Iran	Bandar Abbas Combined-Cycle Power Plant	Energy & Utilities
Iran	Golgohar Water Pipeline Project, Phase 2	Energy & Utilities
Iran	Kahrizak Solar Project, Tehran	Energy & Utilities
Iran	Varamin Solar Project, Tehran	Energy & Utilities
Iran	Malard Solar Project, Tehran	Energy & Utilities
Iran	India - Iran Subsea Gas Pipeline Project	Energy & Utilities
Iran	Imam Khomeini Airport City Project (IKAC), Tehran	Transport
Iran	Qom Monorail System - Stage 1	Transport
Iran	Chabahar-Sarakhs Railway	Transport
Iran	North South Rail Corridor, Iran (Qazvin-Rasht-Astara)-Azerbaijan (Astara) Railway Project	Transport
Iran	Chabahar – Fahraj – Bam Railway Link Project	Transport
Iran	Iran-Armenia Railway Link Project	Transport
Iran	Isfahan Metro Project Line-1	Transport
Iran	Sarney Dam Project, Minab, Hormozgan	Energy & Utilities
Iran	Rasht Hospital Project, Gilan	Social Infrastructure
Iran	Nishapur Hospital Project, Razavi Khorasan	Social Infrastructure
Iran	Mashhad International Airport Expansion Project, Razavi Khorasan	Transport
Iran	Isfahan International Airport Expansion Project	Transport

Iran	Mashhad Light Rail 1 Extension (Ghadir-Shahid Hashemi Nejad Airport), Razavi Khorasan Province	Transport
Iran	Mashhad Light Rail 2 (Koohsangi-Tabarsi), Razavi Khorasan Province	Transport
Iran	Tehran-Shomal Freeway, Section 1, Alborz	Transport
Iran	Persian Gulf Bridge Project	Transport
Iran	Alborz Solar Power Project	Energy & Utilities
Iran	Afghanistan-China-Kyrgyzstan-Tajikistan-Iran Rail Road Project	Transport
Iran	Bakhtiari Hydropower Project, Zagros Mountains, Lorestan	Energy & Utilities
Iran	Chabahar Free Trade-Industrial Zone (CFZ) Desalination Facility	Energy & Utilities
Iran	Chabahar Free Trade-Industrial Zone (CFZ) Steel Mill	Construction
Iran	Chabahar Free Trade-Industrial Zone (CFZ) Gas-fired Power Plant	Energy & Utilities
Iran	Solar Cell and Panel Factory, Payam Special Economic Zone, Albroz	Construction
Iran	Zanjan Gas-fired Power Plant	Energy & Utilities
Iran	Mehrabad International Airport - New Terminal, Tehran	Transport
Iran	Bandar-e Jask Oil Refinery, Hormozgan	Construction
Iran	Samsung C&T Hospital, Tehran	Social Infrastructure
Iran	Samsung C&T Hospital, Mazandaran	Social Infrastructure
Iran	Hyundai-POSCO Daewoo Hospital, Fars	Social Infrastructure
Iran	Daelim Industrial Hospital, Azerbaijan	Social Infrastructure
Iran	Korea Medical Holdings Hospital, Alborz	Social Infrastructure
Iran	Korea Medical Holdings Hospital, Markazi	Social Infrastructure
Iran	Korea Medical Holdings Hospital, Tehran	Social Infrastructure
Iran	SUNA Solar Project, Tehran	Energy & Utilities
Iran	SAKO SWRO Desalination Plant, Bandar Abbas, Hormozgan	Energy & Utilities
Iran	Tabriz Combined-Cycle Power Plant, East Azerbaijan	Energy & Utilities
Iran	Bandar Imam Khomeini Port - Bazargan Road Project	Transport
Iran	Bandar Imam Khomeini(Khuzestan) - Bazargan(West Azerbaijan) Road Project	Transport

Iran	Bioethanol Production Facility, Amirabad Special Economic Zone	Construction
Iran	Kashan Photovoltaic Solar Power Plant, Aran va Bidgol, Isfahan	Energy & Utilities
Iran	Tehran-Hamedan-Sanandaj Railway Line	Transport
Iran	Persian Gulf-Black Sea International Transport Corridor	Transport
Iran	Qom-Arak(Markazi) High-speed line	Transport
Iran	Tehran Sewage Water Treatment Facility	Energy & Utilities
Iran	Rudbar Lorestan Hydropower Plant, Rudbar River	Energy & Utilities
Iran	Khersan-3 Dam, Karun River, Chaharmahal and Bakhtiari	Energy & Utilities
Iran	Sardasht Dam, West Azerbaijan	Energy & Utilities
Iran	Zalaki Dam, Ab-e-Zalaki River, Khuzestan & Lorestan Provinces	Energy & Utilities
Iran	Daryan Dam, Sirvan River, Kermanshah	Energy & Utilities
Iran	Chabahar Airport Port Development, Sistan-Balochistan	Transport
Iran	Khaf(Iran) - Heart(Afghanistan) Railway Line	Transport
Iran	North South Rail Corridor, Iran (Qazvin-Rasht-Astara)-Azerbaijan (Astara) Railway Project, Qazvin-Rasht Section	Transport
Iran	North South Rail Corridor, Iran (Qazvin-Rasht-Astara)-Azerbaijan (Astara) Railway Project, Rasht-Astara Section	Transport
Iran	Chabahar Urea Plant, Sistan and Baluchestan	Construction
Iran	Sarakhs (Turkmenistan) - Sarakhs (Iran) Road Bridge	Transport
Iran	Tehran-Khosravi Rail Line	Transport
Iran	Tehran-Mashhad Rail Line Electrification Project	Transport
Iran	Third Iran-Armenia Electric Power Line	Energy & Utilities
Iran	Caspian Sea-Semnan Water Pipeline And Desalination Plant	Energy & Utilities
Iran	Imam Khomeini International Airport - New Iranshahr Terminal, Tehran	Transport
Iran	North - South Transnational Corridor, Kazakhstan - Turkmenistan - Iran	Transport
Iraq	Golden City Housing, Basra	Construction
Iraq	Kurdistan Transmission and Distribution Substations Project	Energy & Utilities
Iraq	Harthah General Hospital, Baghdad	Social Infrastructure
Iraq	Madinat Al Mustaqbal/City of the Future Residential Project, Baghdad	Construction
Iraq	Grand Faw Port - Western Breakwater Project, Basra	Transport
Iraq	ExxonMobil Pipeline Project	Energy & Utilities

Iraq	Iran-Iraq-Syria Natural Gas Pipeline (Friendship Pipeline)	Energy & Utilities
Iraq	Bazyan Combined-cycle Power Plant, Sulaymaniyah, Kurdistan	Energy & Utilities
Iraq	Dohuk Simple Cycle - Combined Cycle Conversion Project, Kurdistan	Energy & Utilities
Iraq	Aqaba (Jordan) - Baghdad (Iraq) Railway Line Project	Transport
Iraq	Basra Desalination Plant	Energy & Utilities
Iraq	Basra (Iraq) - Aqaba (Jordan) Oil Pipeline Project	Energy & Utilities
Iraq	Refinery Project, Nineveh Governorate	Construction
Iraq	Northern Mosul Power Plant Project, Nineveh Governorate	Energy & Utilities
Iraq	Yousifiya Power Plant Project, Baghdad	Energy & Utilities
Iraq	Zubair Gas Fired Power Plant Project, Basra	Energy & Utilities
Iraq	Badra Oilfield - Zubaidiah Power Plant Gas Pipeline Project, Wasit	Energy & Utilities
Iraq	Port of Umm Qasr Expansion Project	Transport
Iraq	Downtown Erbil, Kurdistan	Construction
Iraq	Dukan Lake Resort, Sulaymaniyah	Construction
Iraq	Sulaymaniyah Road Project	Transport
Iraq	Empire World Project, Kurdistan	Construction
Iraq	Suleimaniyah Smelter and Steel Plant - Phase II	Construction
Iraq	Kurdistan Electric Tramway Project - Erbil	Transport
Iraq	Kurdistan Electric Tramway Project - Suleimaniyah	Transport
Iraq	Kurdistan Electric Tramway Project - Dohuk	Transport
Iraq	Gali-Zakho Road Tunnel, Kurdistan	Transport
Iraq	Kori-Shaqlawa-Qandeel Highway, Kurdistan	Transport
Iraq	Zakho Natural Gas Power Plant, Dohuk	Energy & Utilities
Iraq	Zakho Natural Gas Power Plant - Phase 1A, Dohuk	Energy & Utilities

Iraq	Zakho Natural Gas Power Plant - Phase 1B, Dohuk	Energy & Utilities
Iraq	Zakho Natural Gas Power Plant - Phase 2, Dohuk	Energy & Utilities
Iraq	Erbil International Airport Expansion Project, Kurdistan	Transport
Iraq	Sulaymaniyah International Airport Expansion Project, Kurdistan	Transport
Iraq	Duhok International Airport	Transport
Iraq	Family Mall, Sulaimani, Kurdistan	Construction
Iraq	Majidi Mall, Sulaimani, Kurdistan	Construction
Iraq	Oil Storage Depot, Nassiriya Oilfield, Dhi Qar	Construction
Iraq	Kurdistan Electric Tramway Project	Transport
Iraq	Dual Carriageway Project (Erbil - Haji Omaran), Kurdistan	Transport
Iraq	Dual Carriageway Project (Erbil - Haji Omaran) - Section 1, Kurdistan	Transport
Iraq	Dual Carriageway Project (Erbil - Haji Omaran) - Section 2, Kurdistan	Transport
Iraq	Common Seawater Supply Pipelines Project	Energy & Utilities
Iraq	(Shalamcheh - Khuzestan)Iran - (Basra)Iraq Rail Line	Transport
Iraq	Al-Diwaniyah International Commercial Airport Project	Transport
Iraq	Army Canal, Baghdad	Energy & Utilities
Iraq	Al Hartha Thermal Power Plant Restoration - Unit 4, Basrah	Energy & Utilities
Iraq	Bismayah Combined Cycle Power Plant Project, Baghdad	Energy & Utilities
Iraq	Erbil Combined Cycle Power Project, Kurdistan	Energy & Utilities
Iraq	West Qurna-2, EPC Electrical Power Generation Plant Extension, Basra	Energy & Utilities
Iraq	Zuabir Oil Field Development - Initial Production Facilities(IPF)	Construction
Iraq	Ibn Hayyan Hospital Complex, Baghdad	Social Infrastructure
Iraq	Basra Refinery Upgrade Project	Construction

Iraq	Erbil Water Supply Improvement Project, Kurdistan	Energy & Utilities
Iraq	Rumaila Natural Gas Power plant, Basra	Energy & Utilities
Iraq	Khor al-Zubair New Oil Import Terminal	Transport
Iraq	Badra Gas Separation Plant Project, Wasit	Construction
Iraq	Bazyan 400-KV Transformer Project, Sulaimaniyah	Energy & Utilities
Iraq	Iran(South Pars Gas Field) - Iraq(Basra) Gas Pipeline Project	Energy & Utilities
Iraq	Umm Qasr Port Deepening Project	Transport
Iraq	Grand Faw Port Project, Basra	Transport
Iraq	Common Seawater Supply Facility Project	Energy & Utilities
Iraq	Basra Power & Steel Plant Project - Phase I	Energy & Utilities
Iraq	Karbala Power Plant, Al-Khairat	Energy & Utilities
Iraq	Hilla Power Plant, Babil	Energy & Utilities
Iraq	Al-Nasiriya Power Plant	Energy & Utilities
Iraq	Taji Power Plant, Baghdad	Energy & Utilities
Iraq	Hanwha Petrochemical Plant	Construction
Iraq	Mosul Hydroelectric Dam Upgrade Project, Nineveh	Energy & Utilities
Iraq	Khasa Jay Dam Project, Kirkuk	Energy & Utilities
Iraq	Rusafa Water Project, Baghdad	Energy & Utilities
Iraq	Dohuk City Distribution Network, Kurdistan	Energy & Utilities
Iraq	Al-Zubaidiyah Power Plant, Wasit	Energy & Utilities
Iraq	Najibiyah Power Station Project, Basra	Energy & Utilities
Iraq	Deraluk-Rashawa Dam Hydroelectric Project	Energy & Utilities
Iraq	Mandawa-Kopala Hydroelectric Project	Energy & Utilities
Iraq	Taqtaq Hydroelectric Project	Energy & Utilities
Iraq	Muthana Hopsital Project	Social Infrastructure
Iraq	Diyala Sports City Project	Construction
Iraq	New Tajiyat Stadium Project, Baghdad	Construction

Iraq	Grand Faw Port - Eastern Breakwater Project, Basra	Transport
Iraq	Samawa Cement Factory Project	Construction
Iraq	Karbala Model Village and Shores Mixed-use Development Project	Construction
Iraq	Najaf Gas-Fired Power Station Rehabilitation Project,	Energy & Utilities
Iraq	Al Diwaniyah Gas fired Power Plant	Energy & Utilities
Iraq	Basra Times Square Mall Project	Construction
Iraq	South Basra Commercial Port Project	Transport
Iraq	Nainawa Combined Cycle Power Station, Mosul	Energy & Utilities
Iraq	Mansoor Shopping Mall, Mansur	Construction
Iraq	Shatt-al-Basra Gas-Fired Power Plant, Basra	Energy & Utilities
Iraq	Al Sadr Power Plant, Baghdad	Energy & Utilities
Iraq	Bismayah New City Project (BNCP), Baghdad	Construction
Iraq	Karbala Oil Refinery, Karbala	Construction
Iraq	Al-Anbar Gas Fired Power Plant	Energy & Utilities
Iraq	Baghdad-Basra High Speed Rail Line Project	Transport
Iraq	Baghdad - Turkey Highway (Highway No. 2) Project	Transport
Iraq	Al-Qayara Hospital, Nineveh, Mosul	Social Infrastructure
Iraq	Al Mansuriya Gas-Fired Power Plant, Diyala Governorate	Energy & Utilities
Iraq	Arbat Industrial Town Project, Sulaimaniya	Construction
Iraq	Karbala Monorail Project	Transport
Iraq	Kirkuk Hospital Project	Social Infrastructure
Iraq	Baiji Gas-fired Power Plant, Salah al-Din Governorate	Energy & Utilities
Iraq	Khor Al Zubair Power Plant Rehabilitation Project, Basrah	Energy & Utilities
Iraq	Dry Canal Highway Project, Basra - Baghdad	Transport
Iraq	Basra Iron And Steel Plant Upgrade Project	Construction
Iraq	Manawi Mall and Manawi Business Tower	Construction
Iraq	Qaladze Gas Power Plant, Kurdistan	Energy & Utilities
Iraq	Harir Gas Power Plant, Kurdistan	Energy & Utilities
Iraq	Zahra Housing Complex, Hindiya, Karbala	Construction

Iraq	Khormala Gas fired Power Plant, Kurdistan	Energy & Utilities
Iraq	Ibn Fernas Housing Project, Baghdad	Construction
Iraq	Western Baghdad Housing Development Project	Construction
Iraq	Najaf International Airport Expansion Project	Transport
Iraq	Amara Gas Turbine Power Plant, Missan	Energy & Utilities
Jordan	New Industrial City, South Amman	Construction
Jordan	Red Sea - Dead Sea Water Project - Phase I, Aqaba Desalination Plant	Energy & Utilities
Jordan	Red Sea - Dead Sea Water Project - Phase I, Red Sea - Dead Sea Water Pipeline	Energy & Utilities
Jordan	Attarat Oil Shale-Fuelled Power Plant	Energy & Utilities
Jordan	Qusayr Amra Nuclear Project, Azraq, Zarqa Governorate	Energy & Utilities
Jordan	Omari- Azraq Road Rehabilitation Project	Transport
Jordan	Saraya Aqaba Resort - Cooling Plant & Pumping Station	Energy & Utilities
Jordan	Saraya Aqaba Resort Developement Project	Construction
Jordan	Abdali Mixed-Use Development Project, Amman	Construction
Jordan	The Boulevard, Abdali Mixed-Use Development Project, Amman	Construction
Jordan	Al-Karak Purification Station Capacity Upgrade	Energy & Utilities
Jordan	Wastewater Pipeline Zarqa - Al Samra plant	Energy & Utilities
Jordan	Zarqa Power Plant	Energy & Utilities
Jordan	Aqaba New Port Phase I, Al Aqaba	Transport
Jordan	Aqaba New Port Phase III, Al Aqaba, Jordan	Transport
Jordan	Queen Alia International Airport Expansion - Phase II, Amman	Transport
Jordan	Princess Basma Hospital, Irbid	Social Infrastructure
Jordan	King Hussein Cancer Centre Expansion, Amman	Social Infrastructure

Jordan	Dead Sea Resort - Phase I, Porto Dead Sea	Construction
Jordan	Quweira Solar Power Plant, Aqaba	Energy & Utilities
Jordan	Aqaba New Port, Al Aqaba, Jordan	Transport
Jordan	Aqaba (Jordan) - Baghdad (Iraq) Railway Line Project	Transport
Jordan	Na'our Wastewater Treatment Plant, Wadi Essir and Na'our regions, Amman	Energy & Utilities
Jordan	North Shouneh Airport	Transport
Jordan	Amman Civil Airport	Transport
Jordan	King Hussein International Airport, Aqaba	Transport
Jordan	Amman Solid Waste-to-Energy Facility Project	Energy & Utilities
Jordan	Hareon Solar Facility	Energy & Utilities
Jordan	Masdar Solar Power Project	Energy & Utilities
Jordan	Basra (Iraq) - Aqaba (Jordan) Oil Pipeline Project	Energy & Utilities
Jordan	Hussein CCGT, Zarqa Industrial Area, Amman	Energy & Utilities
Jordan	Acwa Power Solar Plant, Al Mafrq	Energy & Utilities
Jordan	Jordan - Israel Natural Gas Pipeline	Energy & Utilities
Jordan	Amman-Aqaba Highway Upgrade Project	Transport
Jordan	As-Samra Wastewater Treatment Plant Second Expansion	Energy & Utilities
Jordan	Queen Alia International Airport Expansion, Amman	Transport
Jordan	Porto Dead Sea Project	Construction
Jordan	El-Lajjun Oil Shale-Fuelled Power Plant, Jenin	Energy & Utilities
Jordan	Fujaj/Shoubak Wind Project, Ma'an	Energy & Utilities
Jordan	Ma'an Wind Farm, Ma'an Governorate	Energy & Utilities
Jordan	Marsa Zayed Project, Aqaba	Construction
Jordan	Aqaba New Port Phase II, Al Aqaba, Jordan	Transport
Jordan	Generation III Nuclear Reactor	Energy & Utilities

Jordan	Expansion and Rehabilitation Zarqa Water Network	Energy & Utilities
Jordan	Disi Water Conveyance Project, Amman	Energy & Utilities
Jordan	Queen Alia International Airport Expansion - Phase I, Amman	Transport
Jordan	Aqaba New LNG Terminal, Al Aqaba	Transport
Jordan	As-Samra Wastewater Treatment Plant First Expansion	Energy & Utilities
Jordan	Kufranjah Dam, Ajloun	Energy & Utilities
Jordan	Al Manakher Power Plant (Tri-Fuel) - IPP4, Amman	Energy & Utilities
Jordan	Zarqa-Amman BRT Project	Transport
Jordan	Al Manakher Power Plant (Tri-Fuel) - IPP3, Amman	Energy & Utilities
Jordan	Fujeij Wind Power Plant Project	Energy & Utilities
Jordan	Shams Ma'an Solar Power Plant, Maan Development Area	Energy & Utilities
Jordan	Tafilah Wind Power Project	Energy & Utilities
Kuwait	Funaitees Water Project, Mubarak Al-Kabeer	Energy & Utilities
Kuwait	Transmission lines, Al-Rawdatain, Al Asimah	Energy & Utilities
Kuwait	Doha Link Project - Sheikh Jaber Al-Ahmad Al-Sabah Causeway, Jahra	Transport
Kuwait	First Ring Road Project - Phase III, Al Asimah	Transport

Kuwait	Kuwait City Metro System Project - Line 2, Hawally - Kuwait City, Al Asimah	Transport
Kuwait	Kuwait City Metro System Project - Line 3, Kuwait International Airport - Abdullah Al Mubarak, Al Asimah	Transport
Kuwait	Kuwait City Metro System Project - Line 4, Al Asimah	Transport
Kuwait	Kuwait City Metro System Project, Al Asimah	Transport
Kuwait	Kabd Municipal Solid Waste Project	Construction
Kuwait	Public Housing Units, Saad Al Abdallah, Jahra	Construction
Kuwait	Al-Abdaliyah Integrated Solar Combined-cycle (ISCC) PPP Project, Al Ahmadi	Energy & Utilities
Kuwait	Kuwait Armed Forces Hospital Expansion, Kuwait City	Social Infrastructure
Kuwait	GCC Railway Network	Transport
Kuwait	Subiyah Link - Sheikh Jaber Al-Ahmad Al-Sabah Causeway, Jahra	Transport
Kuwait	Mina Al Ahmadi Refinery Upgrade - KMPC Clean Fuel Project (CFP), Ahmadi	Construction

Kuwait	Az-Zour North Plant RO desalination Unit, Al Asimah	Energy & Utilities
Kuwait	The Avenues Mall, Phase 4, Farwaniya	Construction
Kuwait	Sheikh Jaber Al Ahmad Al Jaber Al Sabah Hospital, South Surra, Hawalli	Social Infrastructure
Kuwait	Kuwait Police Academy, Al Raqaay	Social Infrastructure
Kuwait	MEW 06 Jaber Al Ahmed City, Al Asimah	Energy & Utilities
Kuwait	College of Social Science, Shari'a and Law (CSSL) - Sabah Al-Salem Kuwait University City	Social Infrastructure
Kuwait	Al-Khiran Mixed-Use Project, Sabah Al Ahmad Sea City, Al Asimah	Construction
Kuwait	Sabah Al-Salem University City Academic Support Facilities, Al-Shadadiya	Social Infrastructure
Kuwait	Sheikh Jaber Al Ahmad Cultural Centre	Construction
Kuwait	Sheikh Jaber Al-Ahmad Al-Sabah Causeway, Jahra	Transport
Kuwait	Umm Al Hayman (UAH) Waste Water Project, Al Asimah	Energy & Utilities
Kuwait	Mubarak Al Kabeer Seaport Phase I, Boubyan Island	Transport
Kuwait	College of Business and College of Women, Sabah Al-Salem University City	Social Infrastructure
Kuwait	Small Boat Harbours Project - Al Ahmedi Harbour Extension, Al Ahmadi	Transport
Kuwait	Az-Zour North Independent Water & Power Project (IWPP), Phase-II, Al Asimah	Energy & Utilities
Kuwait	Khairan Power Plant, AlKhairan	Energy & Utilities
Kuwait	Kuwait-Iran Pipeline Project	Energy & Utilities

Kuwait	Mina Abdullah Refinery Upgrade - KMPC Clean Fuel Project (CFP), Ahmadi	Construction
Kuwait	Az-Zour North Independent Water & Power Project (IWPP), Phase-I, Al Asimah	Energy & Utilities
Kuwait	Shagaya Renewable-Energy Park (Phase-I) - Solar Complex	Energy & Utilities
Kuwait	North Oil Field Water Treatment Plant	Energy & Utilities
Kuwait	360 Mall Expansion Project, Al Zahra	Construction
Kuwait	Kuwait National Railroad - Phase I, Nuwaiseeb - Freight Depot Line	Transport
Kuwait	Kuwait National Railroad - Phase II, Freight depot - Umm Qasr-Boubyan Port Line	Transport
Kuwait	Kuwait National Railroad (NRR) Project	Transport
Kuwait	Services and Entertainment Center, Egaila, Al-Ahmadi	Construction
Kuwait	Wafra Main Gathering Center Revamp Project, Neutral Partition Zone	Construction
Kuwait	Al Kout Waterfront Project, Fahaheel, Al Ahmadi	Construction
Kuwait	Al Kout Mall, Fahaheel, Al Ahmadi	Construction
Kuwait	Hawally Four-star Hotel, Hawalli	Construction
Kuwait	Hempel Kuwait Paint Factory, Mina Abdullah, Ahmadi	Construction
Kuwait	Al Adan Hospital Expansion, Fahaheel, Al Ahmadi	Social Infrastructure
Kuwait	Motor Town, Orafjan, Kuwait City, Al Asimah	Construction
Kuwait	Conrad Hotels & Resorts, The Avenues Mall, Kuwait City, Al Asimah	Construction
Kuwait	Hilton Garden Inn, The Avenues Mall, Kuwait City, Al Asimah	Construction

Kuwait	New Jahra Hospital	Social Infrastructure
Kuwait	Al-Razi Hospital Expansion Project, Kuwait City	Social Infrastructure
Kuwait	New Maternity Hospital Kuwait - Sabah Medical Area	Social Infrastructure
Kuwait	New Sabah Al-Ahmad Hospital	Social Infrastructure
Kuwait	Amiri Hospital Expansion Project, Kuwait City	Social Infrastructure
Kuwait	Kuwait Cancer Control Centre Expansion	Social Infrastructure
Kuwait	Farwaniya Hospital Expansion, Kuwait City	Social Infrastructure
Kuwait	Al-Sabah Hospital Project, Shuwaikh	Social Infrastructure
Kuwait	Al-Sabah Hospital Project, Al-Sabah Medical Area	Social Infrastructure
Kuwait	New Ibn Sina Hospital, Al Asimah	Social Infrastructure
Kuwait	Sabah Al Salem University Teaching Hospital, Khaldiya	Social Infrastructure
Kuwait	LNG Import and Regasification Terminal, Al-Zour	Construction
Kuwait	Olefins III Plant Integration Project	Construction
Kuwait	Lower Fars Heavy Oil Development Project, Phase-I	Construction
Kuwait	Lower Fars Heavy Oil Development Project	Construction
Kuwait	The South Saad Al Abdullah New City, Jahra Governorate	Construction
Kuwait	Nawaf Al-Ahmed Project, Sabriyah City	Construction
Kuwait	Doha Desalination Plant, Phase-I	Energy & Utilities
Kuwait	Hessah Al Mubarak Project, Kuwait City, Al Asimah	Construction
Kuwait	Burj Alshaya Complex - Four Seasons Hotel, Kuwait City	Construction
Kuwait	Mubarak Al-Kabeer port, Bubiyan Island	Transport
Kuwait	College of Engineering & Petroleum, Kuwait University, Al-Shadadiya	Social Infrastructure
Kuwait	College of Arts and Education, Sabah Al-Salem University, Al-Shadadiya	Social Infrastructure

Kuwait	Jamal Abdul Nasser Street Project(RA 167), Kuwait City, Al Asimah	Transport
Kuwait	Az-Zour South Plant RO Desalination Unit, Al Asimah	Energy & Utilities
Kuwait	Kuwait International Airport Expansion Project	Transport
Kuwait	Al-Jahra Road Upgrade Project	Transport
Kuwait	Kuwait City Metro System Project - Line 1, Salwa - Kuwait University, Al Asimah	Transport
Kuwait	Al Zour Oil Refinery Project	Construction
Kuwait	Gas and Condensate Export System, Mina Al Ahmadi (Kuwait) - Khafji (Saudi Arabia)	Energy & Utilities
Kuwait	Sabiya Combined-Cycle Power Plant, Jahra	Energy & Utilities
Kuwait	Madinat Al-Hareer (Silk City Project), Subiya	Construction
Kuwait	Power Distribution Network, Northern Kuwait	Energy & Utilities

