# ABOUT THE SUMMIT

Jointly organised by the Government of the Hong Kong Special Administrative Region and the Hong Kong Trade Development Council annually, the Belt and Road Summit is a premier international platform for participants to capture promising business opportunities along the Belt and Road. Since its inception in 2016, the Summit has been gathering senior government officials and prestigious business leaders from countries and regions along and beyond the Belt and Road to exchange insights on multilateral collaboration and explore potential business opportunities.

The 2025 Belt and Road Summit celebrated its 10th edition under the theme “Collaborate for Change • Shape a Shared Future”, bringing together global resources and opportunities, enabling connections among project owners, investors and service providers from around the globe. Participants built new connections and explored collaboration with potential partners through structured networking events and targeted business matching.

## QUOTES FROM LEADERS

Hong Kong is the ideal Belt and Road hub. As the only world city that converges both the China advantage and the global advantage, Hong Kong stands as the premier gateway for co-operation, bridging people, trade, business, education, culture and values across the region, connecting Asia and the world. We are a "super connector" and "super value-adder" for high-quality collaborations worldwide. Our "dual superpower" of connecting and value-adding means Hong Kong is more than a link between capital and projects. We also inject vigour, innovation and sustainability, adding strategic value to everything we do. Hong Kong will continue to drive high-quality development along the Belt and Road.

**The Hon John KC Lee, GBM, SBS, PDSM, PMSM** | The Chief Executive, Hong Kong Special Administrative Region of the People's Republic of China

Over the past decade, Cambodia has achieved remarkable progress with the support from China under the Belt and Road Initiative framework. Together, we have built over 3,000 kilometers of national roads and 16 major bridges, transforming the daily lives of millions of Cambodians. It has boosted tourism, reduced costs and enhanced Cambodia's role as a regional trade hub.

**H.E. Sun Chanthol** | Deputy Prime Minister, First Vice Chairman of the Council for the Development of Cambodia

While the Belt and Road is about connection and development, more importantly, it represents an inspiration and a vision of how societies and economies can come together to shape a more beautiful future for all of us.

**Ms Gim Huay Neo** | Managing Director, Member of the Managing Board, World Economic Forum

## EXHIBITION ZONES

The 2025 Summit featured several exhibition zones:

**Global Investment Zone** connected investors, project owners, and professional investment consultants from different countries and regions, highlighting up-to-date market intelligence, large-scale investment projects and key investment opportunities for future business cooperation from around the world. An ASEAN Pavilion was newly introduced in 2025, showcasing the latest multi-sector projects from ten member states in the region.

**Hong Kong Zone** served as a platform for leading companies from various sectors—including banking and finance, information technology, and government authorities—to showcase their professional services.

**InnoTech Zone** introduced cutting-edge innovations in AI and digital solutions from around the world, connecting tech start-ups and investors to foster technological and business collaboration.

# BELT AND ROAD DEAL-MAKING

The Summit serves as a superior platform for participants to establish solid business networks for long-term business cooperation. Project owners and operators, investors and service providers from around the world can build connections and realise