July 2015 - Construction underway; January 2015 - Construction commenced; Total Project Value - BHD52mn

March 2015 - Construction underway; March 2014 - Contract worth USD51.2mn (BHD19.3mn) awarded for distribution station at Al Madina Al Shamaliya and Seef District

December 2014 - Construction commenced; The project will be developed in three phases and scheduled for final completion by the end of 2015

February 2015 - Project is at early stage of development; Project includes development of 215 rooms and more than 2000 sq. meters of meeting and event space

January 2016 - Project scheduled for completion in 2020; November 2015 - Phase-II launched and includes clearing the existing site and finalizing the detailed masterplan; June 2015 - Benoy appointed as Lead Design consultant, will design and deliver the entire master plan; Work to begin by year end

December 2014 - Project is part USD740mn scheme to construct three transmission substations in Hidd, Umm Al Hassam and Riffa

June 2016 - Construction underway; October 2015 - Feasibility study completed last month; Project will consist of 26km road, 10km bridge, 87km rail link and 28km approach tracks; Alignment of line has been finalized and landing point for rail network has also been agreed; Total Cost - USD3000mn

the hospital is expected to open in H118; Facility will have 148 beds, up from 68 beds at the existing centre; Project cost - BHD40mn

March 2015 - Project completed

February 2016 - Design completion is expected by June 2016 and construction by end-2016; Project is funded through a SAR1 billion (USD266 million) grant from the late King Abdulla bin Abdulaziz Al Saud; Phase-1 construction, includes a 300-bed hospital, staff housing and a mini shopping mall, is expected to begin in early 2017 and completion by 2019

April 2015 - Project approved by parliament, with Diyar Al Muharraq a potential location; The required budget for the project will be set out in the country's 2017 budget

services contract; The BHD3.95mn (USD10.4mn) preparatory phase of the project started in November 2014, with completion scheduled for mid-August 2015, Project is being financed by Kuwait through money allotted for the USD10bn Gulf Development Fund

May 2016 - Keller Grundbau won key piling works contract for Marassi Galleria; January 2016 - Early development works started; Project features 480 high-end residential apartments, luxury hotels, shopping complex with a total retail space of 250000sq m and 1km public beach; Phase-I (Marassi Residences) to complete by 2018

June 2016 - Edamah to invest USD930mn in project; Phase-I (completion by 2019) will include construction of 350-key 5-star lagoon resort and 150 eco-friendly apartments and villas; Phase-II (completion by 2021) will cover renovation of 100-year old Hawar mosque, development of bird research centre, hotel, 155 villas and wellness resort and spa

July 2015 - Va Tech Wabag secured a USD91mn EPC contract jointly with Belhasa Projects to design and build the plant, plant to have capacity to deliver 40mn litres of water a day

approves Line 6 expansion plan which includes a Smelter and development of 1,792 mw power plant; Total project cost - USD3.5bn

August 2016 - Alba awarded EPC contract for power station 5 to General Electric and GAMA; June 2016 - Alba seeks USD750mn bank loan; July 2015 - Alba approves Line 6 expansion plan which includes a Smelter and development of 1,792 mw power plant; Total project cost - USD3.5bn

March 2016 - Project broke ground on January 2016; July 2015 - EPC contract awarded

December 2014 - Project is part USD740mn scheme to construct three transmission substations in Hidd, Umm Al Hassam and Riffa

December 2014 - Project is part USD740mn scheme to construct three transmission substations in Hidd, Umm Al Hassam and Riffa

September 2016 - Construction to commence soon; August 2015 - Ministry of Works, Municipalities and Urban Planning to build the project; The road will connect North Busaiteen and Bahrain Bay

August 2015 - Orders issued to build the project

August 2016 - Project completed; September 2015 - Project launched; Project to be completed by June 2016

September 2015 - Plans announced to build the project; The complex will feature three 10-storey towers, 10-storey towers with around 600 apartments, a retail floor and a common basement car-park

September 2015 - Agreement has been signed between the Bahrain Defense Force (BDF) and KMC for project development; Project will be completed in 20 months; Project cost - BHD21mn

the project comprises 58 attached villas, featuring 41 Moroccan-inspired designs and 17 modern designed villas; The entire units will be delivered by October end; January 2015 - 50 per cent of the construction work on the third phase completed

October 2015 - Al Areen City Development partners with Avenue Ventures for the project; Project also comprises addition of new features at the Lost Paradise of Dilmun water park

October 2015 - Bahrain's Ministry of Transportation and Telecommunications had commissioned a technical study to find a location for the second airport in fall 2014

2016 - Design process have begun; November 2015 - Naseej announced an agreement with local firm Ithmaar Development Company

December 2015 - Nogaholding has awarded a contract on BOOT basis to Bahrain LNG consortium to own and operate the project under 20 year agreement; Project includes construction of floating storage unit (FSU), a jetty and breakwater to receive offshore LNG and will have capacity of 800 mmscfd

environment

mainland

April 2016 - Expansion scheduled to begin later this year; February 2016 - Plans announced to increase the number of lanes on the existing 25km causeway from 17 to 45; Project cost - USD5.3bnQ

February 2016 - Construction is in full swing and expected to complete by 2016; January 2015 - Construction commenced; Project cost - USD90mn

March 2016 - Construction to commence this month; BHD30mn project includes more than 200 homes ranging from studios, one, two and three bedroom apartments, duplexes, penthouses and villas as well as a water park

October 2016 - Project scheduled for completion by 2019; April 2016 - Al-Ma'awdah launched BHD22mn residential project, which is currently under construction

June 2016 - Government invited bids to conduct major engineering studies for highway upgrade

star lagoon resort and 150 eco-friendly apartments and villas; Project is part of broader Hawar Islands project, will be developed in 2 phases

June 2016 - Edamah to invest USD930mn in project; Phase-II (completion by 2021) will cover renovation of 100-year old Hawar mosque, development of bird research centre, hotel, 155 villas and wellness resort and spa; Project is part of broader Hawar Islands project, will be developed in 2 phases

June 2016 - Tender launched; Refinery capacity will be increased from existing 267,000 barrels per day (bpd) to 360,000 bpd; Contract expected to be awarded in H117

August 2016 - Saudi Arabia proposed to build 40km long bridge between Al Ahsa and Bahrain

with Synergies Castings Limited to establish an aluminium casting and speciality alloy wheel manufacturing facility in Bahrain

May 2016 - Alba Cuts USD500Mn from Line 6 Budget; April 2016 - Alba names Bechtel as EPCM contractor; Line 6 Expansion project will increase Alba's production capacity to 1,500,000 tonnes per annum upon project completion

February 2016 - Bahrain International awards baggage handling contract to Vanderlande to design, manufacture and install a state-of-the-art baggage handling system that will be capable of processing 4,700 bags per hour; Contract is part of the Airport Modernisation Program (AMP)

February 2016 - Construction commenced initial expansion phase is expected to increase the airport's capacity to 14 mn passengers a year from the current 9 mn passengers a year

January 2016 - Planning underway; September 2015 - Bahrain to create China-focused logistics hub

January 2016 - Construction underway; The mixed-use development will cover an area of 12 square kilometres, and offer 30,000 residential units to accommodate more than 100,000 residents

January 2016 - Construction underway; Part of Diyar Al Muharraq Development

January 2016 - Construction underway; The Marina is expected to accommodate up to 400 boats and yachts

January 2016 - Construction underway

January 2016 - Construction underway

January 2016 - Contract awarded; the firms will invest USD200mn to USD300mn in the development of a 45,000sqm manufacturing joint venture with a capacity of 140,000 to 210,000 metric tonnes a year

January 2016 - Contract awarded

year of cast slab product to stringent industrial expectations of metal and casting quality for a varied production campaign of alloys and slab sizes

Faisal Highway, and Al Fateh / Shaikh Hamad Causeway also improvement of the at-grade movements at the two junctions, construction of a new signalized traffic junction for entry / exit into the Manama Lagoon area and construction of new 2.42 km of roads along Al Fateh Highway and the eastern and northern sides of the Bahrain Bay; Project cost - BHD98mn

September 2016 - Bids invited for the project; Project will connect North Busaiteen and Bahrain Bay; Combined cost of North Manama Causeway Phase 2 and Busaiteen Link is expected to be BHD200mn (USD526.9mn)

gas from seven existing compressor stations to the CGP-III, installation of a 21-km butane pipeline to Sitra, modifications to existing storage installations at Sitra, installation of a 200,000-bbl propane storage tank and 100,000-bbl butane storage tank

October 2016 - Lump-sum turnkey contract worth USD355mn awarded to JGC in January

April 2016 - Project broke ground

January 2016 - Feasibility studies underway

Project cost BHD200mn

penthouse suites through its 11 residential towers and more than 7,000 square metres; Marina West essentially involves five phases

October 2016 - Project is delayed; The proposed development will be a self contained waterfront city with extensive residential and leisure components and complementary commercial opportunities

January 2016 - Project is on hold; December 2012 -Tenders for the construction project are expected to be announced shortly

September 2016 - Mott MacDonald has been appointed to supervise project works; August 2016 - Abu Dhabi Fund for Development awarded AED374mn (USD101mn) grant; Project is being built in phases, Phase 1 will see construction of island itself worth USD101mn; Phase 2, worth AED2.5bn (USD680mn), will build initial 2,694 houses

development offering a range of waterfront housing options, themed hotels, retail and souqs, public waterfront and sandy beaches, as well as community facilities, schools, parklands, and sport facilities; March 2015 - SSH appointed main consultant on Bahrain's Ras Al Barr Resort Project

expected to resume shortly as the developer Banader Hotels Company secures the additional USD47.7 mn funding needed for completion; The 28 storey five-star hotel and serviced apartment complex will have 251 rooms which include 46 deluxe rooms and 24 private suites

January 2016 - Construction underway; Project cost BHD55mn

January 2016 - Ministry invites EPC bids for Tubli sewage treatment plant expansion; Project cost BHD51.3mn

September 2016 - Amlak has unveiled plans to transform the Souq Al Buhair into a modern mixed-used facility; It will include 30 retail units and will be ready by mid-2017

September 2016 - Work has started on a BD185-million sewerage network project to link 52 residential units in the Muqaba; The work includes the extension of 680-m-long main connections along with 727-m-long sub-connections besides the construction of 105 inspection chambers

October 2016 - First Bahrain Real Estate Development Company has appointed Decorators, a member of Promoseven Holdings to construct the 42 villas of the new El Mercado Village in Janabiya area

October 2016 - JGC Gulf International Wins Awali Gas Pipeline Deal; The contract entails construction of feed gas and product gas transfer pipelines, and product gas storage tanks, which will be used in gas processing plant

July 2014 - Project design underway

August 2016 - Initial preparatory infrastructure work completed; July 2016 - Arabtec Holding and TAV Construction raised BHD107mn in financing for project; February 2016 - Construction commenced; Initial expansion phase is expected to increase the airport's capacity to 14 million passengers a year from the current nine million passengers a year

February 2012 - Project completed; Plant also has water capacity of 218,200 m3/day

October 2016 - Deal signed between Batelco and Durrat Al Bahrain management for Internet services connectivity;
January 2014 - Work commenced on Fayrooz 800 project in the city; The city would include Durrat Marina, an 18-hole golf course, five-star hotels and landscaped public spaces

June 2014 - Project completed; July 2012 - Project broke ground

June 2015 - Ground Breaking ceremony held; April 2014 - National Marine Dredging Company is working on the sea reclamation work for the project

December 2013 - Project inaugurated; Project implemented in 2 phases; first phase was completed in June 2013

January 2017 - Construction underway; September 2016 - Diyar Al Muharraq secures funding for social housing project;
June 2016 - Ground-breaking ceremony held; March 2015 - Diyar Al Muharraq to buy 3,100 residential units at a cost of USD732m (BHD276m) which will be used for the ministry's social housing programme

December 2012 - Project completed in second half of 2012

October 2013 - Opens to public; Project is part of Strategic Roads Master Plan scheme; Total Project Value - BHD24.2mn
April 2013 - Project will provide drinking water to more than 1.5mn people aimed at serving the potable water demands of five large cities and eleven small cities along the Persian Gulf coasts; Preliminary studies were completed in 1995

July 2013 - Construction underway

January 2015 - Planning underway; October 2013 - Financing to be provided by Chinese Government

May 2016 - India has allocated USD500mn for the project; January 2015 - Construction underway; December 2014 - Government wants speedy construction of the highway: Project started with EUR3bn credit

December 2014 - Assessment for the construction of plant has been completed; June 2013 - Agreement signed for the construction of plant; Project to be jointly built by Armenia and Iran under Aras River Hydropower Plants which includes Meghri Hydropower Plant and Gharachilar Hydropower Plant

January 2014 - Project completed

January 2014 - Construction close to completion; New plant will help the island to raise its total electricity production capacity to 70MW hours

January 2014 - French investors to join the project

November 2015 - Kobe Steel awarded construction contract; June 2015 - Finland's engineering group Outotec to provide basic engineering services for the plant; Project cost - EUR219mn

April 2014 - Feasibility studies underway

November 2015 - Planning underway, May 2014 - Project expected to completed by March 2015

July 2014 - Construction commenced; Project value - IRR1.4trn

route; March 2016 - China will invest nearly USD1trn for the Silk Road; June 2015 - Iran is in talks with China to revive the project; Countries from Asia and Europe to be part of the project, Countries from Africa may also be part of the project; Project is a part of One Belt, One Road project, aimed at establishing linkages between 60 countries on the silk road economic belt, One Belt One Road projects will involve many infrastructure projects including railways, roads and related development projects, amount of money needed to be raised for development would reach between USD4trn to USD6trn; [B&R]

September 2015 - Construction underway; August 2014 - Phase 1 of 20MW wind park officially started operating
May 2015 - Construction to start soon; January 2015 - Construction contract awarded to Ankara based Bergiz Insaat; Project to be carried out in two phases, Phase 1 worth USD850mn and Phase 2 worth USD1bn of length 255 km
August 2014 - Chinese companies plan to invest in a Tram project to be constructed in the Northwestern Iranian city of Tabriz; March 2014 - CITIC Company has signed MoU for the development of the project
September 2016 - Construction started; Project to be build in two units of 1000MW each
September 2015 - Syrian war & migrant Crisis has significantly delaying the progress of the project; August 2013 - Iran, Iraq and Syria signed a deal for the construction of pipeline; Total length - 1500km; Project Value - USD10bn
MW
letter of credit (LC) to help accelerate development of the plant; The power station will include 2 units of 325 MW each; Total Project Value - IRR30trn
May 2015 - Construction to start soon; January 2015 - Construction contract awarded to Ankara based Bergiz Insaat; Project is part of Tabriz-Bazargan Highway Project; Total Project Value - USD1.8bn
May 2015 - Construction to start soon; January 2015 - Construction contract awarded to Ankara based Bergiz Insaat; Project is part of Tabriz-Bazargan Highway Project; Total Project Value - USD1.8bn
June 2015 - Iran section with a length of 12 kilometers has been completed, Iraq section of 32 km is left to be completed; Total Length - 44 km
December 2014 - Project completed
October 2015 - Construction underway; February 2015 - Construction commenced
January 2015 - SAIL plans to build 2mn metric ton integrated steel plant in Iran on 5sq km of land
September 2015 - The offshore section envisages building a pipeline for 200km from Kuh-e Mubarak in Iran to Oman's Sohar port, The onshore section of the pipeline in Iran will be built for another 200km from Rudan to Kuh-e Mubarak; Total length - 400km; Total Cost - USD1.5bn
August 2015 - Complex will include aluminum smelter and captive power plant; NALCO would prefer local partner who could supply cheap power to run the smelter
December 2015 - Project in tender stage; August 2015 - Iran and Germany entered a contract to build a 100MW wind farm and two 20MW photovoltaic solar power plants in Arvand Free Trade Zone in Iran; Project to built in phases, Phase I (48MW) & Phase II(58MW) to be operational before 2019
August 2015 -Construction underway; Project is part of Shiraz Metro Line 2; Total Length - 15 km
August 2015 - Planning underway; Project is part of Shiraz Metro Line 2; Total Length - 15 km
August 2015 - The 10km phase I of Line 3 is currently at planning stage
August 2015 - Tender launched for a contract to provide engineering consultancy and design services
August 2015 - Tender launched for a contract to provide engineering consultancy and design services
August 2015 - Tender launched for a contract to provide engineering consultancy and design services
October 2014 - Project opened to public; Project is part of Shiraz Metro Line 1; Total Length - 24.5 km
August 2015 - Construction underway; Project is part of Shiraz Metro Line 1; Total Length - 24.5 km
August 2015 -Construction underway; Project to be carried out in two phases, Phase 1 (10.5 km) completed in october 2014 and Phase 2(14km) is under construction
August 2015 - Construction underway; Project to be carried out in two phases, Phase 1 (11 km) is under construction and Phase 2 (4 km) is at planning stage
June 2016 - Section 1 Construction underway; May 2016 - Daewoo E&C signed MOU for EPC for section 3 construction; Project to be completed in 4 sections , Section 1 (Azadegan Expressway and Hemmat Expressway Interchange - Doab), Section 2 (Doab - Pol-e Zanguleh), Section 3 (Pol-e Zanguleh - Marzanabad) and Section 4 (Mazandaran - Chalus)
May 2016 - Daewoo E&C signed MOU for EPC for section 3 construction; Project is part of Tehran-Shomal Freeway Project; Total Project Value - USD750bn; Total Project Length - 121 km
March 2015 - Section-4 Completed ; Project is part of Tehran-Shomal Freeway Project; Total Project Value - USD1.5bn; Total Project Length - 121 km

February 2016 - China currently working on an alternative to the IP project; Pipeline will terminate in Pakistan instead of India, and will extend to China; January 2016 - Iran offering to cover 60% of the construction costs; December 2015 - India not showing interest, citing security and commercial concerns; Length of Iran–Pakistan section - 2775km
October 2016 - Construction underway; January 2016 - Construction started; Project comprises drilling 11 wells, of which seven have reached geothermal reserves
November 2015 - Project is in discussions over pipeline route
September 2015 - Ground breaking held recently; Project to be built in 3 phases; First phase to take two to three years, second phase includes a 3-star hotel and an office block
April 2016 - 100km of pipeline has been completed on the Iranian side; The gas transfer to Iraq will begin with 5mcm/d which will reach 35mcm/d on completion of a gas pipeline project; Total length - 270km
May 2016 - India signed deal to build and operate Chabahar Port; February 2016 - India approved USD150mn credit line for project; November 2014 - Port to complete within 18 months
December 2014 - Project was expected to be completed by 2014 but now the completion is uncertain; Total length - 365 km; Total Cost - USD180mn
October 2015 - Government to invest more in the project; Project will cover Abadan, Khorramshahr, Minoo Island and Shalamcheh on the Iraqi border spanning an area of 37400 hectares
August 2016 - Rostec signed EUR1bn deal with Iran to build 1.4GW thermal power station; February 2016 - Russia to help Iran in building the plant
November 2015 - Oman's Sarooj Construction Company and its Iranian partners intends to participate in tender process for Phase 2 of the Golgohar water pipeline project
June 2016 - Construction to commence soon; November 2015 - Iran Energy Ministry has signed a deal with an undisclosed German energy major to carry out the project
project
project
March 2016 - Pipeline will link Iran's southeastern port of Chabahar to India's Gujarat State, bypassing the exclusive economic zone (EEZ) of Pakistan; December 2015 - Negotiations are underway for subsea gas pipeline as an alternative to Iran-India-Pakistan pipeline; Total length - 1400km; Capacity - 31.5mcm of gas/day; Project cost - USD4.5bn
construction of Airport City
April 2015 - Construction underway; Project will includes 8 stations and one depot
April 2015 - Project will highly contribute to the economy of the eastern Iran and cargo transit to neighboring states; Khatam al-Anbiya won construction contract
February 2017 - Astara - Astara section will be commissioned in March 2017; January 2017 - Construction to commence this year of Rasht-Astara Section and construction underway of Qazvin-Rasht Section; December 2016 - Construction underway of Astara-Astara section; August 2016 - 205 km long Qazvin-Rasht section is 93% complete; January 2016 - Implementation of Iranian section requires an investment of USD1.5bn; Total length - 375 km
work of the project
January 2017 - Project in planning stage; November 2016 - Armenia tries to attract private investors into construction of project; June 2016 - Construction of project has been considered economically justified in feasibility study; February 2016 - Chinese banks willing to finance 60% of project; Rail is from Gagarin station in Armenia's Gegharkunik province to Agarak in southern Syunik; Total length - 470km (Armenian Section - 304.7 km)
October 2015 - First phase of Line 1 of 11 km completed; Phase I extends Shohada in the city centre to Qods while Phase II will extend the line to Azadi and Soffeh; Line 1 consists of 20 stations
on stream in Q119
January 2016 - Pessina Costruzion signed MOU with Iran's Ministry of Health to develop the project
January 2016 - Pessina Costruzion signed MOU with Iran's Ministry of Health to develop the project
January 2016 - MoU signed to expand, renovate and operate the Mashhad and Isfahan international airports in Iran
January 2016 - MoU signed to expand, renovate and operate the Mashhad and Isfahan international airports in Iran

February 2016 - Mashhad light rail airport link opened
February 2016 - Construction underway; line 2 will have 12 stations
Section 1 starts from interchange with Azadegan Expressway and Hemmat Expressway in northwestern Tehran (Municipality District 21) to Doab, Shahrestanak, Alborz Province; Total Project Value - USD750mn; Total Project Length - 121 km
March 2016 - Construction underway; July 2015 - Work on the bridge currently suspended due to Bank Sepah's failure to procure funds for the project; Project cost - EUR450mn; March 2011 - Breaks ground
March 2016 - Turkish investors to undertake 80MW solar energy project
August 2016 - Future course of action to be decided in discussion to be held in Tehran; January 2016 - Xinjiang Uygur autonomous region to start preliminary work on a railway linking China with Iran via Kyrgyzstan, Tajikistan and Afghanistan within 5 years; The route will be 2100 km long and a large part of it, i.e 1148 km will cross Afghanistan
May 2016 - Construction underway; March 2013 - Construction commenced; Dam will have six 250 MW turbines; Contact value - USD2bn
March 2016 - Posco and Korea Electric Power Corp signed MoA to build 60 mega litre-a-day desalination plant; Project part USD1.6bn agreement towards setting up of a steel mill, power plant, and a desalination facility in Iran
March 2016 - Posco and Pars Kohan Diar Parsian Steel signed MoA to jointly build steel mill in CFZ; Project part USD1.6bn agreement towards setting up of a steel mill, power plant and desalination facility in Iran
March 2016 - Posco Energy and PKP signed MoU to build facility, which will use gas generated by the envisioned steel mill; Project part USD1.6bn agreement towards setting up of a steel mill, power plant, and a desalination facility in Iran
April 2016 - Germany plans to invest USD194mn in the project
April 2016 - Hyundai Engineering has reached an agreement with TAVANIR to build a 500 MW gas-fired power plant under a build-own-operate framework
April 2016 - Airports and Air Transport Co signed MoU with Milan Airport to build new terminal; Project cost - EUR250mn
May 2016 - Daewoo E&C signed MOU to jointly build oil refinery
May 2016 - Samsung C&T to build the hospital; Project is part of deal signed by 7 Korean construction firms to build 6000 hospital beds in Iran
May 2016 - Samsung C&T to build the hospital; Project is part of deal signed by 7 Korean construction firms to build 6000 hospital beds in Iran
May 2016 - Hyundai Construction and POSCO Daewoo to build the hospital; Project is part of deal signed by 7 Korean construction firms to build 6000 hospital beds in Iran
May 2016 - Daelim Industrial to build the hospital; Project is part of deal signed by 7 Korean construction firms to build 6000 hospital beds in Iran
May 2016 - GS Engineering & Construction, Hanwha Corp. and Korea Medical Holdings to build the hospital; Project is part of deal signed by 7 Korean construction firms to build 6000 hospital beds in Iran
May 2016 - GS Engineering & Construction, Hanwha Corp., and Korea Medical Holdings to build hospital in Alborz, Markazi and Tehran; Project is part of deal signed by Korean construction firms to build 6,000 hospital beds in Iran
May 2016 - GS Engineering & Construction, Hanwha Corp., and Korea Medical Holdings to build hospital in Alborz, Markazi and Tehran; Project is part of deal signed by Korean construction firms to build 6,000 hospital beds in Iran near Tehran
June 2016 - Doosan Heavy Industries & Construction secured USD186mn contract to build desalination plant; Facility will process 200,000 tonnes of sea water into fresh water daily
July 2016 - An unnamed Belgian firm to build 600MW combined-cycle power plant near Tabriz city
July 2016 - Anas signed deal to build and manage EUR3.6bn road; First section of road, covering 350km worth EUR600mn, slated to be completed by 2022
July 2016 - Iranian Government and ANAS signed contract to develop 1,200km highway linking the Persian Gulf port of Bandar Iman Khomeini to Bazargan on Iran's border with Turkey; Project cost - EUR3.6bn

facility
EUR350mn
October 2015 - Construction underway; November 2014 - Iran to use Chinese finance for railway construction
December 2016- Iran, Armenia discussed the project; June 2016 - Iran ready to launch project through Armenia; Corridor involves road, rail and sea transport, begins from Persian Gulf to south of Iran, stretches to north of Iran and then goes to Armenia and Azerbaijan, from where it reaches the Georgian ports of Poti and Batumi in Black Sea
July 2016 - Iran, Italy signed joint statement to begin high-speed train project from march 2017; FS group signed MoU with RAI to design and build the project; Project part of high-speed lines framework agreement worth EUR3bn
October 2016 - Turkish contractor to construct the treatment plant after finalizing an agreement with Tehran Province's Water and Wastewater Company; Project expected to be completed in 54 months; Project cost - EUR125mn
into service in March, 2017; Project consists of 2 x 225 MW Francis-type turbines of annual generation 986 GWh; Contract value - USD440mn
October 2016 - Construction underway
November 2015 - Construction underway
May 2015 - Construction underway; Project cost - EUR558mn
October 2014 - Construction underway; Project comprises of 3x70 MW Francis-type turbines
October 2016 - India may examine a proposal from Iran to develop the airport at its strategic Chabahar port as part of comprehensive infrastructure development that includes rail-road connectivity to the port
September 2016 - Construction begins on the third segment of the rail link; July 2016 - Khaf to border rail section completed; Total Project Length - 191km
January 2017 - Construction underway; August 2016 - Qazvin-Rasht section is 93% complete; Part of 375 km North South Rail Corridor (Iran-Azerbaijan Railway Project)
January 2017 - Construction to commence this year; Part of 375 km North South Rail Corridor (Iran-Azerbaijan Railway Project)
October 2016 - Rashtriya Chemicals And Fertilizers Joint Venture To Develop Chabahar Urea Plant
March 2017 - Construction underway; January 2016 - Turkmenistan discussed road construction projects with Iran
January 2016 - Planning underway; Contract signed with Chinese company
February 2016 - Construction commenced, expected to be completed in 42 months; November 2015 - RZD signs EUR1bn railway electrification deal in Iran; July 2014 -The Mapna Consortium wins financial approval for the project
December 2016 - Countries discussed on boosting energy swap to 1200 MW; August 2015 - Iran's Sunir & Armenia's HVEN signed contract for construction of the line; April 2015 - Export Development Bank of Iran (EDBI) to provide USD91mn loan for the project; Total Project Cost - USD120mn; Total Length - 275 km
of deforestation, and habitat and biodiversity loss, in the Hyrcanian forests, the steppe ecosystems of the Alborz Mountains; April 2012 - Construction commenced
Terminal and agreed on an 100% investment from the French's side as well as agreeing on a BOT method; Project cost - EUR810mn
December 2014 - Project officially inaugurated; Project links Turkmenistan, Iran and Kazakhstan; Total project cost - USD1400mn; Total length - 908 km (88km in Iran's territory, 700km in Turkmenistan and 120km in Kazakhstan)
May 2013 - Contract awarded to Mister Wang; The duration of the project will be three years
July 2013 - ABB awarded USD30mn contract from Zagros Energy to build four transmission and distribution substations in Kurdistan; Completion expected by 2014
May 2013 - Construction underway; Construction will take three years; Project cost - IQD144bn
November 2015 - Project is on hold; September 2013 - Project will be completed by 2020 and to be built in phases; Project will include 30,000 residential units, 5 shopping centres, 18 schools and 12 kindergartens, many commercial buildings, a hospital, police station, a mosque and also a health centre; Project cost IQD 16.6bn
February 2016 - Work 24% completed; May 2015 - Work restarted; March 2015 - Project delayed due to political conflicts and security issues; Period of construction was expected to be 36 months from the groundbreaking
December 2013 - Contract awarded; Construction expected to complete within a year

September 2015 - Syrian war & migrant Crisis has significantly delaying the progress of the project; August 2013 - Iran, Iraq and Syria signed a deal for the construction of pipeline; Total length - 1500km; Project Value - USD10bn
October 2014 - Construction started; Equipment supply contract signed with GE; Construction period expected to be 15 months
September 2015 - Construction underway; Expected completion by May 2016; Conversion will add an additional 500 MW to the project making the overall capacity of 1500 MW
January 2014 - Primary studies for 420km rail link between Jordan and Iraq has been completed; Governments seeking funds for project; Rail link would provide both passenger and cargo services; Rail will link Mafraq Al-Rutbah (Rutbah Junction in Iraq) with Trabil at Jordanian border and have 14 stations
March 2015 - Construction to be completed by 2017; Capacity - 199,000 m3 per day
September 2016 - Construction expected to start in 2016; February 2016 - China Petroleum Pipeline and Mass Global to build the pipeline; Project to be operational by late 2017; Total cost - USD18bn; Length of the pipeline -1680 km; Capacity - 150,000 b/d
February 2014 - When complete the new refinery will also have an associated 300 MW power plant; Project to be implemented in 2 phases; Phase 2 will increase capacity from 60000 to 90000 b/d; In late 2013, Nineveh oil officials said the planned refinery could have an output capacity of 100,000 barrels per day
financing plan
financing plan
April 2014 - Alstom awarded contract for the project
September 2014 - Construction underway
April 2014 - International Container Terminal Services Inc (ICTSI) entered into an agreement with General Company for Ports of Iraq (GCPI) to invest in the project; Project includes rehabilitation of Berth 20, construction of a new container and general cargo terminal; A new 200 meter quay with estimated capacity of 300 TEU will also be constructed for the new terminal; The new terminal will have capacity of 900,000 TEU and a length of 600 meters
Construction is expected to last for five years over three phases; Project will include include residential apartments, hotels and a shopping centre
June 2014 - Faruk Group says project depends on the political stability of the region as there are extremist activities in the south; Project was announced in June 2013
May 2014- Construction work to be completed within three years.
January 2016 - Construction underway; Project a mosque and a medical clinic will include 88 towers, 300 villas, a Marriott luxury hotel complex, a mosque and a medical clinic
May 2014 - The second phase is currently under way and due to be completed in 2015
May 2014 - Completion of the project expected in June 2017; September 2013 - Design phase completed; Planning for the implementation of project underway; Total project cost - USD4,500mn
May 2014 - Completion of the project expected in June 2017; September 2013 - Design phase underway; Design expected to be finalized by end 2013; Total project cost USD4,500mn
May 2014 - Completion of the project expected in June 2017; September 2013 - Design phase underway; Design expected to be finalized by end 2013; Total project cost USD4,500mn
May 2014 - Project to be completed by end of 2015; June 2013 - Construction started; Project involves building a 3,690 metre long 2-by-2 lane highway tunnel in 30 months; The tunnel will connect the cities of Dohuk and Zakho
May 2014 - Construction underway; Project expected to complete by end 2015
January 2015 - Environmental and Social Review report has been submitted to International Finance Corporation (World Bank) for approval; April 2014 - Project to be delivered on build, own and operate basis; Project is divided into Phase 1 (A and B) and Phase 2; Construction expected to take 28 months
Bank) for approval; April 2014 - 560MW open-cycle phase gas-fired gas turbines including the associated 400/132/11 kV Dohuk substation and a 40km 400kV overhead transmission line; The substation and the transmission line will be transferred to KRG once built

Bank) for approval; April 2014 - Project includes 280MW open-cycle gas-fired gas turbine and related facilities either concurrently or sequentially with Phase 1A
Bank) for approval; April 2014 - The phase involves conversion of the open-cycle gas turbines to combined cycle gas fired gas turbine plant
July 2014 - Planning underway for the expansion project
July 2014 - Planning underway for the expansion project
April 2015 - Construction underway; The airport will handle 328,000 passengers, 8700 tonnes of cargo and 3450 aircraft movements per annum when operational
June 2014 - Construction underway; Project expected to complete by Q3 2015
June 2014 - Construction underway; Project will include three floor hyper building including: City Centre Hyper Market, 65 Brands, 15 restaurants, 5 cafes, indoor game land and bowling center, normal and 6D cinema, 2000 car parks
July 2014 - USD607mn contract awarded by the Government of Iraq for the construction of an oil storage depot near its Nassiriya oilfield in the south of the country
May 2014 - Completion of the project expected in June 2017; Construction contract for the project expected to be awarded by February 2015
November 2014 - The Ministry completed the design and preparation of a 62.69 km dual carriageway road and tunnel between Mama Jalka and Choman
November 2014 - The first section includes construction of the Pirmam road and a 2.45 km-long tunnel, expansion of Korey-Shaqlawa-Mama Jalka road, including the construction of twin-tube tunnels and construction of Bani Harir tunnel and a road to be completed by the end of 2017
November 2014 - The second section includes construction of the 16.685 km dual carriageway connecting Choman to Haji Omaran
December 2014 - Design deal awarded to ILF Consulting Engineers; Operations of Phase 1 expected to commence by 2017; The project will provide seawater at the oil fields in southern Iraq through two 150 km pipelines having capacity of 24 cubic metres/sec
June 2015 - Iran section with a length of 12 kilometers has been completed, Iraq section of 32 km is left to be completed; Total Length - 44 km
March 2015 - Construction expected to begin shortly; January 2015 - Agreement signed between Al-Diwaniyah governorate officials and the National Investment Commission of Iraq
complete in 2015
April 2015 - Mitsubishi Hitachi Power Systems received contract for the project which is scheduled for completion in May 2017; February 2015 - The 800MW Al Hartha TPP consists of four 200MW units
March 2016 - ABB won USD100mn order to deliver substation for project; October 2015 - General Electric won a gas turbine supply order from Mass Global Investment; December 2014 - Planning underway; The first phase of the project is planned to be completed in the second half of 2017; Project will be built in two phases of 1500MW each
November 2014 - Project construction underway; Project is being developed in three phases of which third phase is nearing completion; The capacity will be boosted from 500 MW to 1500 MW
July 2014 - Project completed; Project is part of USD25bn West Qurna-2 oil field project; Power plant to use both fuel gas and diesel oil for power production
June 2014 - Project completed
June 2015 - Construction underway and hospital is set to open later in 2015
July 2016 - Japanese government has made USD 2.1 bn available for the rehabilitation of the Basra RefineryApril 2015 - Project management consultancy contract awarded to Technip and UNICO; The contract covers the engineering, procurement, construction, commissioning, start-up and warranty management phase of the refinery upgrading

September 2013 - Ground Breaking Ceremony held; The project involves changing the old water networks in many quarters in both Erbil and Dohuk city for USD163mn

August 2015 - Construction commenced; The first unit is expected to join the national grid by early 2017

June 2015 - Feasibility study completed

January 2016 - Construction underway; February 2013 - Samsung Engineering awarded USD879mn contract to build central processing facility, including the GSP (200 million Standard Cubic feet per day capacity) and the Utilities and Offsites (U&O) facility within 35 months

August 2012 - The Kurdistan Regional Government signed a deal with the POSCO

The gas transfer to Iraq will begin with 5mcm/d which will reach 35mcm/d on completion of a gas pipeline project; Total length - 270km

April 2014 - Construction underway

applications expires at the end of June, but it may be extended by the Transport Ministry to allow more firms to apply; Port will have an annual handling capacity of 99mn tonnes per year, a 39-km container quay and another 2-km berth, a container warehouse spreading over 1mn square metres

October 2015 - The project is currently in design phase; Work on the project is estimated to start in Q116; Work involves building water injection plant with capacity of 12.5mn barrels of water daily

combined gas-thermal power plant; Power plant will supply 300MW to the steel mill and the rest will be used by Basra city; Project Cost IQD835bn

April 2013 - Calik completed the construction of the power plant

November 2012 - Project completed

Electricity and BRG Energy; Plant consists of four units of 125MW each and is slated to be completed within 18 months; Project cost IQD282bn

May 2012 - Project completed; Plant will supply enough electricity to support around 160,000 households

December 2013 - LOI issued to Hamwha to develop the project

June 2016 - Aecom won USD52.8mn contract to repair bottom outlet of dam; March 2016 - Iraq signed EUR273mn contract with Trevi; February 2016 - Trevi Group won bid to urgently repair the dam; Contract to be signed shortly; Project work expected to be completed in 18 months

IQD86bn

910,000 m3/day

September 2013 - Ground Breaking Ceremony held; The project involves changing the old water networks in many quarters in both Erbil and Dohuk city for USD163mn

March 2014 - All units were commissioned; Project completed; Plant consists of 4 units of 330 MW capacity each; the plant will use both natural gas and crude oil for production of power

January 2016 - Project completed

June 2012 - KRG's minister of electricity announced project

June 2012 - KRG's minister of electricity announced project

June 2012 - KRG's minister of electricity announced project

November 2012 - The Ministry has signed contracts with a Turkish Firm for the building the project; Hospital is expandable up to (492-bed) (60,000square meters)

October 2013 - The project includes the construction of an Olympic Stadium capacity of 30 thousand spectators, as well as building a variety of sports facilities with the huge hotel; Project Cost IQD105bn

April 2013 - Construction underway; It will have capacity of 60,000 seater

March 2015 - Project completed in 2014

March 2014 - Saracen Group has obtained license to establish a IQD1.1bn cement plant in Samawa

November 2015 - Approval obtained, however the progress has slowed down; June 2015 - Received the tenders from the government and will appoint contractors to start work on the ground soon; April 2015 - The mixed-use project will be funded by an international consortium and it will take 10 years to be completed; Project involves the construction of 40000 villas, along with hospitality and educational components

EUR20m

May 2015 - Project completed

December 2015 - Project completed

October 2013 - Project completed

July 2013 - Two of the six turbines of the plant have been put into operation; April 2013 - Project completed; Six GE Frame 9E gas turbines of 125 MW each will be used

July 2013 - Shopping mall inaugurated by the Baghdad Investment Commission

March 2015 - Construction underway; August 2012 - Iraq's Deputy Prime Minister for Energy Affairs urged to assume required action to avoid delay in implementing the project; Project comprises 10 units of 125 MW each

May 2011 - Second unit of the Iranian-built Al Sadr power plant in Iraq will come on stream in 30 days; Plant has two 160-MW turbines and is being built over 25 acres of land; The first unit came on stream in April 2011

build the social infrastructure for the project; October 2014 - Hanwa received the fourth deposit of USD387.5 million for the construction

June 2016 - Work halted on the project; Nexans awarded contract for providing low-voltage cable system; February 2014- Construction started

April 2014 - EUR225mn (USD285mn) equipment contract awarded to Alstom

March 2014 - Project completed; The high-speed trains that can travel at 125 kmph speed

January 2013 - MoU signed between Kaltig and Iraqi Ministry of Construction and Housing; Total Length 508km

March 2012 - A German firm has work started on a hospital

April 2014 - Construction underway

September 2013 - Governor of Sulaimaniya plans to begin the construction soon; January 2012 - Plans for the project announced; Project area - 3000 acres

January 2012 - Bids invited for the monorail project; Project cost AED1.6bn

November 2012 - The Ministry has signed contracts with a Turkish Firm for the building the project; Hospital is expandable up to (492-bed) (60,000square meters)

February 2014 - Siemens secured a service and maintenance contract for the project; It will also supply and deliver spare parts for the gas turbines

30MW each

November 2012 - Project completed; Project is part of USD7bn Dry Canal highway which will link Arabian Gulf to Khan Al Khalil in Turkey via Basra, Iraq

February 2014 - Planning underway; October 2013 - Construction will be started only after Iraq's Ministry of Finance has agreed to open the company's documentary credits; Project to be completed in 3 stages

projects plan

June 2012 - KRG's minister of electricity announced project

June 2012 - KRG's minister of electricity announced project

November 2012 - Construction commenced; Project area - 60 acres; Project cost - IQD72bn

Management of 400kV substation at the power plant; September 2012 - Siemens will supply four SGT5-2000E gas turbines and four SGen5-100A generators; Czech Export Bank and PSG International, to provide USD500mn for the project; USD120mn EPC contract awarded to ABB

September 2012 - Contract awarded; Project will take 4 years to be completed

September 2012 - Contract awarded; Project will take 3 years

December 2014 - Construction underway; October 2012 - Contract for the project awarded for the joint bids by both companies; Project is a 20-year build, operate and transfer agreement

February 2016 - Plant operational; Plant includes 4 X 125 MW units

their operations

September 2016 - Work is scheduled to start in 2018; June 2016 - Project tender attracted 17 bids; May 2016 - Investors pledged USD450mn for project; December 2015 - Tender launched; June 2015 - Project approved; Project is part of Phase I of Red Sea - Dead Sea Water Project which will be carried out in 5 phases; Phase I includes desalination plant and 180 km pipeline that will connect Red Sea with Dead Sea; Phase I Value - USD900mn; Total Project Value - USD10bn

September 2016 - Work is scheduled to start in 2018; June 2016 - Project tender attracted 17 bids; May 2016 - Investors pledged USD450mn for project; December 2015 - Tender launched; June 2015 - Project approved; Project is part of Phase I of Red Sea - Dead Sea Water Project which will be carried out in 5 phases; Phase I includes a desalination plant and 180 km pipeline that will connect Red Sea with Dead Sea; Phase I Value - USD900mn; Total Project Value - USD10bn

deals

March 2016 - Rosatom and the Jordan Atomic Energy Commission signed cooperation deal; December 2014 - Russian Prime Minister Dmitry Medvedev has inked a draft agreement to construct the first nuclear power plant in Jordan

May 2014 - PM lays cornerstone for the project; February 2014 - USD139mn grant approved by Abdullah Bin Abdul Aziz, the King of Saudi Arabia

December 2015 - Construction underway; June 2014 - Drake & Scull Engineering (DSE) was awarded two major contracts worth USD70.5mn which included complete MEP services for four hotels and 12 villas; Work also included complete design, supply and installation for district cooling plant with total capacity of 8000 tons of refrigeration (TR)

September 2016 - Construction underway; June 2013 - Arabtec has secured USD629mn contract from Saraya Aqaba Real Estate Development to complete first phase

October 2016 - Project wins Best Retail Project Award; May 2016 - Project completed

consists of retail outlets, luxurious serviced apartments, scenic rooftops and office spaces; July 2006 - Construction commenced

metres

August 2014 - Construction to commence on April 2015; Wastewater pipeline to transport sewage from Zarqa Governorate and parts of Amman to Al Samra Wastewater Treatment Plant

March 2015 - Jordan signed agreement with Rosatom for building two-unit nuclear power plant, first unit expected to start operating after 2022 and second two years later; September 2014 - Rusatom Overseas to begin work on the water cooling system, a feasibility study, site evaluation and environmental impact assessment

May 2012 - BAM International and MAG Engineering & Construction was awarded design-build contract

October 2014 - MID Contracting Company awarded construction contract for phase 3 in June 2014; April 2013 - Project in tender process

September 2016 - Project completed; Capacity increased from 9mn passengers/year in Phase I to 12mn in Phase II; Part of expansion project as PPP carried out under a 25-year BOT concession agreement with AIG signed in 2007 and is valid until 2032

March 2016 - Government began pre-qualification process earlier in 2016; Tender floated by Ministry of Public Works and Housing in November 2015 received 13 separate bids; February 2015 - Jordanian government and the Saudi Fund for Development signed five funding deals for healthcare projects

July 2016 - dorma+kaba wins USD1.4mn King Hussein hospital deal; June 2015 - KHCF is raising funds for expansion

March 2015 - Construction commenced on 440 room project and is scheduled to be completed within six months; Project is first phase of USD1bn Porto Dead Sea project
January 2016 - Project given green light; December 2015 - TSK and Enviromena to build project; July 2015 - Kuwaiti Fund for Arab Economic Development and Abu Dhabi Fund for Development have agreed to fund increase in total generating capacity; Capacity will be increased to 100MW from previously planned 65-75MW
JOD500mn
January 2014 - Primary studies for 420km rail link between Jordan and Iraq has been completed; Governments seeking funds for project; Rail link would provide both passenger and cargo services; Rail will link Mafraq Al-Rutbah (Rutbah Junction in Iraq) with Trabil at Jordanian border and have 14 stations
September 2015 - Ministry of Water & Irrigation and Water Authority of Jordan invited companies to bid on project; Capacity - 17,000 m3/day
July 2015 - Government of Jordan through Ministry of Transport has launched request for expression of interest to hire consultants
July 2015 - Government of Jordan through Ministry of Transport has launched request for expression of interest to hire consultants
July 2015 - Government of Jordan through the Ministry of Transport has launched request for expression of interest to hire consultant; Phase I (USD28mn) to be completed by 2017 and Phase II (USD57mn) to be completed by 2030
and April 2016; Facility could be constructed at two sites, the Al Ghabawi Landfill site and the Al Shaer Transfer Station site, and will have an initial capacity of 1,200 to 1,500 tonnes per day with at least two fully redundant processing lines; Capacity - 2000 tonnes/day waste to energy
December 2015 - 20 year PPA signed between Hareon Solar and NEPCO; Construction to begin in 2016
October 2016 - Masdar group signs PPA with Jordan's NEPCO for 200 MW solar plant
September 2016 - Construction expected to start in 2016; February 2016 - China Petroleum Pipeline and Mass Global to build the pipeline; Project to be operational by late 2017; Total cost - USD18bn; Length of the pipeline -1680 km; Capacity - 150,000 b/d
January 2016 - ACWA Power has signed 25 year PPA with National Electric Power Company; Plant will use Natural gas as primary fuel and Light Diesel Oil as secondary fuel
May 2016 - EBRD considers offering loan of up to USD26mn; March 2016 - Acwa Power acquired Sunrise Solar Energy that seeks to build the 50MW plant; March 2015 - ET Solutions will build the solar park as EPC contractor
March 2016 - Construction underway; February 2016 - Tamar partners signed a letter of intent with private customers in Jordan to supply 1.8 bcm over 10 years
April 2016 - Ministry prepared plans to float tender to hire contractor for road rehabilitation; Project cost - USD170mn
May 2016 - EBRD seeks consultant for second expansion of As-Samra wastewater treatment plant; Second expansion would increase capacity of plant by additional 100,000 - 145,000 m3 per day
September 2016 - Project completed with completion of second phase while Phase I was completed in March2013; Capacity increased from 9mn passengers/year in Phase I to 12 million in Phase II; Part of expansion project under PPP carried out under a 25-year BOT concession agreement with AIG signed in 2007 and is valid until 2032
March 2015 - Construction commenced on 440-room resort which is the first phase of project
April 2014 - CRC 19th bureau group, CEME, Dongfang boiler group ltd provided tender to generate the project; Jordanian government commissioned Enefit to undertake a feasibility study in 2006
September 2015 - Technical and financial evaluation process for negotiations on project agreement completed; PPA to signed in December 2015, awaiting for financial closure and expected to be operated by end of 2018
July 2014 - Elecnor awarded USD112mn contract to build 75MW Ma'an wind farm
October 2016 - Construction underway; Marsa Zayed includes Sheikh Zayed Masjid on northern end, completed in August 2014 and Al Raha Village on southern edge of Marsa Zayed
may invite tenders for EPC contract by Q1 2016; Phase 2 involves construction of two additional berths in basin area by 2022
May 2012 - Commission holding talks with Russian Atomstroy Export and consortium of French firm AREVA and Japanese Mitsubishi Heavy Industries for construction

rehabilitation work has been completed; March 2013 - Tenders for establishing a reservoir and a pumping station in Ruseifa will be floated soon

July 2013 - Project completed; Construction carried out by Turkey's GAMA on BOT basis with Jordanian government covering USD400mn of its costs

March 2013 - Project completed; Phase I increased passenger capacity from initial 3.5 mn passengers/yr to 9 mn passengers/yr; Part of expansion project under PPP carried out under a 25-year BOT concession agreement with AIG signed in 2007 and is valid until 2032

June 2015 - Project completed; August 2014 - Construction started; November 2013 - BAM International was awarded EPC contract; Project cost - EUR65mn

October 2015 - Project completed and inaugurated; Plant will provide more than 10 percent of Jordan's entire water resources

October 2016 - Construction underway, to be completed soon; September 2012 - 35% of reservoir completed; Project involves construction of 80-meter height, 273-meter length dam with capacity of 6.7mn cubic meters

March 2015 - Nebras buys 40% of AES stake in Jordan power plant; July 2014 - Project completed; Electricity from the plant will be supplied to state utility National Electric Power Company (Nepco) under 25 year PPA; Plant can use heavy fuel oil (HFO), distillate (DFO) or natural gas as fuel

passengers a day when it is completed in 2019; February 2015 - Authorities are expected to float the tender soon; Project cost - JOD110mn

March 2015 - Project have been in commercial operation since late 2014; Plant will start to use LNG-based natural gas later this year; April 2013 - Construction started; October 2012 - Wartsila-led consortium awarded major contract

2013 - KEPSCO signed an agreement with Jordan's Ministry of Energy and Mineral Resources to build, own and operate wind power plant for next 20 years

October 2016 - Project completed; Project under 20 PPA with the National Electric Power Company (NEPCO); June 2015 - Construction commenced

December 2015 - Wind farm is inaugurated and connected to national grid; September 2015 - Project completed; Project value USD287mn (EUR254m); Utilise 38 Vestas V112 Wind Turbines of 3 MW each

July 2013 - 75% of the tanks construction has been completed; Project involves building five water tanks in west of Funaitees, Kuwait City; Project is part of wider USD165mn/KWD47mn project

Electricity and Water of Kuwait; The project is divided into three parts; In the first, the company will execute the work for the energisation of the RDTN X substation, building 76km of transmission lines; In the second, the company will build 82km of transmission lines to energise the RDTN W substation; the company will build another 14km of transmission lines to interconnect the RDTN X and RDTN W substations; Project cost - EUR88mn

August 2016 - Construction underway; April 2015 - Foundation stone has been laid; Project connects Shuwaikh Port to Doha Peninsula via Al-Sulaibikhat Bay, and the existing roads in Doha to the intersection of Shuwaikh Port; October 2014 - Contract worth USD586mn awarded; Project is part of Sheikh Jaber Al-Ahmad Al-Sabah Causeway Project

March 2015 - Ministry of Public Works planning to launch tender for the construction work; Contract is expected to be awarded by Q2 2016

April 2016 - KAPP has delayed prequalification process as it is finalizing the feasibility studies; May 2016 - The Kuwaiti authorities have allocated KWD2.1bn (USD7bn) to implement the 171km Kuwait Metro Rail by 2020; October 2015 - New advisers have been appointed and bidding likely to start next year; August 2014 - Line-2 will have 27 stations

April 2016 - KAPP has delayed prequalification process as it is finalizing the feasibility studies; May 2016 - The Kuwaiti authorities have allocated KWD2.1bn (USD7bn) to implement the 171km Kuwait Metro Rail by 2020; October 2015 - New advisers have been appointed and bidding likely to start next year; August 2014 - Line-3 will have 15 stations

April 2016 - KAPP has delayed prequalification process as it is finalizing the feasibility studies; May 2016 - The Kuwaiti authorities have allocated KWD2.1bn (USD7bn) to implement the 171km Kuwait Metro Rail by 2020; October 2015 - New advisers have been appointed and bidding likely to start next year; July 2015 - Line 4 will have 15 stations and will connect city centre with Kuwait International Airport

April 2016 - KAPP has delayed prequalification process as it is finalizing the feasibility studies; October 2015 - New advisers have been appointed and bidding likely to start next year; Project to have four lines and 61 stations; Project is a part of Gulf Cooperation Council (GCC) Railway Project

in collaboration with Kuwait Municipality have re-launched a request for qualifications (RFQ) for the project; March 2014 - Kuwait's Partnerships Technical Bureau (PTB) with Kuwait Municipality, issued a request for qualifications (RfQ) for the project

May 2014 - State-owned Kuwait Oil Company (KOC) has given about 70mn square metres of land for the construction

May 2016 - Tender deadline extended by two months to late July 2016; Project will combine 60 MW of solar capacity with gas-fired units; June 2015 - Project tender has been launched by Kuwait's Partnerships Technical Bureau

January 2015 - Project under planning phase; it will have 260 beds; June 2014 - The hospital would include medical and non-medical aspects, information technology equipment, a new utilities plant and access roads to the new complex from the existing Armed Forces Hospital; Project is part of the nine planned hospital projects worth KWD1.25bn

November 2016 - New deadline for project completion is 2021; February 2016 - Project study is underway; Railway network will connect Kuwait, through Saudi Arabia, to the UAE and Oman, with branches linking Bahrain and Qatar; Total Length - 2117 km; Total Project Value - USD15.4bn

August 2016 - Construction underway; Project extends over the Kuwait Bay and links the capital Kuwait City with the northern Subiyah area

October 2016 - Contract awarded to provide commissioning management and support services; March 2015 - Foundation stone laid for the project; Project is part of KNPC's USD16bn Clean Fuels Project that aims to upgradation and integration of the Mina Abdulla (MAB) and Mina Al Ahmadi (MAA) refineries to increase combined capacity from the existing 736,000 barrels per day to 800,000 barrels per day; Total project cost - KWD4.6 bn

January 2015 - Veolia is currently building a second desalination plant which employs the thermal process; January 2014 - Project is under 40-year long-term Energy Conversion and Water Purchase Agreement (ECWPA)

January 2016 - Construction underway and slated for launch in Q1 2018; December 2014 - EPC contract awarded; Project includes, a Five-star hotel and an extension of the grand avenue and prestige, Electra district, Plaza district and Orchid district; Project cost - KWD265mn

November 2016 - Work is progressing well; Project cost - KWD304mn

2015 - Construction underway and scheduled for completion by late 2015; Project includes, 5 residential and dormitory buildings, 4 educational academic buildings, 4 administrative buildings, 5 recreational and sports buildings, a restaurant, a library, a theatre and a mosque and 5 training buildings

December 2015 - Contract awarded for design, engineering, procurement, construction, installation and commissioning services earlier in February 2015

2016 - Construction 17% completed; February 2015 -Contract worth KWD150mn (USD525mn) awarded to build, operate and maintain college buildings

April 2015 - SSH along with RTKL to complete project design; Project will comprise a 900-boat marina, a five-star hotel, a services apartment tower, two high-rise residential towers and an outlet mall; Construction to commence in later 2015 and is expected to be completed by late 2018 or early 2019

May 2016 - Project has been divided into six main packages, which will include 27 buildings; November 2015 - Contract signing ceremony held for the project; April 2015 - Construction contract awarded

November 2016 - Project completed; February 2015 - Construction is 50% completed; April 2014 - Drake & Scull Kuwait won MEP contract worth AED68mn; Project includes a performing arts centre, music centre, conference centre, historical documents centre as well as libraries, parks, and fountains

August 2016 - Construction underway; April 2015 - Foundation stone has been laid for Doha Link; The project involves construction of 2 sea bridges - Subiyah Link (36 km) and Doha Link (12 km)

September 2016 - All bids have been received from pre-qualified firms; The project involves the development of a wastewater system with an initial capacity of 500,000 m3/day (with an option to expand the capacity by an additional 200,000 m3 /day) and associated wastewater transmission and sewage effluent networks; Project cost - KWD450mn

October 2015 - Construction is in advanced stage on Phase-I; March 2015 - Firms to submit pre-qualified bids for package 3B and 3C (worth USD1bn), as part of Phase-I; Project is part of broader USD16bn port development project

2016 - Construction 67% completed; March 2012 - Construction contract worth USD518mn awarded to Sinohydro and Al-Hani JV

2015 - Construction underway; April 2014 - Foundation stone laid down; Small Boat Harbours Project is part of a broader project worth USD1bn, aimed at upgrading marine facilities

June 2016 - KAPP has received proposals from prequalified companies and consortiums for Phase-II; August 2015 - Project approved by the government; The facility will also produce 102mn imperial gallons a day of desalinated water; Project is a part of Az-Zour North Independent Water & Power PPP Project (4850-MW)

August 2015 - Phase-I (1,500 MW) approved by the Government; The plant will use multiple fuels (oil and gas) for energy generation

November 2015 - Project is in discussions over pipeline route

October 2016 - Contract awarded to provide commissioning management and support services; March 2015 - Foundation stone laid for the project; Project is part of KNPC's USD16bn Clean Fuels Project that aims to upgradation and integration of the Mina Abdulla (MAB) and Mina Al Ahmadi (MAA) refineries to increase combined capacity from the existing 736,000 barrels per day to 800,000 barrels per day; Total project cost - KWD4.6 bn

June 2016 - Phase 1 to start operations by November 2016; January 2015 - 65% of the works has been completed on phase 1; Plant will process 107mn gallons per day of desalinated water; Project is a part of Az-Zour North Independent Water & Power PPP Project (4850-MW)

June 2016 - project is scheduled for completion in April 2018; December 2015 - Construction commenced; Project includes, 50 MW thermal solar plant and a 10 MW photovoltaic plant; September 2015 - Construction contract awarded

September 2015 - Construction contract worth USD306mn awarded; The project will take three years to complete new state-of-the-art tennis complex; Expansion includes a luxury hotel, new shops and a 7,600-seat tennis arena; Project cost - KWD100mn

April 2016 - KAPP has delayed the prequalification process for the project as it is finalizing the feasibility studies; Project will be developed under USD10bn Kuwait NRR project; Total Length - 574 km

April 2016 - KAPP has delayed the prequalification process for the project as it is finalizing the feasibility studies; Project will be developed under USD10bn Kuwait NRR project; Total Length - 574 km

April 2016 - KAPP has delayed the prequalification process for the project as it is finalizing the feasibility studies; Project includes construction of 2 lines, Nuwaiseeb - Freight Depot Line and Freight depot - Umm Qasr-Boubyan Port Line

October 2016 - Tender launched for Transaction Advisory Services; June 2015 - Companies shortlisted in reference to RFQ launched for the project; December 2014 - Competent international and regional companies invited to submit their Expression of Interest

April 2014 - Construction started; March 2013 - SK E&C won a USD160mn contract to Modernize Wafra MGC

February 2016 - Project on track to open in Q417; Major component of the project includes replacement of Al Manshar Mall and four residential towers with the new KWD70mn Al Kout Mall

area and a multi-storey car parking to accommodate 3600 cars; Project is part of major Al Kout waterfront project (300,000 sqm)

March 2016 - SSH has been appointed to design 122-room hotel

May 2016 - Hempel Kuwait plans to open new factory to increase production capacity to 19 million litres in two shifts

August 2016 - SSH has been appointed to provide construction supervision services; Project has total built up area of around 500,000 sqm

August 2016 - Bayan National Trading Company won KWD49mn contract to design and build the project; Development will feature seven racing circuits

August 2016 - Hilton and Al-Rai Real Estate Company announced to develop two Hilton properties in Kuwait; Project is part of Phase-IV expansion of The Avenues; Project will have 158-guestroom stored hotel and will form as part of the extension of the Mall's 'Prestige' district; Total cost of two hotels - USD1bn

August 2016 - Hilton and Al-Rai Real Estate Company announced to develop two Hilton properties in Kuwait; Project is part of Phase-IV expansion of The Avenues and will comprise of 430 rooms; Total cost of two hotels - USD1bn

March 2016 - Construction underway and expected to complete by March 2018; April 2015 - Construction commenced; Project cost - KWD390mn
October 2015 - Project completed; Project cost - KWD32mn
March 2017 - USD817mn design and consultancy contract awarded; July 2016 - Contract has been awarded for KWD219mn (USD730mn) to Impresa Pizzarotti for hospital construction
July 2016 - Project worth KWD152mn announced; Main contract tender is expected to be issued in May 2016; Project will be located in South of Kuwait city
February 2016 - Project to be completed within 46 months; Construction commenced in last quarter of 2014; The new hospital will have a bed capacity of 406, 13 floors, a floor surface area of around 101,000 m ² as well as 640 parking spaces; Project cost - KWD98mn
February 2015 - Project is at planning stage; Project cost - KWD173mn
Contract awarded; Project is Health Ministry's plans to construct eight new hospitals to raise the total bed capacity in the country to around 11,000 by 2016
March 2015 - Project is in design phase; March 2014 - Project enters mobilization phase; Project involves construction of a hospital comprising two basement levels, a ground floor and seven additional floors
December 2015 - Project is at planning stage; Project cost - KWD178.9mn
May 2015 - Ministry of Public Works (MPW) is planning to re-issue the tenders for the design, build and operate (DBO) contract in June 2015
2015 - Construction underway; Project will replace the Mubarak General Hospital, hitherto the main teaching hospital in Kuwait
January 2016 - KNPC is planning to award contract by April 2016; Project cost - KWD1bn
January 2016 - Project is still being reviewed and is not expected to be tendered before December 2016; Project to integrate an Olefins III plant into the refinery complex
January 2015 - Contract awarded; Project includes a central processing facility to treat waste water; a 24-inch 165 km oil export pipeline to a tank farm at Al Ahmadi
January 2015 - Contract awarded for Phase-I; Project will involve steam injection and heavy oil production facilities, support complex, tank farms and a 270,000 bpd pipeline to the planned new USD15bn Al Zour Refinery
May 2016 - Governments of South Korea and Kuwait to jointly build the city; November 2014 - Land has been allocated; Project is the second housing scheme in a row following endorsement of the construction of 43,000 houses south of Saad Al Abdullah City in north Kuwait; Project will cover area of 59 sq km
February 2016 - Municipality had approved request of housing authority to allocate 49,000 sq km for the project
June 2016 - Contract worth USD86 awarded under EPC; After project completion, Doosan to undertake the operation and maintenance of the plant until November 2023; Phase-I will process 60 million gallons per day
September 2016 - Construction commenced; It will include gardens, open public spaces, urban plazas, streets, and multi-storey public parking and utilities
October 2016 - MH Alshaya And Four Seasons To Build Hotel; It will be part of the mixed-use Burj Alshaya's 22-storey Eastern Tower; The hotel will feature a spa, yoga studio, fitness centre, pools, restaurants, conference rooms and a banquet hall for up to 2,000 people with 284 rooms
October 2015 - Construction is in advanced stage on Phase-I; August 2013 - Land reclamation has been completed and quay construction is ongoing; Project will be implemented in 3 stages
January 2015 - VIVA Inaugurates Five Classrooms of the project; June 2011 - Construction commences; The University will house 9850 students and staff; Project cost - KWD155mn
May 2015 - Construction underway

segmental viaduct bridges, including an 8km-long bridge along the Nasser road and another 10km for exit and entry ramps at different parts; Nine ground level roundabouts, three multi-level interchanges and 20km of ground level roads are also being developed as part of the project
January 2015 - Project inaugurated; July 2014 - Construction completed; Under a DBO (Design-Build-Operate) scheme, the plant will be operated and maintained by Veolia over a five-year period, up to 2019
National signed USD4.34bn contract to build passenger terminal; Project to expand capacity from current 7 mn per year to 25 mn by 2022
section opened while construction underway on remaining sections; Project includes 7.3 km of mainline Jahra Road, 2.4 km link roads and 8 km of ramps, and 6.2km of depressed road; Project will be implemented in five phases; Project cost - KWD264.8mn
April 2016 - KAPP has delayed prequalification process as it is finalizing the feasibility studies; May 2016 - The Kuwaiti authorities have allocated KWD2.1bn (USD7bn) to implement the 171km Kuwait Metro Rail by 2020; October 2015 - New advisers have been appointed and bidding likely to start next year; August 2014 - Line-1 will pass through 19 stations
August 2016 - EPCC contract worth USD4.24bn awarded to Sinopec led consortium; February 2016 - KNPC to set up new company to operate Al Zour refinery; October 2015 - EPC contract worth USD1.6bn signed for Package-4; June 2015 - KNPC approves extra USD2.6bn for the project
July 2016 - Project management contract worth USD10mn awarded; Total pipeline length is 110km, with 4km onshore in Saudi Arabia, followed by 47km offshore and 59km onshore in Kuwait
August 2012 - Phase II of the project has begun commercial operation; October 2011 - Phase-I (1,400-MW completed); Project cost - KWD684mn
June 2016 - Project is ready to build, but cannot be implemented until a huge dam built across Kuwait Bay; May 2015 - Project is in design phase, includes 30 communities grouped into four main districts: Finance City, Leisure City, Ecological City, and Culture City; Project cost - USD132bn; Total Area - 62,000 acres
February 2015 - According to Petrofac final results for the year ended December 31 2014, the project was completed in 2014; October 2012 - Petrofac has been awarded EPC contract worth USD200mn for the project
June 2016 - Phase-I (1,539MW, USD1.7bn) expected to start commercial operations by November 2016; Project to be constructed in 5 phases; Plant will process 280mn gallons per day of desalinated water
project has been launched; April 2013 - The plant will take around 25 months to build - with the first phase due to open in 18 months
August 2014 - Project completed
July 2015 - Lebanon's Council for Development and Reconstruction has invited prequalification applications for dam construction, Interested parties have to submit their applications by September 3, 2015; October 2014 - World Bank to grant a USD474mn loan for the dam construction
November 2014 - Construction commenced
November 2014 - Project is into final stages
buildings offering 260 apartments, shops, a health club, parks and a marina front promenade; Phase II of the project will comprise of 6 buildings with residences ranging in size from 75 to 200 square meters; January 2013 - Construction contract for Phase I awarded

May 2015 - Construction contract awarded; Phase II of the project will comprise of 6 buildings with residences ranging in size from 75 to 200 square meters; Total Project Capacity - 250000 sqm
December 2015 - Plans to build 300 room hospital next to NDU campus in Louaize
January 2016 - Government started excavation works
October 2016 - Hala Wardé of HW Architecture has been selected to design the Beirut Museum of Art in Lebanon
January 2013 - Construction contract awarded; Phase I includes 11 buildings offering 260 apartments, shops, a health club, parks and a marina front promenade; Total Project Capacity - 250000 sqm
completed
November 2012 - 25 year concession contract awarded to build and operate a new container terminal
June 2012 - Section 3 opened to traffic; Section 1, Salalah-Thumrait (21-km) opened to traffic in early 2011; Section 2, from Wadi Hareit till the Thumrait-Marmul intersection (51-km) was opened last January; Project Value - OMR55.70mn
December 2013 - Project completed; Project cost - OMR40mn
June 2016 - Construction underway; November 2015 - Duqm Port to begin early phase container operations in early 2016; Project includes new port and dry-dock complex; Project cost - EUR620mn
Construction underway; January 2015 - Packages three and six of the Al Batinah coastal road project, with a combined value of USD1.34 bn awarded last year
May 2012 - Project completed; The project also has an associated desalination plant with capacity of 69,000 m3/day; 15 year power and water purchase agreement with OPWP; Net capacity is 445 MW
December 2014 - Project completed successfully with completion of the new civil aviation building, a runway and air traffic control tower
contruction of the project; DBO contract to float shortly; May 2014 - Project Management Consultant (PMC) tender floated
October 2016 - Construction underway; January 2014 - Transmission line to travel around 18 km from Tibat in Wilayat Bukha to Khasab and extend a further 80 km to Dibba; June 2013 - Contract awarded
April 2012 - Project completed; The length of the dam is about 5.8km; The dam with some 22mn cu m of storage capacity, will give significant protection to low-lying areas against floods
March 2016 - Construction underway; January 2015 - The hotel will comprise 309 rooms with 77 branded residences, seven restaurants, a ballroom for accommodating more than 750 people
section has been awarded; July 2013 - Construction began on the first part of the project of 81 km; Project is divided into 4 phases
October 2016 - Construction underway; September 2015 - Saraya Bandar Jissah secured USD275mn in development finance after recent agreement with Bank Muscat and BankDhofar; April 2015 - AED350 million contract awarded for construction; March 2015 - Towell Construction & Company secured contracts to develop two residential zones, Nameer and Wajd to be completed by 2017
February 2016 - Construction underway; July 2015 - 18-km section of package 1 completed; March 2012 - Construction contract worth USD361mn awarded; Total Length - 272 km; Total Project Value - USD2.6bn
March 2015 - USD370mn construction contract awarded to Nagarjuna Construction Company; Project is part of Al Batinah Expressway; Total Length - 272 km; Total Project Value - USD2.6bn

April 2013 - Construction contract worth OMR122.3mn awarded to Simplex Infrastructures; Project is part of Al Batinah Expressway; Total Length - 272 km; Total Project Value - USD2.6bn
July 2013 - Construction contract worth OMR135.6mn awarded to Larsen & Turbo; Project is part of Al Batinah Expressway; Total Length - 272 km; Total Project Value - USD2.6bn
August 2013 - Batco-led JV won construction contract worth OMR132.6mn; Project is part of Al Batinah Expressway; Total Length - 272 km; Total Project Value - USD2.6bn
August 2013 - Construction contract worth OMR124mn awarded to Consolidated Contractors Co; Project is part of Al Batinah Expressway; Package VI involves 136 viaducts, 2 overpasses, 4 wadi crossing bridges and 4 intersections; Total Length - 272 km; Total Project Value - USD2.6bn
January 2014 - The project is expected to be completed in two years from the date of the announcement of a contract award
April 2016 - Construction underway; June 2015 - Design and construction agreement signed with Chinese company; The refinery is expected to produce 700,000 tons in the first phase of the project and one mn tons from second phase within 3 years; Construction is expected to be completed in 18 months
February 2016 - Construction underway; July 2015 - Construction commenced; May 2015 - AECOM appointed for feasibility, master plan and design; Project cost - OMR60mn
July 2015 - Project completed
October 2016 - Construction completed of stage 1; February 2015 - Part of two staged Oman Convention and Exhibition Centre (OCEC) which is slated for completion by early 2017; This stage includes 3,200 and 450 seat tiered theatre, 14 meeting rooms and two ballrooms; Total Project cost GBP1000mn (USD1.55bn)
October 2016 - Construction completed of stage 1; Project to be completed in III Phases; Phase I slated to be open in 2016; Phase II and Phase III to be open in 2017; Project cost - GBP1bn (USD1.55bn)
awarded in February last year; CPF will include two process trains, each having a capacity of 525 million standard cubic feet of gas per day
February 2014 - Construction 52% completed
October 2016 - Construction work 38% completed; March 2014 - Scope of work involves additions and improvements to the Khasab-Tibat coastal road; Project value - OMR42mn
set to win the tender for package 3; First and second packages were completed last year; December 2014 - Oman Special Economic Zone Authority (Sezad) had invited bids for the project, Larsen & Toubro (L&T) was the lowest bidder with OMR34.53mn
March 2015 - Construction underway; December 2014 - Ghantoot Transport and General Contracting has secured a USD285mn road contract for the first part and Consolidated Contractors Company (USD236mn) for second part of the project, remaining 475km, divided into four packages, will be tendered later; Total length - 800km
facilities
May 2016 - Construction underway; October 2015 - Groundbreaking ceremony held; May 2015 - Construction contract awarded; Contractor will sell electricity to OPWP under a 15-year PPA agreement; Project cost OMR240mn
March 2016 - Contract to be awarded within few months; June 2015 - Nine local and international groups submitted prequalification bids for a contract to operate and manage the dry port
April 2014 - Oman Power and Water Procurement Company (OPWP) expects to complete the Duqm study in 2014; Capacity to range between 300 MW to 400 MW
June 2016 - Project to be developed on PPP basis; April 2014- Medical city will consist of 4 hospitals; Project cost - OMR570mn
August 2016 - Construction underway; June 2016 - Orpic investing USD320mn in project; May 2015 - Ground breaking held for the project; Project has been divided into 3 sections; Section 1 - MAF-Jifnain Terminal (40km), Section 2 - Jifnain Terminal-Airport (30 km) and Section 3 - Sohar-Jifnain Terminal (220-km)

April 2015 - USD400mn steel plant project could be shifted from Sur to Duqm in case the government doesn't provide the promoters permission for mid-sea unloading of imported scrap; November 2014 - POSCO signed USD400mn contract with Sun Metals LLC; Construction to commence soon

December 2015 - Project completed

October 2016 - Construction completed of stage 1; June 2015 - Construction commenced on Phase III; Project is a part of Oman Convention and Exhibition Centre (OCEC); Total Project cost - USD1.55bn

April 2016 - Construction underway; May 2015 - Project under planning phase; May 2014 - Construction to begin in Q314; Project cost - OMR25mn

October 2014 - Construction completed

work on Omani section completed; Total Length - 680km; Stretch in Oman - 160km (Project cost - OMR200mn); Stretch in Saudi Arabia - 566km (SAR1.6bn)

January 2015 - Planning underway; June 2014 - Construction tender to be announced soon; Oman Gas Company awarded USD93.5 mn gas pipeline supply contract

June 2014 - Nagarjuna Construction Company International LLC has submitted the lowest bid of OMR30.88mn (USD88mn)

split in two locations - Al Batinah and Ibri with combined capacity of 2600 mw; Total project cost of two plant - USD1,500mn

June 2014 - Construction contract awarded; Water treatment facility has a maximum capacity of 6,000m3/day, split between 4,000m3/day of process water and 2,000m3/day of drinking water

August 2015 - Four firms submitted financial bids for the construction

January 2015 - Turkish construction firm Sezai Turkes - Feyzi Akkaya (STFA) Ltd and Dogus Oman submitted offers for the project; Project is part of Al Batinah Expressway; Total Length - 272 km; Total Project Value - USD2.6bn

January 2015 - Technical offers received for the project; Project is part of Al Batinah Expressway; Total Length - 272 km; Total Project Value - USD2.6bn

January 2016 - 10km portion of first phase of Bidbid-Sur road opened to traffic; August 2014 - Hill International awarded contract to manage construction of Section 1 and 2 of 247km highway; Project to be completed in 4 sections, Section 1A and 1B under construction, Section 2A and 2B contract awarded; Total project value - OMR432mn

March 2016 - OPWP shortlisted 8 teams for development of three independent water projects in Sharqiyah, Salalah and Duqm; June 2015 - OPWP intends to start procurement of the Duqm water-only project in 2015; The plant capacity is estimated to be between 55,000 and 60,000 cubic meters (cu m) a day

March 2016 - Construction expected to begin in 2018; October 2015 - Oman Rail has received bids from eight teams for the operations and maintenance (O&M) contract; July 2015 - Oman Rail selected three consortiums for a design-and-build contract; February 2015 - The OMR57.47mn (USD149.27mn) Project management consultancy contract awarded to Tecnicas Reunidas for phase 1; Total length - 2244km; Total Project Cost - OMR6bn

July 2015 - Oman Rail selects three consortiums for Segment 1 and extended the validity of their bid bonds; March 2015 - Oman Rail received technical offers from 11 consortiums of international construction companies; Section to connect connects Sohar station to the Oman-UAE border at Al Buraimi and Khatmat Milahah; Total length of Section 1 - 207km

July 2015 - Oman Rail selects three consortiums for Segment 1 and extended the validity of their bid bonds; March 2015 - Oman Rail received technical offers from 11 consortiums of international construction companies; Section departs from Sector 1A and ends at Buraimi station; Total length of Section 1 - 207km

July 2015 - Oman Rail selects three consortiums for Segment 1 and extended the validity of their bid bonds; March 2015 - Oman Rail received technical offers from 11 consortiums of international construction companies; line connects the Sohar Port to Sector 1A; Total length of Section 1 - 207km

Oman Rail received technical offers from 11 consortiums of international construction companies; Total length of Section 1 - 207km

Consultancy won consultancy contract for the project; October 2014 - Turkish firm Yuksel and Abu Hatim JV awarded construction contract

November 2015 - Project completed; Project cost - OMR27mn

January 2012 - Project completed; Project is part of Salalah-Thumrait Dual-Carriageway, carried out in three parts; Total Project Value - OMR55.70mn (USD144mn); Total Length - 77 km
June 2012 - Project completed; Project is part of Salalah-Thumrait Dual-Carriageway, carried out in three parts; Total Project Value - OMR55.70mn (USD144mn); Total Length - 77 km
July 2013 - Tenders opened for the cargo facilities; August 2012 - Tender floated to design and construct the cargo complex with an annual capacity of 260,000 tonnes in Phase 1, with option to increase it to 500,000 tonnes in phase 2
February 2016 - Construction underway; November 2015 - Golden Horizon Trading & Contracting Company won construction contract of O&M building; July 2015 - Construction commenced on Phase II; Project to be constructed in two phases; Phase I has already been completed;
September 2016 - Project completed in December 2015; September 2014 - Construction commenced
July 2016 - Construction to start in 2017; August 2015 - The final construction contract for the project is expected to be signed in late September or early October this year; June 2015 - Oman's government and Oimage LLC are expected to sign a usufruct agreement; The project will include a theme park featuring seven buildings, a boardwalk, an open-air amphitheater and stage, a canal and an enclosed harbor as well as retail shops and restaurants
October 2015 - Construction underway; October 2014 - The entire master plan is envisaged to be finished over the next four to five years with first package to be handed over by 2015
October 2015 - Construction underway
October 2014 - Tender for consultancy to be floated next year, followed by main construction tender in 2016
January 2015 - ACWA Power Barka signed a water purchase agreement with the Oman Power and Water Procurement Company; The second reverse osmosis (RO) plant will have a capacity of 57,000 m3/day
January 2015 - Technical offers received for the project; Project is part of Al Batinah Expressway; Total Length - 272 km; Total Project Value - USD2.6bn
board and 200000t of plaster of Paris per annum in the first phase, scaling up to 16m square metres of board in a second phase
March 2016 - Construction underway; Mall to open next year; July 2015 - RO12-million (USD31mn) deal was signed with a Dutch firm for the first snow village which is to be a part of the project; December 2014 - Foundation stone laid; Project cost - OMR90mn
March 2015 - Agreement signed between contractor Galfar Engineering and Contracting Company and Oman Ministry of Transport and Communication; Contract Value - OMR64.96mn
Ghurair Investments (AGI); December 2014 - The facility to have an annual grain handling capacity of 700000 tonnes and 1mn tonnes of raw sugar imports
modernizing many of the facilities in the area, including water and sewerage services, while retaining its old world feel; Project cost - OMR500mn
December 2014 - Oman's Public Authority for Electricity and Water (PAEW) has floated a tender
June 2015 - Equipment tender has been launched; January 2015 - Galfar Engineering and Contracting Company won construction contract worth USD553.9mn
December 2015 - Construction underway; January 2015 - Plant Sur desalination plant reaches 100 million cubic metres landmark
March 2016 - Contract awarded to build desalination plant for more than USS1.2bn
shortlisted 8 teams for development of three independent water projects in Sharqiyah, Salalah and Duqm; December 2015 - 3 firms appointed for bid advisory services - PWC for financial advisory services, Ayesa for technical advisory services and Curtis, Mallet-Prevost, Colt & Mosle for legal advisory services; RfQ issued for developing 52.6 MIGD projects

March 2015 - Oman signed two agreements worth of OMR71 million with the Saudi Fund for Development to develop projects in Duqm; Government signs agreement; Project cost OMR53.7mn
facilities to supply seawater for cooling industrial plants to be awarded soon; Construction to start in Q415 and completion by Q417
July 2016 - Planning underway; May 2016 - Initial tenders launched for selection of consultants to conduct onshore and offshore studies; April 2015 - OPWP plans to launch several independent water projects (IWP) across the country
October 2016 - Oman Power and Water Procurement Company (OPWP) has opened the bids March 2016 - OPWP shortlisted 8 teams for development of three independent water projects in Sharqiyah, Salalah and Duqm; October 2015 - Oman Power and Water Procurement Company (OPWP) will shortly issue a request for qualifications (RFQ); June 2015 - OPWP plans to launch several independent water projects (IWP) across the country
April 2015 - Tender floated for engineering and project management of the plant; The project covers the ownership, development, financing, construction, operation and maintenance; Power plant is integrated with a 1,600 cubic meters per hour seawater reverse osmosis desalination plant
April 2015 - CUC has issued a tender for consultants to engineer and manage a combined cycle power plant and a seawater reverse osmosis desalination plant in Duqm Special Economic Zone
July 2016 - Construction underway; April 2015 - OMR19.69mn contract awarded, project includes a 36km road and pavement work, water lines, electricity and a sewage plant with capacity of 2,000cu m/d
October 2016 - Construction underway; The Hotel will feature 112 rooms and seven clusters of one- and two-bedroom villas
November 2015 - Construction underway; April 2015 - OMR50mn construction contract awarded, Construction has already begun and the building is expected to be completed in Q217
July 2015 - Wartsila delivers engines for plant; April 2015 - Wartsila will supply seven smart power generation engines with combined capacity of 56-MW, for the power plant
April 2015 - Construction to be completed by Q415
August 2016 - Developer backs out of Crowne Plaza OCEC project due to increased investment cost; July 2016 - Construction underway and property scheduled to be opened in 2017; January 2015 - Construction contract awarded; The 4 star hotel to have 300 rooms
May 2015 - The Duqm Special Economic Zone Authority (SEZAD) has granted 45 hectares plot of land for the development of a mixed use project; Work on phase one of the project is expected to commence in the last quarter of 2015, with project completion expected within five years; Project includes a five-star and four-star beach resort, residential units, an entertainment and recreation centre, an international school as well as commercial space
May 2015 - Tender issued to build water distribution network
May 2015 - Tender launched for section - 2, 3 and 4 worth USD6bn to USD8bn, as part of planned 1,207km of railway; Line to be connected to national rail network and then to GCC-wide rail system
July 2015 - 1600 km pipeline would transport 8trn cubic feet natural gas to India over a 20-year period; May 2015 - Project may start by end 2015 and will be completed in 5 years; Project cost - USD5600mn
August 2016 - Construction underway; May 2015 - Tilal has secured OMR30mn (USD77.9mn) funding from Bank Muscat's Islamic unit Meethaq for the expansion of two projects; OMR25mn for the Muscat Grand Mall Phase II and OMR5mn for the Millennium Executive Apartments project; Total cost of both the projects is OMR50mn (USD130mn)
March 2016 - Construction underway; May 2015 - Tilal has secured OMR30mn (USD77.9mn) funding from Bank Muscat's Islamic unit Meethaq for the expansion of two projects; OMR25mn for the Muscat Grand Mall Phase II and OMR5mn for the Millennium Executive Apartments project; Total cost of both the projects is OMR50mn (USD130mn)
June 2015 - EPC contract for a new 132/33kV Salalah Free Zone-2 grid station awarded
September 2015 - The offshore section envisages building a pipeline for 200km from Kuh-e Mubarak in Iran to Oman's Sohar port, The onshore section of the pipeline in Iran will be built for another 200km from Rudan to Kuh-e Mubarak; Total length - 400km; Total Cost - USD1.5bn
March 2016 - Construction underway; March 2015 - Foundation stone laid for the project
March 2016 - Project completed; Contract value - USD34.5mn (OMR13.3mn)
May 2016 - Construction underway; August 2015 - Construction commenced; July 2015 - Doosan Heavy Industries & Construction secured a USD90mn contract from Haya Water for the phase two expansion of Al Ansab sewage treatment plant (STP); Total Project Capacity - 125,000 m3 per day

April 2016 - Construction underway; July 2015 - Petroleum Development Oman - PDO (Joint Venture) to operate and fully finance the project
and other building
December 2014 - Project Completed
MOTC cancelled the initial masterplan consultancy contract and re-tendered the masterplan, environmental, geographical and cost consultancy contract
2015 - Project will have capacity of 32,000cu m a day; STP will be part of a sewerage collection and treatment system in Muscat Governorate
August 2015 - Global engineering consulting firms to bid for project design; July 2015 - Tender for studies and design of third phase floated; This phase includes three new container berths, new government berths, dedicated cruise terminal, expanded breakwater arms, and a new approach channel
December 2015 - EPC Contract awarded to GS Engineering and Mistui; February 2015 - 19 bidders in JV/consortium prequalified; Project is part of Liwa Plastics Industries Complex, USD6.4bn project
August 2015 - Developer has received bids from 5 firms to build plant; Project is part of Liwa Plastics Industries Complex, USD6.4bn project
February 2016 - Construction contract awarded to Punj Llyod; February 2015 - 19 bidders in JV/consortium prequalified; Project is part of Liwa Plastics Industries Complex, USD3.6bn project
May 2016 - OPWP to sign contract on May 15; January 2016 - OPWP selected Mitsui, ACWA, DIDIC consortium to develop 2 IPPs; Total project cost for 2 IPPs - USD2.3bn; 15 year PPA with OPWP
May 2013 - Phase 1 completed; Project cost - OMR35mn
September 2014 -Phase I completed; Project cost - OMR8.3mn
November 2015 - Final phase of Project completed; May 2015 - Phase I completed
June 2015 - Equipment tender has been launched; January 2015 - Galfar Engineering and Contracting Company won construction contract worth USD553.9mn; Phase 1 will cover the construction of a 600 bed facility comprising a basement level, a ground floor and 6 additional floors
August 2015 - Consolidated value of contract awarded to L&T for 132kV grid stations at Saada and the 220kV/132kV/33kV grid station at Madinat Sultan Qaboos is OMR33.7mn (USD87.4mn)
May 2016 - OPWP to sign contract on May 15; January 2016 - OPWP selected Mitsui, ACWA, DIDIC consortium to develop 2 IPPs; Total project cost for 2 IPPs - USD2.3bn; 15 year PPA with OPWP
this year with the start of commercial production planned around October-November; December 2011 - Construction commenced
August 2016 - 7 firms submit bids for phase 1 of project; October 2015 - Government prequalify firms for liquid terminal
November 2015 - Contract awarded to Unique for Tourism Complex construction
December 2015 - SOHAR Port and Freezone signed deal with be'ah to establish the project
July 2016 - Construction underway; Project includes warehouses, food processing plants, roads, drainage facilities, water, irrigation and power networks; Project cost - OMR20mn (USD51.8mn)
December 2015 - USD63.58mn(OMR24.4mn) EPC contract awarded to L&T
for the project; Project include hotels, residential apartments and houses around the marina will be developed over 4 phases; Project cost - OMR500mn
August 2016 - Galfar Engineering & Contracting secured OMR60.69mn contract, Work includes dredging, reclamation, breakwaters, quay walls and concrete floating pontoons with berthing facilities, navigation aids, together with ancillary works; January 2016 - Tender launched; Project value - OMR100mn
January 2016 - Omran launched tender for the project; It will be situated in the Business Park of Oman Convention and Exhibition Centr
extend 114km from Hafeet in Dhahirah to Ibri, and Section 2B will span 116km from Ibri to Dhahirah SEZ; Total length - 2244km; Total Project Cost - OMR6bn

May 2016 - Sandan Development signed agreement with Towell Construction & Company to construct first integrated light industries park; February 2016 - Sandan Development plans OMR100mn industrial park
September 2016 - Project moves into procurement phase; February 2016 - WorleyParsons won contract for USD70mn project; Facility will have 20000-tonnes-per-annum antimony capacity
March 2016 - Construction to commence soon; Facility will feature 225-bed tertiary-care hospital, 120-key three-star hotel apartments, 300 residential units, fitness centre and retail space
March 2016 - Construction underway, 232-room hotel scheduled to open in 2019; the hotel will feature a 24h business centre, complimentary Wi-Fi, more than 147m ² of meeting space, Hilton's signature 24h Pavilion Pantry for sweet and snacks, as well as other facilities
June 2016 - Petrofac awarded USD900mn Yibal Khuff contract from PDO; March 2016 - Galfar won OMR115mn contract to construct central processing facility
October 2016 - Anantara Al Jabal Al Akhdar Opens in Oman
construction supervision services for the project; Project comprises conversion to a 715-km, four-lane dual carriageway between the towns of Adam and Thumrait

April 2016 - Freezone authority signed 35,000sq m land-lease agreement for USD46mn project, Facility will have capacity to produce 15,000 metric tonnes of high technology copper tubing annually
April 2016 - 8 German companies intend to construct 1GW solar power complex in Duqm; Detailed project proposal expected to be submitted to Omani government within three to four weeks
April 2016 - Al Mouj Muscat awarded construction contract for OMR16mn residential project
April 2016 - Al Mouj Muscat awarded construction contract for OMR15.7mn residential project
May 2016 - Duqm Special Economic Zone Authority signed land agreement with Truck Oman
June 2016 - Government of Oman keen to develop OMR300mn medical city in Barka region
July 2016 - OPWP started study for project; Plant will have capacity of 100,000 cubic metres a day
July 2016 - Construction underway on 5-star hotel, which is scheduled to be opened in 2017
July 2016 - Construction underway on 5-star hotel, which is scheduled to be opened in 2018
August 2016 - Sundus Investment Projects started construction on Sundus Rotana Hotel; The four-star hotel will include 215 guest rooms including suites, ballroom, six meeting rooms, executive lounge, boardroom and business centre
October 2015 - Project to soon start feasibility study; May 2014 - Feasibility study contract awarded; Project to cost in the range of USD519mn to USD649mn
August 2016 - China Commercial And Guangzhou Dongyong to invest OMR84mn (USD217mn) in building four shopping and commercial hubs in Barka, Suwayq, Al Buraimi and Raysut
August 2016 - China Commercial And Guangzhou Dongyong to invest OMR84mn (USD217mn) in building four shopping and commercial hubs in Barka, Suwayq, Al Buraimi and Raysut
August 2016 - China Commercial And Guangzhou Dongyong to invest OMR84mn (USD217mn) in building four shopping and commercial hubs in Barka, Suwayq, Al Buraimi and Raysut
August 2016 - China Commercial And Guangzhou Dongyong to invest OMR84mn (USD217mn) in building four shopping and commercial hubs in Barka, Suwayq, Al Buraimi and Raysut
September
December 2013 - Construction work 30% completed; OMR30mn contract awarded by Iran's MoTC to CCC as contractors and Parsons as consultant
OMR32mn
November 2014 - Construction underway; September 2013 - Tender awarded for project management
November 2013 - MoTC signed agreement with first companies; Project cost - OMR62.8mn
October 2016 - 96% upgradation work completed

August 2016 - Construction underway; Project will comprises of hydrocracker unit (HCU), a hydrogen production unit (HPU), a diesel hydrotreating unit (DHT), a saturated gas plant (SGP), an LPG treatment unit (LTU), a kerosene treatment unit (KTU), a sulphur recovery unit (SRU), and a delayed coking unit
October 2016 - Construction underway; April 2015 - Construction started; Project will supply potable water to the port of Duqm distribution network
August 2016 - 74% construction work completed
wattayah, 25000m3 reservoir in Ruwi and additional reservoirs of capacity 30,000 and 15,000 cubic meters in the Wadi Kabir region; Phase-II comprises 73000cm3 reservoir in Qurum and 146,000cm3 in mountainous region; Project cost - OMR31mn
Ruwi and additional reservoirs of capacity 30,000 and 15,000 cubic meters in the Wadi Kabir region; Total Project cost - OMR31mn
September 2014 - 40% project completed; Phase-II comprises 73000cm3 reservoir in Qurum and 146,000cm3 in mountainous region; Total Project cost - OMR31mn
February 2016 - Project completed; Project cost - OMR24mn
September 2014 - Project reached 56% completion; Project extends 275km and covers 53 villages
September 2016 - Construction underway will be completed by end of 2017
Complex will feature 3 hotels, with total of 750 rooms, 3,000 residential units, as well as water park, boulevard walk, restaurants and cafes, cinema halls and spa; Project to be developed in 3 phases, phase 1 to be completed in 2021; Complex will span 12,82300sqm; Project cost - OMR385mn
May 2016 - Construction work 91% completed; November 2015 - Hill International has secured extension to an existing contract for the expansion, to provide consulting engineering services
May 2016 - Construction underway ;August 2015 - Metso Corp. to supply valve technology for the project; Project will increase the capacity of the refinery by over 70% by adding 82,000 bpd to its existing capacity of 116,000bpd, taking the total capacity to 198,000bpd; June 2014 - Construction commenced
June 2015 - Project completed; Project also comprises 4km runway; Project cost - OMR300mn
December 2013 - The ministry of transport and communications cancelled a tender package for selecting a contractor to construct the terminal building at Ras Al Hadd airport
April 2014 - Project completed and opened; It includes 213 rooms, 16 junior suites, two 1-bedroom suites, two 2-bedroom suits, and one royal suite, and offers a range of dining facilities, a fitness center, swimming pool, business center, ballroom and meeting and conference facilities; Project cost - OMR17mn

September 2016 - Contract have been awarded; August 2016 - An unnamed European firm expected to sign contract by September; June 2016 - Masdar plans to retender EPC contract for project
October 2016 - Jindal to build iron ore pelletising plant in Oman
November 2016 - Construction underway; January 2015 - Contract value RO36.27mn (USD94mn); Scope of work includes a modern passenger terminal for 500,000 passengers per annum, a 37-metre high air traffic control tower, and an air cargo terminal equipped to handle 25,000 tones of cargo per annum
April 2015 - Project inaugurated; Project cost OMR633mn
October 2016 - Construction completed of stage 1; February 2015 - Part of two staged Oman Convention and Exhibition Centre (OCEC) which is slated for completion by early 2016; Total project cost - GBP1bn (USD1.55bn)

February 2015 - Construction underway

December 2014 - 50% of the construction work has completed; Contract value - OMR117mn; Project is part of Bidbid - Sur Road Project; Section 1B Value - OMR117mn; Total Project Value - OMR432mn (USD1.1bn); Total Length - 247 km

March 2015 - Contract signed for supervision and consulting services; August 2014 - Hill International to provide project management services; February 2014 - Construction contract awarded; Project part of Bidbid - Sur Road Project; Total Project Value - OMR432mn (USD1.1bn); Total Length - 247 km

May 2014 - Project completed; Development has increased capacity from 800,000 TEU to 1,500,000 TEU

March 2014 - Construction underway; Project cost OMR29mn

July 2015 - Road opened to traffic; Project involved dualization of 46km of road including construction of a new 13km road

May 2015 - Expansion works and construction of the three bridges are almost 85 per cent complete

currently revising the feasibility study of the project; November 2011 - Work halted in 2009 due to crisis; Tender relaunched in 2011

August 2014 - Hill International to provide project management services; February 2014 - Construction contract awarded to KAS construction; Project is part of Bidbid - Sur Road Project; Section 2B Value - OMR91.3mn; Total Project Value - OMR432mn (USD1.1bn); Total Length - 247 km

July 2015 - 18-km section of package 1 completed; January 2015 - 12 local and foreign construction firms have submitted technical offers for the tenders for packages 7, 8 and 9; December 2014 - Driver group awarded consultancy contract worth OMR4.72mn (USD12.26mn); August 2014 - First six main packages floated previously are under various stages of planning and construction; July 2013 - Larsen & Turbo to build package 4 (50-km)

June 2016 - 12km of Jibreen-Ibri dual carriageway opened to public, construction work 95% completed; March 2015 - 42km section has already been dualized; January 2012 - Loan agreement signed between the Sultanate's government and Kuwait Fund for Arab Economic Development

Company (MPC) will operate the project; August 2015 - EPC contract along with 15-year service agreement awarded; April 2015 - Poyry will provide engineering services for the project; December 2014 - Construction contract awarded; OPWP to purchase the power

and-build contract for section 1, covering 207-km from Sohar Port to Buraimi; February 2015 - The OMR57.47mn (USD149.27mn) Project management consultancy contract awarded to Tecnicas Reunidas for phase 1; Section 2 length - 240km

April 2012 - OUES and Sociedade de Construcoes won contract to build road infrastructure linking the new Muscat International Airport with Muscat Expressway

June 2012 - Winners of the bidding will be announced before end of the year

December 2014 - Al Hassan Engineering celebrated the completion of 3 million safe man-hours at the project site; July 2012 - USD100mn contract awarded to ABB; Project is located at northern part of the PDO concession area with Port of Duqm Co

October 2013 - Construction underway; Joint venture formed for the project development

May 2013 - Contract awarded for additional works for the construction of Yanqul-Fida-Dhank road; August 2012 - Contract awarded for provision of consultancy services for the supervision of the project

July 2014 - Airport becomes operational; This phase included constructing a total of 27 kilometres of access and landside roads, along with some 31,500 sq m of car parking facilities; Contract Value - OMR27.25mn

November 2013 - Project commissioned; The new plant brought the capacity to 49.71mn m3/yr

November 2015 - Construction underway; Qatar Kentz has been awarded engineering, procurement, supply, construction and commissioning of contract by Qatargas; April 2014 - Construction commenced; The facility will enhance Laffan Refinery 1 condensate refining capacity to 300,000 b/d

September 2016 - Construction underway; May 2013 - Contract worth USD686mn (QAR2.5bn) awarded; Project is part of Msheireb Downtown Doha Project, being developed in 5 phases; Phase 3 includes 11 residential, two offices and hotel; Total Project Value - QAR20bn (USD5500mn)

November 2016 - Construction underway on Phase-II; January 2015 - Phase-II launched; December 2014 - Phase-I completed; Project to be carried out in 3 phases; Total Project Value - QAR1bn

September 2016 - Construction underway; Project includes construction of 658 one-bedroom apartments and 507 two-bedroom apartments, park and community club; January 2012 - USD130mn construction contract awarded to Sinohydro reinforced concrete reservoirs whereas the Umm Qarn Water Station included the construction of three 7MIG reinforced concrete reservoirs

February 2016 - Phase-II is nearing completion, which includes construction of a Thermal Drying Plant (TDP) that processes sludge for safe disposal; December 2014 - Treatment plant under Phase-I (QAR3.63bn/USD996mn) completed; Project has been implemented in 2 phases and designed to treat up to 245,000 m3 of sewage per day; Project cost - QAR3.63bn

November 2016 - Umm Salal Mohammed Interchange opened for traffic as part of the project; Project encompasses the construction of service roads along the North Road of Doha city and construction of two new interchanges in Izghawa and Umm Salal Mohammed areas, in addition to improvements to three existing interchanges, including Al Kaaban Interchange; Project expected to be completed by Q4 2016; Project cost - QAR2.16bn

June 2016 - Expansion to begin by year end; September 2015 - Plans unveiled for proposed expansion of main terminal; April 2014 - Phase I completed; Project to be completed in 2 phases, Phase 1 to have capacity of 30 mn passenger per year while Phase 2 will increase capacity to 50 mn passenger per year

March 2014 - Planning underway; January 2011 - Length has been changed from 40km to 65km; September 2009 - Project Announced; Total cost USD13bn ;Total length 65km

August 2016 - Phase-1 is on track for completion in 2016; March 2015 - Construction contract worth USD879mn awarded to China Harbour for Phase-1; October 2011 - Construction commenced; The port is located between the municipalities of Al Wakrah and Mesaieed; Project to be carried out in 3 phases; Total Project Value - QAR27bn

June 2016 - L&T and Al Balagh Trading & Contracting awarded USD135mn construction contract; April 2015 - Qatar's Supreme Committee for Delivery and Legacy has released design of fifth proposed venue; Capacity - 40,000 seats commenced; September 2014 - Mercury MENA bags MEP contract for Package 2 of Phase 2; Project to be built in two phases

October 2016 - Work starts on underground stations; March 2016 - 11.8 km tunnelling work has completed; Project is Underground section North Section of Red Line (55.7 km) of Phase 1 of Doha Metro Line; Phase 1 Length - 194.5 km; Total Length - 300 km; Total Project Value - USD36bn

2015 - Qrail announced the successful breakthrough of one of its Doha Metro tunnel boring machines (TBM) at Msheireb station; Msheireb Station would be interchange station of three lines (Red, green and Gold Line); Doha Metro Project Value - USD36bn

government's recently released priority list for the next seven years; Project consists of three bridges connected by multi-lane subsea tunnels, linking Doha's new Hamad International airport with the city's cultural district of Katara in the north and the central business area of West Bay

was completed in 2003; Phase II: 1020MW power and 60mn gallons of water per day was completed in 2009; Phase III is in planning stage

March 2014 - MEP contract worth USD63.2mn awarded to ETA Star for Ras Laffan facility

November 2016 - Construction underway for a major interchange, as part of the project; July 2015 - Work on seven new bridges is in the final phase of completion, about 77% of the pillars are ready; April 2015 - The project is expected to be completed in the first quarter of 2018; September 2014 - Construction commenced; Project cost - QAR2.18bn

March 2014 - Tenders launched

June 2015 - Construction underway; March 2014 - QAR6.15bn (USD1.7bn) contract awarded for project design and construction; Work on this section started in Q2 2014; Project is part of 200-km Orbital Highway stretching from Mesaieed in the South to West of Al Khor in the North

May 2012 - Project completed; Project offers 200,000sq m of green spaces, 128 residential buildings for tenants and investors and 6000 residential units built according to international standards; Total Project Value - QAR7.3bn

April 2014 - Qatar Railways Company (Qatar Rail) and Qatar Mobility Innovations Centre (QMIC) have inked an agreement

April 2016 - Construction underway; March 2014 - Contract worth USD1.16bn awarded for project design and construction; Work on this section started in Q2 2014; Project is part of 200-km Orbital Highway stretching from Mesaieed in the South to West of Al Khor in the North

has started; June 2014- Work on the 1st Phase commenced in May 2014 and is expected to be completed by Q314; December 2014 - Phase-IV completed; Project is being developed in four phases and is expected to complete by mid 2015

March 2016 - Construction underway; Project comprise of 11 km new dual carriageway and slated to stretch from west of Barwa City to south of Air Force Roundabout on Al Matar Street; Project cost: QAR4bn

February 2016 - Project is in works and expected to complete by 2022; May 2014 - Prequalification bids have been invited to provide project construction management services

in Q2 2014; Project is part of 200-km Orbital Highway stretching from Mesaieed in the South to West of Al Khor in the North

November 2014 - Construction underway; May 2014 - Construction commenced; Residential apartment will have 445 rooms; Construction to be completed by mid-2017

March 2017 - ACTS awarded contract to carry out geotechnical and construction materials testing; April 2016 - Construction underway, due for completion in fourth quarter of 2018; March 2016 - Al Khaliji extended contract financing for project; May 2014 - Construction commenced; 40,000 seater stadium will be surrounded by 560,000 sq metres precinct

May 2016 - Construction underway and scheduled for completion by Q1 of 2017; August 2015 - Main Tunnel Excavation Works has completed; May 2014 - Construction commenced

July 2015 - Project under planning stage; May 2014 - EPC contract worth EUR80mn (USD100mn) awarded to Prysmian Group; Stage 2 includes commissioning of total 20 substations, 82.1km (main and framework) cables will be laid and 54.5km of OHLs will be dismantled; Project is part of Phase 11 of power transmission expansion project

April 2016 - Doha Festival City Mall faces four month delay, opening by February 2017; September 2015 - Hamad and Mohamad Al-Futtaim and Voltas Qatar secured MEP contract worth QAR500mn (USD137mn); Mall will comprise outlets of 550 international and local brands, including 85 restaurants and cafes, along with 8000 parking spaces

September 2016 - Qatar Cool to commission plant in 2017; May 2015 - Construction commenced for Phase II; May 2014 - Construction contract signed; Capacity - 40,000 tons of refrigeration

October 2016 - Mall scheduled to open in December 2016; October 2013 - Construction commenced; Total build area - 388,000 sq metres; Project Value - QAR5.4bn

<p>construction of approximately 15 km dual carriageway with four lanes in each direction and construction of three multi-level interchanges; Highway stretched from west of Doha to Al Sheehaniya and other key public venues; Project cost - QAR1.4bn</p>
<p>of project; September 2015 - Enabling works at project have been completed; Project will feature two five-star hotels, up to 400 different retail outlets, serviced apartments and central entertainment component; March 2014 - Construction commenced</p>
<p>May 2016 - Construction reached advanced stage of completion; June 2014 - Hilton worldwide unveiled its plan to develop the project; Resort will be 362-room resort; There will be 246 deluxe rooms in main hotel building at the resort, including 35 suites; Resort will span over 104-hectares (257 acres)</p>
<p>April 2016 - Construction completed; June 2014 - Contract awarded to Kentz Engineering and Construction Group; Kentz to be responsible for engineering, procurement, installation, construction, and commissioning (EPICC) services to deliver wastewater recycling and reduction facilities to four LNG trains</p>
<p>responsible for supply, installation, testing and commissioning of 120 km of 1,600 mm diameter ductile iron pipes and fittings</p>
<p>May 2016 - Qatar Railways awarded QAR151.6mn project management consultancy contract; April 2015 - Qatar Rail completed all tunneling works; March 2015 - Thales awarded equipment contract; LRT to have 4 lines, Yellow Line, to be completed in 2018, Red Line, Purple Line and Green Line, to be completed in 2020; QDVC awarded contract worth EUR2bn (USD2.72bn) to design and build the line</p>
<p>July 2015 - Construction underway; 20km of pipelines and 500 sewer access manholes to be replaced</p>
<p>August 2016 - Construction underway and expected to complete by Q1 2017; Project comprises of 2.9km stretch from New Rayyan roundabout to the east of Bani Hajer roundabout</p>
<p>May 2016 - Construction underway and scheduled for completion by 2017; Received financing from Al Khaliji and Commercial Bank; Project stretches from Sports roundabout to the west of New Rayyan roundabout</p>
<p>March 2016 - Outpatient clinic is set for opening as part of the project; July 2014 - Contract with OHL International and Contrack International terminated; Capacity to be expandable to 550 in a later phase</p>
<p>Barcelona to manage and operate the centre; Centre to host its first event in November 2015; Doha Convention Centre and Tower combined cost - USD1.2bn</p>
<p>July 2016 - Construction underway; Stadium after renovation is expected to bear 40,000 visitors; November 2014 - Government of Qatar has released designs</p>
<p>August 2016 - Phase-1 is on track for completion in 2016; March 2015 - Construction contract worth USD879mn awarded to China Harbour; Project is part of New Doha Port project worth QAR27bn (USD7.5bn); Total Capacity - 6 mn TEU</p>
<p>November 2015 - Section from Al Wakrah Road to beyond Najma Road opened last December, while the western stretch around Industrial Area Road took a few more months; Project involved construction of four lanes in each direction, in addition to a two-lane service road on both sides of the main road; It also includes pedestrian, cycle paths and construction of two signal-controlled two-level interchanges with Najma and Airport Streets</p>
<p>September 2014 - Mall opened</p>
<p>outside of Doha</p>
<p>February 2016 - Phase-II is nearing completion, which includes construction of a Thermal Drying Plant (TDP) that processes sludge for safe disposal; Contract value - QAR1.78bn (USD489mn)</p>
<p>245,000 cubic metres of sewage per day, PS70 pumping station and sewerage lines; Project also includes a pipeline (43-km) and sewage pumping station for treated sewer effluent (TSE 3) worth QAR1.3bn (USD352mn); Contract worth QAR3.6bn (USD1.5bn) was awarded in September 2007</p>

March 2015 - Construction underway, project had lengthy delays over the past few years; Project involves three complexes - Piazza 1, 2 and 3

November 2016 - Construction underway; Work to be carried out in four sections; Construction of all the sections started in 2014; Project involves construction of around 200 km of new dual carriageway and 22 multi-level interchanges

September 2014 - Contract worth (USD30mn) AED110mn awarded; Capacity - 14,250 tons of refrigeration (TR)

contract awarded for Green Line; May 2016 - Tunneling work completed on Gold Line; Phase 1 includes 3 lines, Green Line (Education Line) 65.3 km long, Gold Line (Historic Line) 30.6 km long and Red Line (Coast Line) 98.5 km long; Total Length - 300 km; Total Project Value - USD36bn

August 2016 - Qatar National Cement Company signed USD100mn funding deal with Samba Financial Group, Plant expected to become operational within the next 27 months; July 2015 - Construction underway; April 2014 - Qatar National Cement Company awarded turnkey contract to Fives FCB; Project will be carried out in three stages; Capacity - 5000 tons/day (1,825,000 tons/year) of clinker and 5500 tons/day (2,007,500 tons/year) of cement

February 2016 - New timeline to be decided; Project study is underway and will complete by year end and then the discussion between the GCC countries will follow to execute the plan; August 2015 - Tender launched to appoint project manager for Phase 1 for Qatar's section; Railway network will connect Kuwait, through Saudi Arabia, to the UAE and Oman, with branches linking Bahrain and Qatar; Total Length - 2117 km; Total Project Value - USD20bn

June 2016 - Expansion to begin by year end; September 2015 - Plans unveiled for proposed expansion; Project is part of Hamad International Airport Project (USD16bn); Total Capacity - 50 mn passenger per year

August 2016 - Project completed, authorities have started renting process; September 2014 - Mercury MENA bags MEP contract for Package 2 of Phase 2; January 2012 - Construction commenced; Phase 2 includes three packages; Project is part of Barwa Al-Baraha, being developed in two phases; Total Project Value - USD1.1bn

Contractor to be chosen by Q215; Project consists of five connected buildings and has 1500 parking capacity; Project cost - QAR500mn

October 2014 - Construction contract awarded for QAR208mn project

floor; October 2014 - Construction contract worth QAR253mn (USD70mn) awarded to United Construction Company for Al Waab and Al Jamiaa healthcare centres

floor; October 2014 - Construction contract worth QAR253mn (USD70mn) awarded to United Construction Company for Al Waab and Al Jamiaa healthcare centres

May 2016 - Project plans to increase capacity of Al Khor to 500 beds by 2030; The new hospital will consist of various facilities including an emergency unit, out-patient departments and several operation theatres

May 2015 - Construction underway; October 2014 - Construction contract worth QAR289.5mn (USD80mn) to International Trading and Contracting for Muaither and Al Wajba healthcare centres

May 2015 - Construction underway; October 2014 - Construction contract worth QAR289.5mn (USD80mn) to International Trading and Contracting for Muaither and Al Wajba healthcare centres

December 2014 - Construction contract awarded; The facility will have the capacity to treat up to 56,000 tonnes of wastewater per day by 2018

supervise the construction works of the new extension; December 2014 - Suez Environment's subsidiary Degremont and Marubeni Corporation secured a USD221.6mn contract; Project to increase plant's capacity from 174.5 thousand m3 to 280 thousand cubic m3/day

August 2016 - Tender documents for design of phase-II has been released following a pre-qualification process that started in May; Project is part of New Doha Port project worth QAR27bn (USD7.5bn); Total Capacity - 6 mn TEU

September 2016 - Tunnelling work completed for phase 1; Project to be carried out in 2 phases; Phase 1 includes 3 lines, Green Line (Education Line) 65.3 km long, Gold Line (Historic Line) 30.6 km long and Red Line (Coast Line) 98.5 km long

July 2016 - Project to be completed by 2018; January 2015 - Tender launched for substructure and basement works; Project Value - QR2.2bn

September 2016 - Construction underway; January 2015 - Barwa Real Estate signed consultancy and design services agreement with Arab Engineering Bureau

March 2014 - Phase I (Nour Al Waab villas) completed, next phase to be delivered by first quarter of 2015; Project is a mixed-use development that will contain residential, retail and commercial facilities plus a hotel

November 2014 - Project won 2014 Grand Platinum award from Security Technology Magazine; October 2013 - Construction underway; September 2009 - Construction started; Project (formerly known as Barwa Financial District) is a nine tower office development which would include a five-star business hotel, restaurants, conference centre, mosque and other amenities; Gross Floor Area - 696,000 sq m

Cost - QAR15bn

March 2014 - Project completion due by first quarter 2015; Project is part of Al Waab City Project, to be developed in five phases; Total Project Cost - USD3.2bn

May 2013 - Project completed; It includes seven storey commercial building; Construction value - USD86.84mn

May 2015 - Construction underway and scheduled for completion by Q1 of 2017; Project Cost - QAR547mn

May 2015 - Construction underway, expected to complete in Q116; Project will provide a main sewer line to serve infrastructure projects in the West Muaither area; Project Cost -QAR117mn

August 2016 - Construction underway; Project Cost - QAR1.4bn

November 2016 - Construction Underway; The existing Al Istiqlal Road stretching from south of the Al Wahda (Arch) roundabout to north of the North Channel Crossing and Onaiza Street will be upgraded as part of the project; Expected completion by Q2 2017

March 2016 - Construction underway; April 2014 - Construction commenced; Part of the 22km East West Corridor Package worth USD1.07bn (QAR2bn)

March 2016 - Construction underway; April 2014 - Construction commenced; Part of the 22km East West Corridor Package worth USD1.07bn (QAR2bn)

August 2016 - Construction underway; Expected completion by 2018; Work includes construction of approximately 6.5 km of dual carriageway road as the mainline of Dukhan Road East and 3.2km of Al Gharrafa Road; Project cost QAR3.7 bn

September 2014 - Stonetech undertook the supply of marbles for Naufar healthcare and rehabilitation center in cooperation with the contractor company J&P overseas; Project cost - QAR700mn

May 2016 - Construction completed; May 2013 - Construction commenced

2016 - Construction underway; Expected completion by Q2 2020; Total Project Cost for Temporary Package Treatment Plants in Al Karaana and Umm Birka - QAR294.88mn

September 2016 - Project completed; Total Project Cost for Temporary Package Treatment Plants in Al Karaana and Umm Birka - QAR294.88mn
September 2015 - Project completed
September 2015 - Project completed
of drainage network in Ain Khaled and Mesaimeer covering 9100 house connections; Total cost of the project is QAR673mn
of drainage network in Ain Khaled and Mesaimeer covering 9100 house connections; Total cost of the project is QAR673mn
August 2015 - Project is part of 250km Mesaimeer and Ain Khalid Sewage Project; Includes design and the construction of drainage network in Ain Khaled and Mesaimeer covering 9100 house connections; Total cost of the project is QAR673mn
June 2016 - Project completed earlier this year; November 2014 - 84% work completed; Expected to complete in Q315; L&T secured the contract worth QAR691.2mn (USD189.61mn) in 2010
approximately 2150 house connections including 25km of 150mm pipeline lateral connection; Project cost - QAR247.95mn
July 2015 - Construction underway; Construction Contract Value - EUR93mn (USD130mn)
March 2015 - Construction completed in a span of three years; Hotel is 186-room, 75m-high building and includes two restaurants, spa, gym and banquet area to serve up to 90 people
March 2015 - Construction commenced; First phase will be ready by Q2 2016; Project is spread over 33.52 square kilometer; Project to be carried out in phases
2016
March 2015 - Design contract awarded to Khatib & Alami for 26 storey building
March 2015 - Lusail Real Estate Development Company awards USD1.7bn construction contracts which includes the Lusail Plaza; Total Project Value - QAR4.12bn; Construction is part of USD1.7bn worth of contract works which mainly include Lusail Plaza, development of Commercial Street and a unique Crescent-shaped Street
March 2015 - Lusail Real Estate Development Company awards construction contract worth QAR1.21bn (USD332mn) to JV of WCT and Al Ahli; Construction is part of USD1.7bn worth of contract works which mainly include Lusail Plaza, development of Commercial Street and a unique Crescent-shaped Street
part of USD1.7bn worth of contract works which mainly include Lusail Plaza, development of Commercial Street and a unique Crescent-shaped Street
March 2013 - Project is still at concept stage, with first phase of construction expected to be launched in 2014
August 2015 - Construction underway, expected to be operational during first quarter of 2016
March 2016 - Construction underway on Red Line South section; October 2015 - 11.3 km tunnelling work has completed on Red Line North (Underground) section; Red line is being built in two section, Red Line North (55.7 km) and Red Line South (42.8 km); Phase 1 Length - 194.5 km; Total Length - 300 km; Total Project Value - USD36bn
May 2014 - Construction underway
lanes (three to four in each direction) stretching from Al Muntazah Street to Airport Road (Al Matar Street) and the airport to the south of Doha
May 2015 - Construction contract awarded for AED220mn project; Project expected to start soon and complete by November 2015

May 2015 - Contracts worth QAR3.2bn signed for design and construction of project, which involves construction of 45km-long gravity-fed interceptor sewer; Interceptor is divided in north, south and central lots; The north and south lots together will be 30km long and central section will be of 14.7km

April 2015 - Construction underway; Project is being built for Qatar Foundation for Education, Science and Community Development

desalination projects - 164,000 cu m/ day Ras Abu Fontas 3 reverse osmosis desalination plant and the 284,000 cu m/day Facility-D (QE23) desalination plant

March 2016 - Foundation stone laid; January 2016 - FC achieved; September 2015 - Siemens has won a turbine supply order; Phase one commissioning is expected in 2017; July 2015 - Samsung C&T Corp won a USD1.8bn contract; Plant will provide 136.5 mn gallons of desalinated water per day

March 2015 - Project completed

June 2015 - Qatar's Public Works Authority (Ashghal) has invited bids from leading contractors for the project; Construction expected to begin from March 2016

January 2015 - Civil works underway; Project is expected to be completed by August 2015; June 2014 - Design and build contract awarded to Strabag worth EUR26mn (USD28mn)

July 2015 - Project launched, project will involve construction and improvement of internal roads and provision of pedestrian pathways and cycle paths; Completion expected by 2016-end; Project Value - QAR537mn

January 2014 - Project management services contract awarded to Aurecon

July 2015 - Ashghal awarded USD337mn (EUR300mn) contract to Salini-led consortium for the implementation of Package 01; Works cover 25% of project's 1,043 hectares area and are due to be completed within 30 months

March 2016 - Construction underway; July 2015 - Salini Impregilo, Galfar Al Misnad and the Italian firm Comical JV won construction, operation and maintenance contract; August 2015 - Ground broken for the project; Capacity - 60000 spectators; Project cost - EUR770mn

August 2016 - SEZ is expected to open in the fourth quarter of 2017; Land acquisition applications expected by 2016-end; July 2015 - Sacyr-led consortium awarded USD466mn design-build contract; November 2014 - Construction commenced; Project includes developing 4.01 square km warehousing and logistics hub next to Hamad International Airport

July 2015 - Ashghal opened the road linking Hamad Port and the Temporary Truck Route

July 2015 - Construction commences on the 2.85 hectares and 1.7 hectares distribution centers

July 2015 - Siemens won the contract; Project to be developed as part of Phase II of Qatar power transmission system expansion project

July 2015 - Siemens won the contract; Project to be developed as part of Phase II of Qatar power transmission system expansion project

July 2015 - Siemens won the contract; Project to be developed as part of Phase II of Qatar power transmission system expansion project

September 2015 - Construction contract worth QAR856mn (USD235mn) awarded to Galfar Al Misnad Engineering and Contracting, Phase I currently under development; August 2015 - QAR1.8bn (USD494.4mn) deal signed between Logistics Committee at the Ministry of Economy and Commerce and Manateq to finance the logistics zone at Wakrah

January 2016 - Construction completed; October 2010 - QDVC, subsidiary of Qatari Diar and VINCI was awarded EUR264mn (USD288mn) contract; Project includes building a public park, two-storey underground car park accommodating around 2,000 vehicles and service warehouse and control tower for Doha Metro

section of South Section of Red Line of Phase 1 (194.5 km) of Doha Metro Line; Total Length - 300 km; Total Project Value - USD36bn

December 2014 - Project completed; Project is part of Al Ruwais Port Expansion Project; Total Project Value - QAR1bn (USD257mn)

November 2016 - Construction underway; January 2015 - Phase-II launched; Project is part of Al Ruwais Port Expansion Project; Total Project Value - QAR1bn (USD257mn)

March 2016 - 11.8 km tunnelling work has completed on Red Line North section; Project is North Section of Red Line of Phase 1 of Doha Metro Line; North Section is being constructed in two section, Underground (13.4 km) and Elevated and At Grade (42.3 km); Phase 1 Length - 194.5 km; Total Length - 300 km; Total Project Value - USD36bn

June 2015 - Construction underway; Red Line North EAG section will run from a connection with Lusail's light-rail line to Msheireb via West Bay with an overall length of 6.7km; North Section Length - 55.7 km; Phase 1 Length - 194.5 km; Total Length - 300 km; Total Project Value - USD36bn

Project is part of Phase 11 of power transmission expansion project; Project includes total 32 substations comprising 26 main substations and six Framework substations, total 948.6 KM (main and framework) cables and 43KM of OHLs (overhead lines) will be dismantled

August 2016 - Project is at planning stage; Project is part of New Doha Port project worth QAR27bn (USD7.5bn); Total Capacity - 6 mn TEU

September 2016 - Construction underway; Project is part of Msheireb Downtown Doha Project, being developed in 5 phases; Total Project Value - QAR20bn (USD5500mn)

September 2016 - Construction underway; Project is part of Msheireb Downtown Doha Project, being developed in 5 phases; Phase 1A includes development of Diwan Amiri Quarter and Heritage Quarter Total Project Value - QAR20bn (USD5500mn)

contract; The unit will treat 54,000 barrels per stream day (BPSD) of diesel, from high-sulfur into ultra low-sulfur diesel fuel, at the Laffan Refinery

December 2015 - Project completed; Second production line will double the clinker capacity to 12,000tpd and enhance cement production by more than 50% to 15,500 tpd

July 2016 - Tender launched for a package of Foul Sewer Network; May 2015 - Contract has been awarded for main trunk sewer of more than 45km in length; Total project cost - QAR10bn

November 2015 - Project completed; Capacity - 70,000 people; Project includes commercial centre, market with 200 shops, cricket ground, theatre capable of accommodating 17,000 people and four modern cinema halls

QAR300mn

December 2015 - Project involves building seven accommodation complexes for 179,000 workers; Contract awarded for Phase I; Phase I involves housing complex in Umm Salal Mohammad for 24,000 workers, Phase II at Barkat Al Awamer and Phase III at Umm Ghuwailina, Al Wakrah and Al Shamal; Project cost - QAR1.6bn (USD439mn)

December 2015 - Contract awarded on BOT basis for 15 years; Project involves building housing complex for 24000 workers in Umm Salal region; Part of USD439mn (QAR1.6bn) labour accommodation project

December 2015 - Project involves building housing complex in Barkat Al Awamer region; Part of USD439mn (QAR1.6bn) labour accommodation project

December 2015 - Project involves building housing complex in Umm Ghuwailina, Al Wakrah and Al Shamal regions; Part of USD439mn (QAR1.6bn) labour accommodation project

October 2016 - Construction underway; May 2016 - 60% work completed; Development will have 8,679 apartments, two schools, two hypermarkets, five sports clubs and eight mosques; Project cost - QAR4.5bn

beyond 2020

August 2016 - Quality Group International signed contract with Global Real Estate Company to open new mall in Al Wakrah; Work expected to be completed by mid-2017

August 2016 - Private Engineering Office (PEO) plans to construct three new hospitals in Industrial Area, Mesaieed Industrial City and Ras Laffan Industrial City

August 2016 - Private Engineering Office (PEO) plans to construct three new hospitals in Industrial Area, Mesaieed Industrial City and Ras Laffan Industrial City
August 2016 - Private Engineering Office (PEO) plans to construct three new hospitals in Industrial Area, Mesaieed Industrial City and Ras Laffan Industrial City
August 2016 - Construction contract worth QAR7.6bn awarded; Project will consist of five lanes in each direction and is to be completed in 30 months
August 2016 - Saudi Arabia proposed to build 25km long bridge between Al Ahsa and Qatar
September 2016 - Talks are ongoing for Phase 4; Development of Phase 4 depends upon Metro Progress; Project is part of Msheireb Downtown Doha Project, being developed in 5 phases; Total Project Value - QAR20bn (USD5500mn)
September 2016 - Qatar's Supreme Committee for Delivery & Legacy appointed joint venture led by Joannou & Paraskevaides (J&P) as main contractor; Facility will be able to accommodate 40,000 spectators
September 2016 - The project involves the extension of the expressway connecting the southern part of Doha by 4.5 km as well as adding 4-km-long roads with 8 to 14 lanes and three multi-level intersection
November 2014 - Project has completed; Project cost - QAR138.9mn
store building, an administration building, a garage and its building, in addition to other site development works; Project cost - QAR121.9mn
February 2016 - Park officially opened for public; Project includes an animal farm, a bird's aviary, an exhibition area, a museum, a children's playground, a toy-train rail, restaurants, and mini golf and skating areas; Project cost - QAR250mn
May 2016 - Contractors have been invited to bid on the project; Project cost - QAR2.8bn; Stadium capacity - 80,000 seats
August 2016 - Project completion may delay as animals have to be relocated to start demolition work; March 2014 - Site preparation work commenced with award of contract worth USD32mn
November 2016 - Project inaugurated
May 2016 - Project inaugurated; Center includes a bandaging and minor surgery room, and acute cases section that includes 12 beds
January 2016 - Project inaugurated
Care Center (64 beds for patients and 52 beds in the recovery ward), the Qatar Rehabilitation Institute (200 beds) and the Women's Wellness and Research Center (190 beds for women in addition to 53 beds in the intensive care unit for children); Project cost - QAR2.4bn
May 2015 - Project expected to complete by this year; October 2014 - Design and construction supervision contract awarded; Project area - 15,000 sqm
November 2016 - Project is at planning stage and includes expanding and deepening the basins
in each direction to replace the unpaved temporary in the area located in front and behind the Logistics Village; Project cost - QAR210mn
December 2014 - Road opened for traffic; Project also comprises a six-lane divided carriageway, with three lanes in each direction, in addition to a two-lane service road network with a total length of 6 km; Project cost - QAR226mn
November 2014 - Project completed; Project includes increasing the number of lanes from one to four in each direction, the establishment of four new intersections; Project cost - QAR334mn
December 2014 - Route opened for traffic; Project will provide a truck route that connects Lusail to Al Shamal highway and to Duhail highway; Project cost - QAR204.6mn
2014 - Project completed; Project cost - QAR812mn
2014 - Project completed; Project serves 2157 residential plots through a roads network, which includes installing new traffic signals, street lighting and landscaping works; Project cost - QAR429mn
converted - Museum of Islamic Art, Diwan, the National Theatre, Wadi Al Sail, Qatar Post, Onaizah, Lejbailat and Oryx, in addition to the Grand Hamad Street junction

June 2016 - Three bi-directional back roads opened as part of the project; Project comprises, dual carriageway along Bu Hamour/Al Muntazah Street, from the East Industrial Road Intersection to Woqod Intersection; Project cost - QAR2.771bn
September 2016 - Al Sheehaniya-Leatooriya road (13-km) opened for traffic as part of the project; Project expected to complete by early 2017; Project cost - QAR788mn
October 2016 - Phase-I and Phase-II completed; Project comprise of 5 phases connects the southern side of Rawdat Rashid Village; Project cost - QAR182mn; Project is part of 33-km long Rawdat Rashed Road Development Project
October 2016 - Phase-I completed; Phase two starts from the end of phase one towards the north, bypassing Rawdat Rashed Village; Project also comprise construction of eight intersections; Project cost - QAR208mn; Project is part of 33-km long Rawdat Rashed Road Development Project
intersection between Lebsayyer Road and Dukhan Highway; Project is part of 33-km long Rawdat Rashed Road Development Project
October 2016 - Project include improving the connection between Rawdat Rashed Road and the existing bridges on Salwa and Dukhan Highways; Project is part of 33-km long Rawdat Rashed Road Development Project
Jemailiya road passing by Al Otouriya with two lanes in each direction, as well as the construction of four main interchanges
2015 - Project completed; Project comprise of 3 phases; Project includes design and the construction of drainage network in Ain Khaled and Mesaimeer with a total length of 240 km and with a 9100 house connections; Project cost - QAR673mn
October 2016 - Project include improving the connection between Rawdat Rashed Road and the existing bridges on Salwa and Dukhan Highways; Project is part of 33-km long Rawdat Rashed Road Development Project
April 2014 - Project completed; Project is part of Hamad International Airport Project (USD16bn); Total Capacity - 50 mn passenger per year
2013 - Project completed; June 2010 - Construction started
December 2013 - Construction has resumed after much delay, building will be completed by end of 2015; January 2012 - Construction has been suspended as the building would impact flight paths; Construction is expected to continue once the New Doha International Airport is completed; September 2010 - USD675mn contract awarded to Six Construct Qatar; Doha Convention Centre and Tower combines cost - USD1.2bn
March 2016 - Engineering studies will be completed soon and project will be launched shortly afterwards; Construction to be finished within 33 months
September 2016 - Construction underway; Project is being carried out in 5 phases, Phase 1A, Phase 1B/1C, Phase 2, Phase 3 and Phase 4; Project involves 100 commercial buildings and 900 residential units; Development of Phase 4 depends upon Metro Progress; Total Project Value - QAR20bn
August 2016 - Project is getting its finishing touch; September 2013 - Construction underway; Hill International Selected as Construction Manager; September 2011 - Hyundai Engineering & Construction awarded construction contract
April 2016 - Construction underway, Doha Festival City launch to be delayed by 4 months; April 2013 - Construction commenced on Phase 2; March 2013 - Phase 1 completed; March 2011 - Ground broken
April 2016 - Project is on track; Work on this section started in Q1 2014; Project is part of 200-km Orbital Highway stretching from Mesaieed in the South to West of Al Khor in the North

March 2014 - Construction underway; Phase 1 comprises of a podium comprising two levels of car park, three-level mall and six, five-level office buildings
for QAR2.48bn (USD681.74mn), bringing all of Lusail Golf Course project under barwa's control; May 2012 - Project launched; 31% of the area will be dedicated for residential development (4000 units) while 69% of the area will be dedicated for sports facilities and green areas
April 2016 - Construction underway, Doha Festival City launch to be delayed by 4 months; April 2013 - Construction commenced on Phase 2; Project is part of USD1650mn Doha Festival City project spanning over 434000 square meters
October 2016 - Work starts on underground stations; August 2016 - Hill International and ASTAD Engineering won USD43mn project management services contract; March 2016 - Qatar Rail completed tunnelling works; June 2013 - Construction commenced; Project is being built under Phase 1 (194.5 km) of Doha Metro Line Project; Cost of Green Line - EUR200mn; Total Length - 300 km; Total Project Value - USD36bn
October 2016 - Work starts on underground stations; May 2016 - Tunneling work completed on Gold Line; June 2015 - Arcadis has won contract to provide architectural, branding, design and construction consultancy services for 10 of the 13 Gold Line stations; December 2014 - Three banks fund Doha Metro Gold Line; Project is being built under Phase 1 (194.5 km) of Doha Metro Line Project; Total Length - 300 km; Total Project Value - USD36bn
October 2016 - Work starts on underground stations; March 2016 - Construction underway; February 2015 - Louis Berger Egis won consultancy contract; Project is South Section of Red Line of Phase 1 of Doha Metro Line; Phase 1 Length - 194.5 km; Total Length - 300 km; Total Project Value - USD36bn
September 2016 - Construction underway; September 2012 - Construction commenced; Project is part of Msheireb Downtown Doha Project, being developed in 5 phases; Total Project Value - QAR20bn (USD5500mn)
Project is part of Msheireb Downtown Doha Project, being developed in 5 phases; Total Project Value - QAR20bn (USD5500mn)
November 2015 - Project inaugurated; The water will be supplied to the country's national power and water grid operator Qatar General Electricity & Water Corporation (Kahramaa) for 25 years; January 2014 - Financing deal worth USD450mn signed with a consortium of four banks; Project Value - QAR1.83bn
April 2013 - The Saudi Electricity Company (SEC) has signed contracts worth SAR1.376 (USD365mn) for the construction of 2 transmission plant in Al-Kharj and Salboukh and 5 five gas-powered generating units
November 2015 - Construction underway
May 2016 - Opening of facility is now less than 6 months away; September 2014 - Drake & Scull Saudi Arabia won an AED189mn MEP contract; Completion expected by 2016; Total construction area - 103000 square metres
August 2015 - Construction underway for Phase 2 and Phase 3; March 2015 - Construction completed for Phase 1; Project is developed in phases; Total Project Value - SAR2.2bn
July 2013 - Project completed; The pipeline starts at the East-West Aramco pipeline near Al-Dawedmi and runs 240 km to Al-Qassim, running through valleys, sand dunes, and rough terrain
May 2015 - Tunnel boring work commenced; Tunneling work to complete by 2016; Total Cost - USD23bn, Total Length - 180km

October 2016 - Saudi Electricity has inked a SAR 1.5 bn (USD420 mn) syndicated loan agreement with Credit Agricole and Banco Santander to fund part of the capital costs of construction; May 2016 - Saudi Electricity Company signed USD900mn loan agreement to help finance plant's construction; March 2014 - General Electric to provide variable speed drivers under a power deal with Hyundai Heavy Industries

March 2016 - Construction underway, completion in late-2018; May 2015 - Tunnel boring work commenced; Total Cost - USD23bn, Total Length - 180km

May 2016 - Construction underway; Line to open in end-2018 or early-2019; May 2015 - Tunnel boring work commenced; USD7.9bn construction contract awarded to FAST consortium in July 2013 to construct and design Orange, Yellow and Purple Lines; Total Cost - USD23bn, Total Length - 180km

Project includes construction of drinking water pipelines, industrial water networks, sewage networks, rainwater drainage networks and road works

August 2013 - Expansion project is underway; Project includes establishment of four medical colleges, college for business administration, number of support projects and an electrical conversion station; Project cost - SAR3bn

Arabian desalination plant is being built in three phases. Phase 1 will be built in 18 months and will have a production capacity of 2,000m³ per hour ;Phases 2 and 3, with a production capacity of 4,000m³ per hour each, will be built in a time span of 22 months each

September 2015 - Construction underway; Project is part of Makkah Strategic Water Storage Project; Phase 1 Value - SAR170mn; Total Project Value - SAR1.5bn (USD400mn)

October 2016 - Construction underway; October 2014 - Yokogawa Electric has won an order from Samsung C&T to deliver control systems for the plant; June 2014 - BHI awarded equipment contract; March 2014 - Construction commenced; 20 year PPA with SEC

May 2012 - Project worth SAR3bn will produce ethylene propylene diene monomer, rubber and black carbon

April 2015 - Plant started commercial operations; October 2011 - Construction commenced; Project cost SAR3000mn

July 2014 - Project began commercial operation

January 2015 - Project completed; Project has been developed by SAFCO, a unit of Saudi Basic Industries Corp (SABIC) interconnection link project approved; Project will be implemented in 3 tranches - First establishing two 500 KV alternating currents to direct current transformers in Badr City, second tranche is a 450 km aero line linking between Badr Station and Nabaq station and third tranche of the project is linking Badr and Nabaq stations; Total project cost - USD1.6bn; Egypt will contribute USD600mn

2015 - Construction underway

March 2013 - Project completed; June 2012 - SAR803mn (USD214mn) construction contract awarded to NESMA for Dams in Wadi Ghaya, Wadi Um Hablain, Wadi Daghbj, and Wadi Briman

March 2013 - Project completed; June 2012 - SAR803mn (USD214mn) construction contract awarded to NESMA for Wadi Ghaya, Wadi Um Hablain, Wadi Daghbj, and Wadi Briman

March 2013 - Project completed; June 2012 - SAR803mn (USD214mn) construction contract awarded to NESMA for Wadi Ghaya, Wadi Um Hablain, Wadi Daghbj, and Wadi Briman

March 2013 - Project completed; June 2012 - SAR803mn (USD214mn) construction contract awarded to NESMA for Wadi Ghaya, Wadi Um Hablain, Wadi Daghbj, and Wadi Briman

March 2013 - Project completed; June 2012 - SAR372mn (USD99mn) construction awarded for the project

March 2015 - Project completed; Project is part of Jeddah Water Storage Facility, It is developed in phases; Phase 1 Value - SAR740mn; Total Project Value - SAR2.2bn (USD586mn)

August 2015 - Construction underway, expected to be completed in 2016; Project is part of Jeddah Water Storage Facility, Project is developed in phases; Phase 2 Value - SAR375mn; Total Project Value - SAR2.2bn (USD586mn)

August 2015 - Construction underway, expected to be completed in 2016; Project is part of Jeddah Water Storage Facility, Project being developed in phases; Phase 3 Value - SAR824mn; Total Project Value - SAR2.2bn (USD586mn)

August 2016 - Construction underway, completion by end of 2017; October 2011 - EUR6.7bn construction contract awarded to Al-Shoula consortium; Phase includes construction of railway tracks, installation of signaling and telecommunication systems, electrification, operational control center, procurement of 35 high-speed trainsets, and operation and maintenance for a period of 12 years

March 2014 - McDermott International has been awarded a substantial contract to provide the electrical power supply system; January 2014 - Larsen & Toubro Saudi Arabia LLC, a subsidiary of Larsen & Toubro Ltd, awarded EPC contract

February 2014 - Project nearing completion after series of delays

January 2015 - Construction 24.1% completed; Contract value - SAR3.51bn; Project is part of USD7bn Waad Al Shamal Phosphate project

January 2015 - Plant 40% completed; Project also includes two 75-MW power plants that will recover heat generated by the acid plant operations; Contract value - SAR2.87bn

January 2015 - Project 14.4% completed; January 2014 - Contract for project worth SAR2.09bn awarded

March 2014 - Plant to come online in late 2016; January 2014 - Contract for project worth SAR2.25bn awarded; The contract includes detailed engineering, procurement and construction and will take 36 months

January 2015 - 37.7% construction work completed; Project is part of USD7bn Waad Al Shamal Phosphate Project; Project cost SAR 3.09bn

February 2014 - Saudi Arabian government, along with SunEdison currently undertaking feasibility study for the proposed project

October 2016 - Construction underway, to be operational by end of 2016; Line runs from Riyadh and passes through industrial stations in Sudair, Al Quassim, Hail, Al-Jawf and Al -Basyata to Al Haditha

commissioned in 2012; Project is part of Ras Al Zour (Ras Al Khair) Desalination and Power Plant; Total Project Value - SAR27bn (USD7.2bn)

March 2014 - ABB Group awarded USD110mn contract for the construction of the substation; The new substations will link the Taif East Governorate, a part of the Mecca region, to the national 380 kilovolt (kV) transmission grid

May 2016 - Project delayed due to funding issues with contractor Saudi Binladin Group and now scheduled for completion by end of 2019; November 2015 - USD2.23bn funding secured for the project; December 2013 - Foundation work commenced; Project Cost - GBP800mn

November 2015 - Phase 1 completed; April 2014 - Commenced construction; First phase of the new facility will be the construction of a 10,500 sqm building

18 months

August 2016 - Project reported to be facing delays; August 2014 - Construction underway; May 2014 - USD80mn contract awarded for expansion of airport to Jawdat Contracting; Post expansion, terminal will increase from 1,810 sq metres to 7,560 sq metres while capacity will increase from 100,000 passenger/year to 518,000 passenger/year

July 2015 - Project was expected to be completed by Q2 2015; February 2014 - Construction of Phase I (65 km) was completed in May 2013 and phase II (25 km) is underway and phase III (50 km) is at planning stage

June 2015 - Car park demolished in Al-Ma'aseem area in favor of the project; Construction for 2 bridges and ramps as part of the project is 80% completed; March 2013 - Contract worth SAR633.14mn (USD167mn) awarded

April 2014 - Construction begins; Part A works encompass the erection of Undercrossing at King Abdullah Road; Part B to encompass the erection of Interchange bridge and undercrossing at King Khalid Freeway; Contract value - SAR460.9mn

July 2013 - Construction underway and expected to be completed by February 2015
June 2013 - Construction underway; Flyover construction, as part of project was completed in May 2013
February 2014 - Construction underway
January 2013 - Project is at planning stage
December 2013 - Construction underway; Project involves construction of internal roads and intersections
August 2016 - Construction underway; Expected to be ready in Q4 2016; Phase I includes civil works under Package I and construction of five passenger stations under Package 2
October 2016 - Line became operational since November 2015; Part of 2400 km North-South Railway (NSR) project worth USD3.5bn
March 2014 - Project became operational; Line will transport 1.1mn passengers/year
Bandar Company; Project is part of Sudair City Logistic Centre, to be developed in two phases, which itself is part of SAR147bn (USD40bn) Sudair Industrial City
September 2014 - Phase I (Northern Border security) of 900 km length is inaugurated; Project cost - USD20bn; Total length - 1500 miles
February 2016 - Project is still at planning stage; May 2015 - The project is currently in its pre execution phase
July 2014 - Shell quits the project; Project is part of Kidan Gas Field Development, to be carried out in multiple phases
April 2016 - Work has largely stopped on the project due to issues with the contractor Saudi Bin Laden Group; Completion has been delayed till 2025
August 2016 - Construction underway; Saudi Aramco still studying clean fuel project; March 2015 - Saudi Aramco has confirmed it plans to start up the first units in late 2017; November 2012 - Construction commenced
delayed till 2025
April 2016 - Project expected to complete by 2020; September 2015 - SR8bn(USD2.1bn) has been secured to fund the Phase II,IV and V of the project; Project is being carried out in 5 phases; Project includes 40 residential towers that accommodates up to 160,000 pilgrims and a large prayer to hold 200,000 worshippers
July 2016 - Foreign companies submitted bids for USD2bn plus project
December 2015 - Construction completed; Commercial operations expected to begin in 2016; Plant to produce 400,000 tons of elastomers materials; Project cost - SAR12.7bn
Saudi Binladin Group (SBG) signed an agreement with Aluminum Corporation of China Limited (Chalco) to develop, own and operate the project
February 2015 - Construction underway; Manens-Tifs won the contract to provide consulting services for the project; Project is one out of th two separate medical cities for security forces being developed in Riyadh and Jeddah at a cost of USD6.7bn; Expected completion slated by the third quarter of 2017

Bandar Company for the first phase; Project to be carried out in two phases, Phase 1 includes construction 150000 square metre while Phase 2 will expand the centre by 300000 square metre; Project is part of SAR147bn (USD40bn) Sudair Industrial City

May 2015 - Project at planning stage

March 2015 - Project completed

Project cost - SAR7.5bn

May 2016 - Arabian Construction Company (ACC) has been appointed to build three residential towers for Emaar Residences; June 2015 - Construction underway for Emaar Square; Project includes development of Abraj Al-Hilal 1 (completed), Abraj Al-Hilal 2 (under construction), Emaar Square (under construction) and Emaar Residences

December 2014 - Project completed; Phase-I completed in first-quarter 2013 and comprised installation of a grassroots desulphurization train to treat 60,000 bpd of FCCU gasoline

December 2015 - 86% construction completed; Phase I will raise the airport's capacity from 17mn to 30mn passengers/year; Project is part of USD7.2bn King Abdulaziz International Airport (KAIA) Expansion

December 2014 - Isolux corsan has been awarded the construction of two 115 kV substations in the city of Al Hassa and modification of the existing substation Al-Uqair

for mining industries

September 2014 - MEEDCO has awarded USD35mn(SAR 134.5 mn) contract Zamil Towers & Galvanizing Company, a subsidiary of Zamil Industrial Investment, for the construction of the line

contract; April 2014 - Part of the Saudi Arabia's Saudi Arabian National Guard Hospital Program for the construction of five hospitals in Qaseem, Taif, Riyadh and Jeddah

May 2016 - GACA has postponed tender for project; June 2015 - GACA seeks private investors to design, build, finance and operate new international airport; New airport will replace existing domestic airport, whose expansion was put on hold

May 2014 - Larsen & Toubro Saudi Arabia LLC, a subsidiary of Larsen & Toubro Ltd, awarded construction contract by National Grid Saudi Arabia for Dammam Industrial Estate and Al-Majeedia in Qatif worth SAR212.26mn (USD56.6mn)

May 2014 - Larsen & Toubro Saudi Arabia LLC, a subsidiary of Larsen & Toubro Ltd, awarded construction contract by National Grid Saudi Arabia; The scope involves engineering, tower foundations, supply and erection of 132kV family of towers with associated transmission line components along with testing and commissioning of the entire circuit

May 2014 - Contract signed for the supply and implementation of the seawater cooling system that is planned to be constructed in Ras Al-Khair industrial city and will cost a total SR540 million

May 2014 - Royal Commission for Jubail and Yanbu awarded construction contract to Saudi Services for Electro-Mechanic Works Company; The project also involves constructing four water tanks

May 2014 - Saudi Services for Electro-Mechanic Works Company has won construction contract; Work is likely to be completed in three-and-a-half years

May 2016 - Project has received final approval from The High Commission and main construction tender is expected in Q4-2016; May 2014 - Al Futtaim Group has signs MoU with Riyadh's Kayannat Real Estate; Total Project Value - SAR6bn water to Al-Kharj

June 2016 - Highway set to open after 2 years delay; October 2015 - Construction completed; Total Length - 680km; Stretch in Oman - 160km (Project cost - OMR200mn); Stretch in Saudi Arabia - 566km (Project cost - SAR1.6bn)

2012 - Project completed

2012 - Project completed

November 2016 - Construction underway; June 2014 - Contract worth SAR726.2mn awarded to Ferrovial Agroman and Al Fahd Contracting

July 2016 - EGA Master Receives Order to Supply Yanbu Power and Desalination Plant; January 2015 - GE won contract to provide electrical variable speed drive (eVSD) system technology; Project includes desalination plant with 550,000 cubic metres per day capacity and a 2700 MW oil fired power plant

2012 - Project completed; Project value USD64.2mn (SAR241mn)

June 2014 - Four companies from Saudi Arabia, Germany, Czech Republic and India have teamed up to invest in the project

June 2014 - Detailed designing of WWTP underway, Tender to be launched soon; Contract expected to be awarded by October 2014 while construction would begin by November 2014

January 2015 - Project completed; July 2013 - Construction contract awarded to Alfanar Construction, to be completed in 22 months

August 2016 - Planning underway; SAR55bn project will consist of 20 office towers and 80 residential towers

April 2013 - Project completed

contracts for the 43-km Saudi onshore stretch and 41-km offshore stretch have been awarded; September 2015 - Saudi Arabia and Bahrain have signed deals, worth around USD300mn; May 2014 - FEED completed; Total Value - USD350mn; Total Length - 115 km (73 km - Onshore and 42 km subsea)

May 2016 - Construction expected to commence in 2016; January 2016 - Bids have been evaluated and contract to be awarded by 2016-end; November 2014 - Prasarana awarded contract to provide consultancy services; Project is part of 188 km long Makkah Metro Network, USD16.5bn Project

May 2016 - Project is part of 188 km Makkah metro network worth USD16.5bn Project

May 2016 - Project is part of 188 km Makkah metro network worth USD16.5bn Project

2013 - Project completed

March 2013 - Design, technical and financial studies being prepared for project; Tunnel to connect Taif City to Makkah City through Al Kara Mountains; Project cost - SAR3bn

July 2014 - Ministry of Transport launched SAR6bn project

October 2014 - Saudi Railway Organization signed feasibility study contract

July 2014 - Contract signed with KAEC for construction of its facility in the Industrial Valley; Factory will operated by Paint Innovation Factory, Saudi-German joint venture for the production of high quality paints

July 2014 - Contract signed with KAEC for construction of its facility in the Industrial Valley

July 2014 - Contract signed with KAEC for construction of its facility in the Industrial Valley; Factory to produce windows and doors for residential complexes, towers, commercial buildings and shopping centers

January 2014 - Construction underway; Project consist of 42 storey, with 4 basements and total build up area is of 140000 Square metres

six berths and capacity of over 4mn TEUs; 1.3mn TEU capacity achieved in 2015; July 2014 - First container terminal capable of handling 1mn TEU opened in January 2012 making the port operational; Seaport is part of GBP67bn (USD83bn) King Abdullah Economic City which is divided into six main components: industrial zone, seaport, residential areas, sea resort, educational zone and central business district

January 2015 - Project has been green lit; July 2014 - Allocation of SAR4.5bn (USD1200mn) approved for project

May 2016 - Construction underway; August 2014 - Contract worth SAR150mn (USD40mn) awarded to Arabian Construction Company; Project is part of Emaar's USD1.6bn Jeddah Gate Development Project

July 2015 - Project completed; Phase I included construction of new passenger terminal building of 156,940 square metres and increased capacity to 8mn passenger/yr from 5.7mn passenger/yr; Project is part of USD1.2bn Prince Mohammed bin Abdulaziz Airport Expansion

November 2016 - Project has three phases; November 2015 - Phase I construction is 80% complete; Phase II completion in 2020 and Phase III completion in 2035; Phase I will raise capacity from 17mn to 30mn passengers/year; Phase II to 43 mn passengers/year and phase III to 80mn passengers/year

July 2015 - Project under planning phase; Project will increase capacity to 12mn passenger/year from 8mn/year; Project is part of USD1.2bn Prince Mohammed bin Abdulaziz Airport Expansion project

October 2013 - Construction underway for Phase II and III of the project

July 2016 - ACWA Power consortium closes refinancing for the 1204 MW Rabigh 1 power plant; April 2013 - Project completed; PPA with Saudi Electricity Company (SEC) for 20 years; 2 X 660 MW plant

February 2016 - Scomi Engineering, Albayrak Grubu and Siyahkalem Jeddah to bid for USD785.6mn (MYR3.3bn) Phase I; Monorail project would be developed in a few phases that would include monorails, buses and trams linking 12 main streets; April 2009 - Plans unveiled for SAR21bn project

June 2015 - Work commenced in 2015 and to be completed in 2020; Project is part of Landbridge project which involves construction of 950 km rail line between Riyadh and Jeddah and 115 km between Dammam and Jubail

April 2012 - ABB awarded construction contract to upgrade the existing substation

April 2012 - ABB awarded construction contract worth USD16.3mn (SAR63mn) to build the substation at Al-Fareeda a residential development

March 2016 - SEC refinanced USD1.14bn loan for project; April 2013 - Commenced commercial operation; The power plant will sell electric power on a wholesale basis under a long-term, 20-year contract entered into with SEC

August 2014 - The work is expected to take 29 months to complete; Contract value - USD54mn

July 2015 - Construction underway; Hochtief awarded USD1.45bn (EUR1.3bn) contract for redesign, upgrade and expansion of terminal 3 and 4; Expansion of terminals 3 and 4 will increase airport's capacity from 15mn to 25mn passengers/year

August 2014 - Contract worth SAR391.5mn (USD104.4mn) awarded to a Saudi Arabian contractor for first phase (214 km section) of Hofuf - Harad freight-only line expected to be completed in 2 years

October 2016 - Atkins intends to bid on Jeddah Metro for consultancy services; August 2015 - Expressions of interest invited for a civil works contract; April 2015 - Tenders to be launched in Q2 2016, after design completion; March 2015 - Foster + Partners is to develop the architectural vision

August 2016 - Construction 90% completed; January 2015 - Talgo has shipped first trainset for the project; Project has two phases, Phase 1 having civil works under Package 1 and construction of the five passenger stations under Package 2; Phase II for track-laying and signaling and telecommunication systems; Project cost - SAR7.51bn

August 2014 - Construction has commenced; SAR15mn (USD4mn) contract awarded for initial phase of project and will be completed by 2015; Total project cost - SAR235mn

August 2014 - Contract worth SAR123mn (USD33mn) awarded to CRCC with 21 months period

September 2014 - Siemens has signed contract with Saudi Electricity Company for the construction of static VAR compensators (SVCs) at Medinah East, Hail-2 and Al Jouf-2 380 kV substations
July 2015 - Talgo diesel trainsets order cancelled; March 2015 - Talgo to deliver six 350 series high-speed trains under USD200mn contract; September 2014 - USD1.8mn contract awarded for feasibility study
combustion turbines into combined cycle units; Conversion will increase the power production by 147mw without increasing the fuel consumption
November 2016 - New deadline for project completion is 2021; February 2016 - Project study is underway; Railway network will connect Kuwait, through Saudi Arabia, to the UAE and Oman, with branches linking Bahrain and Qatar; Total Length - 2117 km; Total Project Value - USD15.4bn
first stage 1 of Al-Shurooq District worth USD106.6mn(SAR 400 million) and infrastructure works at Al-Talah Gardens 3 worth USD36mn(SAR 135mn)
March 2016 - Construction underway; December 2014 - KAEC to offer additional plots at Al-Talah Gardens; Project is being developed in 3 phases, Community will also includes a mosque, school, club house and retail outlets
October 2014 - Construction commenced; Project to be carried out in phases, Phase I is being built at SAR250mn (USD66mn); Total Project Value - SAR1.8bn
October 2014 - Construction commenced; The first phase is expected to reach maximum capacity by Q315, in west Riyadh neighborhoods of Laban, Aeryjae and Tuwaiq; Project is part of Riyadh Water Storage project, to be carried out in phases; Phase I Value - SAR250mn; Total Project Value - SAR1.8bn (USD480mn); Total Capacity - 4.6 mn cubic meter
March 2016 - Tender expected to be launch by the end of 2016, although not yet decided; Complex includes a 3000 MW plant which and desalination plant with capacity to produce 1.5mn cubic meters/day
November 2014 - Construction underway, expected to be operational by 2015
hospital, conference centre and colleges for medicine, medical sciences, dentistry and pharmacy; Total project cost - USD3.4bn
October 2014 - 70% construction complete; Third phase includes eight administrative buildings; Total project cost - USD3.4bn
October 2014 - Construction commenced; Tower will be 150m high and will have 40 floors
times
November 2014 - Construction underway; Phase-I is part of broader Al Waha District project, comprising 1,600 units; 50% of the 1,600 units development has completed
the south
November 2014 - Construction underway; Project is part of government's efforts to build 500,000 low-cost houses throughout the kingdom at a cost of SAR250bn (USD67 bn)
December 2014 - Construction underway; Project is scheduled to take 27 months to complete
December 2014 - Construction underway
Maytas (subsidiary of IL&FS) for structural and concreting works for two 230m long towers, namely 2A and 3A; The project will cover an area of 1.4mn sq m and have 10,000 rooms in 12 towers, 70 restaurants, a convention centre, floors specially designed for royal guests, and four rooftop helipads
December 2014 - Planning underway; Project will include 1250 residential buildings containing 25000 housing units
January 2015 - Planning underway; The new facility is scheduled to start operations in Q316; Plant to produce 30mn sq m of gypsum plasterboards and related gypsum based products and systems annually; Project cost - SAR250mn
November 2014 - Project to be completed soon
November 2014 - Project to be completed soon
December 2014 - Construction underway; November 2014 - Project aims to increase port capacity by 45%; Red Sea Gateway Terminal, newest of three container terminals of port became operational
March 2014 - Saudi Ports Authority awarded CHEC a contract for dredging and construction of three berths at the Ras Al-Khair Industrial City port for SAR762.1mn (USD203mn) in February 2014
November 2014 - Project is at planning stage

November 2014 - Terminal is launched and has 740 metres main berth, with 390 metres feeder berth; RSGT is one of three terminals in Jeddah Islamic Port; Project built under BOT agreement; Project cost - SAR2bn

December 2015 - Tender designs have been completed and bids have been submitted; Bridge will be 74m wide and 51m high; May 2015 - 8 consortiums prequalify for Obhur bridge project

January 2015 - Ma'aden has signed an EPC contract worth SR563mn (USD150mn) with Al-Rashid Trading & Contracting Company Ltd for the 1st phase; RTCC will build 70 villas, 189 apartments and 232 studio properties under the contract, as well as roads, utilities networks and fire stations; Project is part USD7.4bn Waad Al Shamal Industrial City

July 2016 - 90% of the construction work has been completed; Project cost - SAR3.2bn

January 2015 - 90% of the construction work has been completed; Project cost - SAR1.54bn

August 2016 - Work is 97% complete and trial runs are ongoing; Project cost - SAR2.9bn

January 2015 - 90% of construction work has been completed; Project cost SAR1.75bn

January 2015 - Saline Water Conversion Corporation (SWCC) awarded a contract to Itochu and Sasakura JV

April 2015 - Project close to completion; Expected to be operational by end of 2014

October 2016 - Construction underway, completion by 2020; September 2015 - Larsen & Toubro wins USD161.3mn design-build contract; May 2015 - Tunnel boring work commenced on all six lines; May 2015 - Construction started in April 2014

February 2015 - Black & Veatch has been appointed as engineering and design consultant for the project

February 2015 - Construction contract worth USD126mn awarded to Hyundai Engineering and Construction Company; The project calls for building 249-kilometer transmission lines within the Saudi capital Riyadh

January 2016 - 2nd contract signed for 791 units with Azmeel and SinoHydro; September 2015 - Azmeel to construct 955 units under Phase I while contract for remaining 1821 housing units under Phase I to be awarded soon

May 2014 - Construction underway; Construction contract awarded to Saudi Arabian Baytur and Azmeel Contracting; Project is part of Jabal Omar Development Project, being built in 5 phases; Total Project Value - USD5.5bn

February 2015 - EPC contract worth USD30.6mn awarded to SNC-Lavalin; Project includes design, procurement, construction and commissioning of an additional cooling capacity of 5,000 RT (refrigeration tons) to achieve a total cooling capacity of 32,000 RT (refrigeration tons)

February 2015 - EPC contract worth USD40.2mn awarded to SNC-Lavalin; Project includes design, procurement, construction and commissioning of an additional cooling capacity of 10,000 RT (refrigeration tons) to achieve a total cooling capacity of 35,000 RT (refrigeration tons)

May 2014 - Construction underway; December 2012 - Construction contract awarded; Project is part of Jabal Omar Development Project, being built in 5 phases; Total Project Value - USD5.5bn

May 2014 - Construction underway; December 2012 - Construction contract awarded; Project is part of Jabal Omar Development Project, being built in phases; Total Project Value - USD5.5bn

USD123.7mn (SAR474mn); February 2014 - Construction contract worth SAR2.3bn (USD613mn) awarded to Ruwad Construction Company; Project is part of Jabal Omar Development Project, being built in 5 phases; Total Project Value - USD5.5bn

March 2015 - Work will start by the end of the quarter; January 2014 - Abdullah A. M. Al-Khodari Sons awarded construction contract by Saudi Arabia's Ministry of Health

May 2016 - Construction expected to commence in 2016, project to be built in three phases; January 2016 - Bids have been evaluated and contract to be awarded by 2016-end; July 2015 - Isolux Corsan, Kolin Insaat Turizm Sanayi ve Ticaret and Haif Company selected as preferred bidder for civil works for lines B and C

May 2014 - Construction underway; May 2013 - Construction commenced

March 2015 - Egis and Systra appointed to conduct design studies for green, blue and red metro lines; Project will be developed in two phases

April 2015 - The first shipment of petcoke exported from the refinery; January 2015 - Refinery is operational; September 2014 - Trial runs started on the refinery

March 2014 - Groundbreaking ceremony held; Total cost of Rabigh II project - USD1.2bn

March 2014 - Construction commenced in November 2013; August 2012 - Project will take three years from contract signing date, due to be finished in June 2015; Total cost of Rabigh II project - USD1.2bn

March 2016 - Operational started; May 2015 - Construction completed; July 2013 - Contract worth SAR1.1bn awarded; The butanol plant produces 330,000t per annum of n-butanol and 11,000t per annum of iso-butanol

August 2016 - Project commissioned; August 2012 - Daelim won USD920mn EPC Contract; Plant has a capacity to produce 1.5mn t/y of ethylene and 400,000 t/y per year of propylene comprises 12 cracking furnaces, including seven designed to crack ethane gas and the remaining five naphtha

February 2016 - Construction underway

March 2015 - Blominvest signed an agreement with SinoGulf to develop an industrial logistic park; Project cost - SAR1.15bn

March 2015 - Contract worth USD283mn awarded to Arabtec

January 2015 - CHEC awarded USD47.2mn contract with construction period of 30 months; Project involves building two interchange, one footbridge and 4.3km of reconstruction work

March 2015 - Design contract awarded; The project is a luxury retail and leisure mall including an external boulevard and an internal plaza area with entertainment and leisure areas

145,000 square meters of Gross Leasable Area (GLA), including a 4,000 square meter open space; Project Value - SAR200mn

March 2015 - SAR160.2mn (USD43mn) contract awarded to increase maximum axleload to 32.5 tonnes; Project to be completed in 23 months

June 2015 - Construction commenced; May 2014 - EPC contract awarded to CHEC, subsidiary of China Communications Construction Company

part of Al Khobar Lakes Development - Phase I, comprising 9 villages and 2,000 villas; Total project cost - USD1,200mn (SAR4.6bn)

May 2016 - Construction underway; Line to open in end of 2018 or early-2019; October 2015 - The first tunnel section of 1.2km completed; May 2015 - Tunnel boring work commenced; USD7.9bn construction contract awarded to FAST consortium in July 2013 to construct and design Orange, Yellow and Purple Lines; Total Cost - USD23bn, Total Length - 180km

May 2016 - Construction underway; Line to open in end of 2018 or early-2019; May 2015 - Tunnel boring work commenced; USD7.9bn construction contract awarded to FAST consortium in July 2013 to construct and design Orange, Yellow and Purple Lines; Total Cost - USD23bn, Total Length - 180km

October 2016 - Only 38% of the construction has completed against the targeted 80% completion by 2016 and hand over the towers by 2017; Project faced delay as Lemar has filed a lawsuit against the contractor to retrieve SR200 million; May 2013 - Drake & Scull awarded contract to complete the project; Project was halted in 2009 and refinanced in 2013

January 2016 - Saudi King inaugurates the research center; Project includes 10 community buildings, 200-house residential community and four main utility buildings

November 2014 - Contract awarded to KBR for FEED services; Value of the contract has not been disclosed

June 2015 - Bids invited for the project; Project to complete in 2 years

June 2015 - Plans revealed for second housing project near Ameer Fawaz; Project to comprise 10,630 housing units for 58,358 people and will involve the installation of water, sewage and electricity networks, pavement work, asphaltting of roads, lighting and landscaping; Project to be completed within two years

June 2015 - Construction contract worth USD48mn awarded to Hyflux, a wholly-owned subsidiary, HydroChem Saudi to design, build and deliver the desalination system of capacity of 30,000 cubic metres of water a day

June 2016 - Tunneling work completed; May 2015 - Tunnel boring work commenced; Lines 1 and 2 are being built under a USD10bn contract awarded in 2013 to the BACS consortium of Bechtel; Total Cost - USD23bn, Total Length - 180km

March 2016 - Construction works 75% completed; June 2015 - Construction contract awarded

INR12.6bn (USD200mn) for 132 kV cabling work in Hail city and a 132 kV double circuit transmission line in Turaif, Qaseem and Hail

INR12.6bn (USD200mn) for 132 kV cabling work in Hail city and a 132 kV double circuit transmission line in Turaif, Qaseem and Hail

July 2015 - Contract signed for development of Phase-I of the project; The agreement for the second phase expected to be signed in 2016, expanding the centre to an additional 300,000 sqm

July 2015 - Deal signed between Abdul Rahman Saad Al-Rashid and Sons Co. Ltd and KidzMondo; Project is part of Developer's plan to develop 7 such cities in next 10 year with an estimated investment of USD133mn (SAR500mn) restaurant with an outdoor terrace, administrative offices, and a VIP lounge, as well as research and archival areas, workshops, and a 150-seat auditorium

September 2016 - Building scheduled for completion by mid-2017; Project cost - SAR3bn

March 2015 - Saudi BinLadin Group has been awarded the contract for the construction of the Butterfly Dome

May 2014 - Plant became operational

memorandum of understanding with Saudi Electricity Company and Saudi Company for Development and Technology Investment(TAQNIA)

August 2015 - Pipeline becomes operational which will serve 14 localities

August 2015 - Construction has already started; Work has been completed on the section of the road overseen by the Makkah municipality
August 2015 - Construction has already started; Briman-Hada Al-Shaam Road will facilitate travel from Makkah and Taif to Jeddah International Airport and also reduce traffic on Al-Haramain road
August 2015 - Construction has already started
August 2015 - Two sections are currently under implementation, with the remaining 17 km distance to be carried out later
June 2016 - Construction underway; October 2015 - Feasibility study completed last month; Project will consist of 26km road, 10km bridge, 87km rail link and 28km approach tracks; Alignment of line has been finalized and landing point for rail network has also been agreed; Total Cost - USD3000mn
February 2014 - Project under planning phase
construction, Stage 2 (USD90mn) has completed its study and Stage 3 and Stage 4 is at early stage of planning; Total Project Value - SAR1.5bn
September 2015 - NWC has completed a study for the second phase; Project is part of Makkah Strategic Water Storage Project; Phase 1 Value - SAR170mn; Total Project Value - SAR1.5bn (USD400mn)
July 2015 - Contract expected to be signed by next year; Project is part of Sudair City Logistic Centre, to be developed in two phases, which itself is part of SAR147bn (USD40bn) Sudair Industrial City
June 2015 - Only 2 stadiums (Dammam and Makkah or Medinah) will be build out of proposed 11 stadiums due to fall in oil prices; Project is part of 11 stadiums proposed across the kingdom at a budget of USD4.4 billion; Each stadium to cost USD400mn and capacity of 45,000 spectators
April 2013 - The Saudi Electricity Company (SEC) has signed contracts worth SAR1.376 (USD365mn) for the construction of 2 transmission plant in Al-Kharj and Salboukh and 5 five gas-powered generating units
December 2014 - Isolux awarded construction contract to build two new substations in Al Hasa and modify one in Al Uqair; Total Project Value - USD40mn
April 2016 - Project to be completed by 2019; October 2014 - First Monorail vehicle unveiled; Construction commenced in 2011, scheduled for completion in 2016; Project is part of USD11.6bn King Abdullah Financial District being developed in phases
May 2014 - Larsen & Toubro Saudi Arabia LLC, a subsidiary of Larsen & Toubro Ltd, awarded construction contract by National Grid Saudi Arabia for Dammam Industrial Estate and Al-Majeedia in Qatif worth SAR212.26mn (USD56.6mn)
September 2014 - Siemens to construct static VAR compensators (SVCs) at Medinah East, Hail-2 and Al Jouf-2 380 kV substations
September 2014 - Siemens to construct static VAR compensators (SVCs) at Medinah East, Hail-2 and Al Jouf-2 380 kV substations
June 2015 - Larsen & Toubro Saudi Arabia LLC, a subsidiary of Larsen & Toubro, awarded EPC contract worth INR12.6bn (USD200mn) for 132 kV cabling work in Hail city and a 132 kV double circuit transmission line in Turaif, Qaseem and Hail
contract; April 2014 - Part of Saudi Arabian National Guard Hospital Program for construction of five hospitals in Qaseem, Taif, Riyadh and Jeddah
contract; Part of Saudi Arabian National Guard Hospital Program for the construction of five hospitals in Qaseem, Taif, Riyadh and Jedda
contract; Part of Saudi Arabian National Guard Hospital Program for the construction of five hospitals in Qaseem, Taif, Riyadh and Jeddah
contract; Part of Saudi Arabian National Guard Hospital Program for the construction of five hospitals in Qaseem, Taif, Riyadh and Jeddah
October 2014 - Project is in final stages; Project has been developed in three phases; Phase I completed while 70% work on Phase II and Phase III have now been completed
June 2014 - 94% work completed; Part of a two-phase hospital project

July 2015 - Construction underway; Hochtief awarded USD1.45bn (EUR1.3bn) contract for the redesign, upgrade and expansion of terminal 3 and 4; Expansion of terminals 3 and 4 will increase the airport's capacity from the 15mn to 25mn passengers/year

Company plan to develop a SAR1.2bn (USD320mn) shopping complex; The open-air mall will include office, shopping and dining facilities

December 2014 - First alumina produced; May 2012 - Hyundai Engineering & Construction Co Ltd won SR5.6bn contract to construct the project; Project forms part of integrated aluminium complex

February 2015 - Construction underway; February 2013 - Samsung Engineering won EPC contract for the project

July 2015 - In the pilot project, 40 million standard cubic feet per day of CO2 will be captured at Hawiyah gas recovery plant and then piped 85 kilometers to the 'Uthmaniyah

February 2011 - Samsung Engineering awarded USD600mn contract from Saudi Aramco; Plant to produce 886 MW of power and 1,478 Ton/h steam

December 2015 - Plant to produce 211 Ton/h steam

January 2016 - 2nd contract signed for 791 units with Azmeel and Sinohydro; Project is part of Saudi Aramco's south Dhahran home ownership project

April 2016 - Canal project is moving forward in the Saudi governmental system has now formally been assigned to the Ministry of Electricity; September 2015 - Studies are underway on construction of waterway that will reduce by half the distance ships are currently taking by passing through the Strait of Hormuz; Total Cost - USD80bn; Total length - 950 km
September 2015 - Project completed and handed over; Project was developed in six years; 18.5 km line has nine railway stations and a parking area

October 2015 - Umm Al Qura Development & Construction has selected Ramboll as the technical adviser; Project will need 150 MW power to produce the 500 MW of cooling

July 2015 - EPC contract awarded to GAMA Power Systems; March 2015 - Yokogawa wins delivery orders for two combined cycle power plants in Saudi Arabia

July 2016 - Zamil Steel Construction Co. wins SAR 23M contract for the SEC PP14 Power Plant in Riyadh; September 2015 - Construction contract awarded to Sepco III; March 2015 - Yokogawa wins delivery orders for two combined cycle power plants in Saudi Arabia

July 2015 - Contract awarded to Ruwad Civil Construction Co. (RCC) for SAR1.6bn phase; Project is part of Jabal Omar Development Project, being built in 5 phases; Total Project Value - USD5.5bn

October 2015 - Starwood Hotels & Resorts Worldwide has signed a deal with Sulaiman Abdulaziz Al Rajhi Real Estate Investments Company; Hotel will offer 1,139 rooms as well as seven food and beverage outlets across 16,000sq m

January 2013 - Project Completed

November 2015 - Mabanee's Saudi unit Shumoul Holding Company secured approval; The facility includes a shopping mall as well as residential and office units

March 2016 - Construction underway; April 2015 - Project partially operational

November 2015 - SAR4.2bn (USD1.12bn) contract awarded to ThyssenKrupp Industrial Solutions to build the plant

March 2013 - USD 270mn contract awarded to Hanwha

April 2013 - Project completed

March 2015 - The substation will run at 132/13.8kV voltage ; Project will be carried out within 21 months

January 2014 - SEC sign the substation contract to meet the rising demand for electricity in western province

May 2013 - Project involves installation of new 2x55/70MW Gas Turbine Generators and reinstallation in the new plant area of 2x33MW Gas Turbine Generators
May 2013 - Project involves installation of 2xSGT6-2000E gas turbines to Combined Cycle Power Plant in Saudi Arabia; May 2015 - Expansion will convert 12 oil-fired simple cycle combustion turbines to combined cycle operation
October 2013 - Construction underway; Project involve construction of new 380/132/13.8 KV substation; Project cost - SAR438.8mn(USD117mn)
January 2015 - Project completed; Project comprises of 10 gas turbines & 2 steam turbines
November 2012 - CESI has signed an agreement with SEC for assistance in the implementation of HVDC line of 800 km
October 2013 - Planning underway; SEC responsible for construction, installation, testing, commissioning the transmission line
independent power project (IPP); October 2016 - Engie won power plant deal worth USD1.2bn; Power plant is part of Fadhili gas plant; July 2016 - Saudi Aramco awarded four engineering contracts for SAR50bn project; November 2015 - Petrofac has Sulfur recovery unit worth USD1.7bn while Tecnicas won the other 2 packages for the gas processing unit USD2bn and utilities and offsites USD1bn; The project will increase the capacity from 1bn cu ft/day to 2.5 bn cu ft/day of sour gas (high in sulphur)
August 2014 - Duba 2 which was also proposed as an IPP is currently unclear whether the second phase will remain an IPP, or will also be switched to an EPC deal
August 2013 - Contract awarded
August 2013 - Contract awarded
July 2012 - Project completed 6 months ahead of schedule
February 2016 - Saudi Electricity Company seeks USD1bn loan for project; January 2016 - USD1bn contract awarded to GE; Project will provide power for the area's phosphate mining operations; Project cost SAR4.67 bn
January 2016 - Al-Afandi Group signed property deal with Royal Commission in Yanbu to build the factory, which will have the capacity to produce some 450,000 solar panels annually
January 2016 - HydroChem Saudi won contract to build the USD50.4mn desalination plant
January 2016 - Mossessian Architecture, is set to build the museum
February 2016 - Majid Al Futtaim to invest SAR14bn (USD3,731mn) to build Mall of Saudi and City Centre Ishbilyah in Riyadh; Phase-I expected to commence construction in 2017 and completion by 2022
underway; Majid Al Futtaim to invest SAR14bn (USD3,731mn) to build Mall of Saudi and City Centre Ishbilyah in Riyadh; Project will cover over 100,000 sqm of gross leasable area and will feature 250 stores, a 9,000 sqm Carrefour hypermarket, a food court and an entertainment complex
April 2016 - Contract worth SAR235mn awarded to Rezaik Abdallah Al Gedrawi for infrastructure and landscape works
April 2016 - Expansion scheduled to begin later this year; February 2016 - Plans announced to increase the number of lanes on the existing 25km causeway from 17 to 45; Project cost - USD5.3bn
November 2015 - Petrofac has been awarded EPC contract of USD1.7bn by Saudi Aramco; Project is part of Fadhili Gas Plant
September 2015 - Tecnicas has been awarded USD2bn EPC contract by Saudi Aramco; Project is part of Fadhili Gas Plant
May 2015 - SNAM, PIF and Daewoo International will collectively invest approximately USD1bn to build the plant
March 2016 - PetroRabigh received bids from up to six foreign engineering companies; Project involves building polyether polyols plant with annual capacity of 220000 tonnes and 17000 barrel per day naphtha-treating unit
July 2016 - Construction contract awarded to First Saudi Contracting, while work has already started; March 2016 - Naif Alrajhi Investment launched SAR600mn project

April 2016 - USD400mn EPC contract awarded to Hanwha E&C; Plant will be operated by Saudi Calcined Petroleum Co, jointly owned by Al Qarayan group, Al Wabil group, ANSAB group and GASAN
September 2016 - Ground work has begun at the site and is progressing according to plan; April 2016 - Cayan Group obtained all approvals for SAR1bn project
crude oil and chemicals; Royal Commission for Jubail signed 5 contracts to develop chemical facilities worth SAR735mn (USD196mn) in Jubail industrial city
and provide industrial services; Royal Commission for Jubail signed 5 contracts to develop chemical facilities worth SAR735mn(USD196mn) in Jubail industrial city
May 2016 - Zai Gulf Company to establish factory to manufacture specialty chemicals; Royal Commission for Jubail signed 5 contracts to develop chemical facilities worth SAR735mn(USD196mn) in Jubail industrial city
Royal Commission for Jubail signed 5 contracts to develop chemical facilities worth SAR735mn(USD196mn) in Jubail industrial city
May 2016 - Royal Commission for Jubail signed 5 contracts to develop chemical facilities worth SAR735mn(USD196mn) in Jubail industrial city; One contract signed to build a factory for manufacturing of chemical analysis devices
June 2015 - Jacob awarded project management contract
June 2016 - National Shipping Company of Saudi Arabia (Bahri) signed joint development agreement with Saudi Aramco, Lamprell and Hyundai Heavy Industries; Facility will provide engineering, manufacturing and repair services for offshore rigs, platforms, commercial vessels and offshore service vessels
June 2016 - Saudi Aramco signed MoU to build SAR1.5bn facility
March 2016 - KAEC to Showcase Residential Land Plots for Al Talah Gardens Phase 3; September 2014 - Contract worth SAR400mn (USD106.6mn) signed for residential project Al-Shurooq District along with SAR135mn (USD36mn) for infrastructure works at Al-Talah Gardens 3; Total Units - 1340 units
July 2016 - Request for pre-qualifications launched; June 2016 - Saudi Electricity Company seeks EOI for development of two 50MW each solar PV projects in Al-Jouf and Rafha regions
July 2016 - Request for pre-qualifications launched; June 2016 - Saudi Electricity Company seeks EOI for development of two 50MW each solar PV projects in Al-Jouf and Rafha regions
June 2016 - Project completed
June 2016 - Saudi Aramco and SABIC signed preliminary agreement to conduct feasibility study for a joint oil-to-chemicals (OTC) project in Yanbu; Study is slated to be completed by early 2017
June 2016 - Saudi government unveiled project to construct 7,000 villas in eastern part of Riyadh; Project will cover total area of 6.5mn sqm; Project cost - SAR4.48bn
July 2016 - Construction 86% complete, Plant scheduled to start operations by end 2016; Plant will produce and process 75mn standard cubic feet/day of non-associated gas and 4,500 barrels per day of condensates
July 2016 - Project management contract worth USD10mn awarded; Total pipeline length is 110km, with 4km onshore in Saudi Arabia, followed by 47km offshore and 59km onshore in Kuwait
July 2016 - Construction commenced on USD2.1bn industrial gas complex, which will supply a total of 75,000 tonnes a day of industrial gas (55,000 tonnes of nitrogen and 20,000 tonnes of oxygen) to Saudi Aramco's refinery
July 2016 - Tusdeer appointed Royal HaskoningDHV to provide planning and consulting engineering services for its logistics park in Jeddah; Logistics hub will feature warehouses with capacity for dry and cold storage, container storage and handling, as well as accommodation for workers
project, which will have 92 units of five-star serviced villas, business centre, gym, swimming pool, squash and tennis courts, restaurant
October 2016 - Project scheduled for completion by November 2016
August 2016 - Design work underway; D'Appolonia has been appointed as lead consultant to design the project; Project will restore the look and feel of about 40 mud buildings in the district
dining facilities
that will offer retail space as well as 272 luxury apartments including two-bedroom apartments, three- and four-bedroom duplexes and five-bedroom penthouses

August 2016 - Saudi Arabia proposed to build 25km long bridge between Al Ahsa and Qatar
August 2016 - Saudi Arabia proposed to build 40km long bridge between Al Ahsa and Bahrain
May 2016 - Project has two phases; Opening of facility is now less than 6 months away; September 2014 - Drake & Scull Saudi Arabia won an AED189mn MEP contract for Phase II; Completion expected by 2016; June 2014 - Phase I is 94 % completed; 2012 - Construction commenced
October 2014 - Phase I included 16 new engineering and science and administrative buildings to be completed over 36 month period; January 2014 - First buildings for Phase 1 are approaching preliminary handover; Part of USD3.4bn project
July 2015 - Project under planning phase; Project will increase capacity to 16mn passenger/year from 12mn/year; Project is part of USD1.2bn Prince Mohammed bin Abdulaziz Airport Expansion project
July 2015 - Project has three phases; Phase I completed; Project II and III under planning phase
October 2016 - Part of project to be implemented in three phases, where it can eventually accommodate 13mn passenger annually; January 2015 - Construction contract awarded to Al Jaber Group; Total project value - SAR1.8bn
October 2016 - Part of project to be implemented in three phases, where it can eventually accommodate 13mn passenger annually; January 2015 - Construction contract awarded to Al Jaber Group; Total project value - SAR1.8bn
October 2016 - Part of project to be implemented in three phases, where it can eventually accommodate 13mn passenger annually; January 2015 - Construction contract awarded to Al Jaber Group; Total project value - SAR1.8bn
December 2015 - Project is part of USD7.2bn King Abdulaziz International Airport (KAIA) expansion project; Phase II will raise capacity from 30mn to 43mn passengers/year
December 2015 - Project is part of USD7.2bn King Abdulaziz International Airport (KAIA) expansion project; Phase III will raise capacity from 43mn to 80mn passengers/year
March 2016 - First phase of bulk cargo and ro-ro (car) stations is scheduled to be completed by third quarter of 2016; Total capacity - 20mn TEU; Total area - 16sqm
October 2016 - The project will be implemented in three phases, where it can eventually accommodate 13mn passenger annually; January 2015 - Construction contract awarded to Al Jaber Group; Total project value - SAR1.8bn
October 2016 - Project has 1,486km industrial line and 1,418km passenger line; Construction underway on the passenger line, to be opened by 2016-end while industrial line became operational since November 2015; Thales awarded one year renewable maintenance contract
November 2016 - Project inaugurated; Project cost - SAR330mn
November 2016 - Project inaugurated; Project cost - SAR262mn
November 2016 - Project inaugurated; Project cost - SAR127mn
November 2016 - Project inaugurated; Project cost - SAR112mn
November 2016 - Project inaugurated; Project cost - SAR119mn
November 2016 - Phase-I completed and work underway for Stage-II and Stage-III completion
November 2016 - Construction underway and scheduled for completion within 2 years
November 2014 - Construction underway and scheduled for completion within two years

November 2014 - Construction underway and scheduled for completion within two years
November 2014 - Construction underway and scheduled for completion within two years
November 2014 - Project announced; Project cost - SAR240mn
April 2012 - ABB awarded USD70mn contract to design, supply, install and commission the substation
September 2016 - L&T secured a contract from Saudi Electricity Company for a 132kV double circuit transmission line and 132kV cabling in the Rafah, Arar and Sakakah areas of Saudi Arabia
September 2016 - L&T secured a contract from Saudi Electricity Company for a 132kV double circuit transmission line and 132kV cabling in the Rafah, Arar and Sakakah areas of Saudi Arabia
September 2016 - L&T secured a contract from Saudi Electricity Company for a 132kV double circuit transmission line and 132kV cabling in the Rafah, Arar and Sakakah areas of Saudi Arabia
October 2014 - ACWA Power bidding for solar plant; Project also seeks for prospective investors
has extended deadline for submission of bids by prequalified bidders; May 2016 - Saudi Electricity Company invited bids from 15 prequalified companies for the contract to expand 2640 MW plant by 1300 MW; Expansion includes addition of 2 units with combined capacity of 1300 MW
September 2014 - Project under planning stage, scheduled for completion in 2019
November 2016 - Saudi Electricity Company invited Eol for development of plant, successful bidder will be responsible for development, financing, procurement, implementation, operation and maintenance of plant, bids to submitted by November 24, 2016, requests for prequalification are expected to be issued in December; PP15 will be developed as IPP on land procured by the utility; Saudi Electric company will buy power under long term PPA
October 2016 - Doosan Wins KRW1trn Power Plant Construction Deal; Part of Fadhili Gas complex
March 2017 - Cyan Group signed design contract with Nikken Sekkei; Total built-up area - 1,40000 sqm; Project cost - SAR1.2bn
meeting rooms
September 2013 - Construction completed; Plant also produces 700,000 tn of paraxylene, 150,000 tn of benzene and 200,000 tn of propylene a year; April 2010 - Construction started
January 2014 - Project completed; November 2009 - Construction commenced
April 2014 - Project completed; Complex includes a power plant and desalination plant with capacity to produce 1.5 million cubic metres a day
June 2014 - Construction underway; Project has a total housing built-up-area of approx. 1.6mn m2 and a total site area of around 6mn m2
October 2012 - Project completed; Project value SAR1.43bn
Combined Cycle (IGCC) power plant in Jazan; May 2014 -Tecnicas Reunidas secured a contract worth about USD1700mn; Saipem secured 2 contracts which include the pre-commissioning, assistance to commissioning and performance tests of several facilities; Plant capacity scaled down to 2400 MW from 4000 MW due to cost issues; Project is part of Jizan refinery project costing USD7bn
Contracting Co; Contract also include 60,000 sqm passenger terminal; Project is part of USD10.66bn investment plan in aviation infrastructure sector
December 2012 - Project completed; Project included a desalination plant with 68,190 cubic meters per day capacity and a 690 MW power plant; June 2011 - Construction commenced
February 2015 - Construction underway; February 2011 - EPC contract worth USD380mn awarded for Phase-I of the project with a capacity of 3,350 tonnes/annum; All three phases to be operational by 2017

June 2016 - Construction underway; January 2015 - Abengoa with AWT Technologies to jointly build the plant; Plant will also have a 15MW solar PV facility
January 2015 - Sabic to review the expansion plans; March 2011 - HSBC to provide USD435mn funding for the project; Plant to produce one million tonnes per year of pellets and half a million tonnes of rebar
July 2012 - Project completed
August 2015 - Dhahiat Sumou Real Estate Development Company to award tender for USD500mn Dhahiat Sumou Development, which is phase-1 of Makkah Gate project; Phase 1 construction to commence by October 2016 and end in 2018; The Makkah Gate project will consist of 45 model districts; Total Project cost - SAR60bn (USD16bn)
May 2014 - Project completed ahead of schedule
July 2014 - Project started commercial operation; Plant has production capacity of 250,000 tones per year of caustic soda and 300,000 tones per year of ethylene dichloride
September 2016 - Project completed within 9 months of duration; December 2015 - Phase-I of the project is nearing completion; Industrial city includes 2,095 industrial facilities, 183 warehouses for various materials such as wood and metal, 22 factories, and 385 stores and showrooms; Project cost - SAR50mn
900,000 TEUs and phase II will double the added capacity to 1.8mn TEUs raising the total capacity to 3.3mn TEUs from the current 1.5mn TEUs
May 2013 - Project completed
June 2015 - Stadium will be build either in Mecca or Medina due to shelved plans for 11 stadium, citing fall in oil prices; November 2014 - Land has been allocated to build the stadium; Project is part of 11 stadiums to be build across the kingdom at a budget of USD4.4 billion; Each stadium to cost USD400mn and capacity of 45,000 spectators
contract; Project is part of Landbridge project which involves construction of 950 km rail line between Riyadh and Jeddah and 115 km between Dammam and Jubail
December 2014 - Infrastructure works set to complete in Q115; Project comprises 791 residential and 98 commercial plots; Project will be located between coastal plots of cities of Khobar and Dammam
February 2016 - Construction 98% completed; Complex expected to achieve full operations by 2017; November 2015 - Construction is nearing completion, Complex to be built in Single phase; Plant to produce 1.5 mtpa of ethylene and about 400,000 tpa of propylene; Project has been developed by Sadara Chemical Company (JV)
June 2016 - Project completed; July 2015 - Five projects launched as part of third phase of expansion to accommodate more than 1.6 million worshippers; July 2013 - Phase I completed
February 2015 - Construction completed in Q4 2014; April 2012 - Loan of USD950mn provided by Export-Import Bank of Korea
March 2015 - Project completed; December 2011 - Construction commenced; Project will deliver power to SEC under 20 year PPA
February 2016 - Tenders expected to be issued this month for project construction; February 2015 - Design work completed; October 2011 - USD1bn credit facility received from the Public Investment Fund
May 2014 - Project completed; Stadium capacity - 60,000
February 2015 - Construction underway; Project to include 1,250 residential buildings, 24 mosques, 14 schools, a hospital, two clinics and a police station; Area - 3.2mn sqm
mechanical, electrical and plumbing works; May 2013 - Design and construction contract awarded to ACC and TAV construction

June 2015 - Construction to start in 2016 and completed by 2020; Project cost - SAR4.6bn
March 2012 - Contract signed for the construction of the plant
February 2014 - Construction commenced; Project would be completed within 14 months; Project cost: SAR208mn
July 2013 - Study underway
Energia won the bids for the facility; November 2014 - Construction commenced; Plant being developed will be an integrated power facility with 550 MW of power generation through Gas and 50 MW by CSP solar plant; Total Contract value - USD667mn
July 2013 - Construction underway
August 2014 - Construction underway; February 2013 - Equipment supply contract awarded to GE; Expansion to increase capacity from 2200 MW to 3500 MW
March 2012 - Construction commenced
November 2015 - Construction underway; Facility will include 11 aircraft hangars and 28 aircraft component shops plus an engine shop capable of handling the world's largest jet engines; Project is part of an overall USD7.2bn expansion plan to increase the airport's capacity from 13mn to 80mn passengers/year by 2035; Project cost - SAR3.5bn
December 2014 - Construction underway, Four of the eight units achieved full capacity while rest are into commissioning stage scheduled to achieve full capacity in 2015
January 2015 - Project more than 95% completed
October 2016 - Petro Rabigh delays completion of expansion; June 2016 - Saipem won USD209mn contract for expansion project; March 2015 - Petro Rabigh completed the transfer of ownership for the project and achieved financial close for credit facilities worth SAR19.3bn (USD5.16bn); Project expected to produce 30mn cubic ft/day of ethane and 3mn tonnes of naphtha/yr; JBIC to provide USD1.99bn funding for the project; June 2012 - EPC contract awarded
May 2012 - Two contracts worth USD523mn awarded; first contract focuses on the remaining parts of the second ring road while the second covers the third phase of the third ring road in the holy city
February 2014 - Project nearing completion; May 2012 - Contract awarded to SBG for two projects with combined value of USD523mn; Project includes bridges and tunnels to be constructed in different areas including Al-Jamarat Square, located between Prince Majed Street and King Fahd Road
February 2015 - Work commenced
June 2012 - 25% of work has completed; Project cost - SAR438mn
June 2014 - Construction underway; July 2012 - Contract awarded to Saudi Binladin Group
June 2013 - Construction underway; December 2012 - Construction commenced; Project involves construction of National Neurosciences Institute, Comprehensive Cancer Centre, Cardiac Centre, Laboratories and office building and a below ground car park; Project is part of King Fahad Medical City; Project cost - SAR1.18bn
May 2016 - First 660MW steam unit started operations; March 2014 - GE to provide variable speed drivers under a power deal with Hyundai Heavy Industries; December 2013 - Saudi Electricity Co (SEC) has signed a USD366mn loan agreement with the Japan Bank for International Cooperation (JBIC); Project cost - SAR11.9 bn
July 2013 - Construction commenced; December 2012 - Higher Education Minister Khaled Al-Anqari has signed contract to implement the project; Part of USD346.6mn project
development of Security Forces Medical Complexes in Riyadh and Jeddah, each with total built-up area of 400,000 sq metres, 500,000 sq metres of residential space and 200,000 sq metres of car parking; Expected completion slated by third quarter of 2017

April 2016 - Agreement signed between Saudi Arabia and Egypt to build the bridge; Project set to take three years to construct; Total length - 32 km; Total project value -USD4bn
February 2013 - Saline Water Conversion Corporation announced its plan to develop desalination plant with a capacity of 600,000 cubic meters of water daily
October 2015 - Project close to completion; Project to expand vacuum distillation unit from the existing 26,000bpd to 40,000bpd and propane de-asphalting unit from the current 6,500bpd to 12,500bpd
March 2013 - Contract worth SAR1bn (USD267mn) awarded; Phase-I is part of Mutrafiah Housing Project, comprises of 3,600 villas
August 2014 - First phase of the project which includes construction of a pumping station near the town of Ein Diwar is expected to cost USD264mn; Once the project is complete, about 1.25bn m3 of water will be used to irrigate 200000ha of land; Also 125mn m3 of potable water will be provided annually
September 2015 - Syrian war & migrant Crisis has significantly delaying the progress of the project; August 2013 - Iran, Iraq and Syria signed a deal for the construction of pipeline; Total length - 1500km; Project Value - USD10bn
January 2013 - Project has been on hold due to political reasons; April 2012 - Project phase 1 was supposed to take 18 months but still underway; August 2011 - Work started for the phase 1; Project involves construction of a mixed use development comprising a shopping mall with gross leas able area and 300 shops, 3 star hotels & luxury serviced apartments, retail showrooms, luxury tourist apartments and commercial offices
September 2014 - Construction underway; Construction consists of three sections of which two sections of 279MW each have been completed and are in operation
September 2015 - SKAI Holdings secured USD300mn syndicated finance package for the project; January 2015 - Structural work almost complete, project is six months ahead of schedule; December 2013 - Enabling and piling works nearing completion; Hotel will offer 479 luxurious rooms and suites and 222 signature Viceroy Residences; Project cost - AED4.05bn
June 2015 - Tecam Group subcontracted by EPC Intecsa Industrial to deliver a waste to energy plant in the United Arab Emirates (UAE)
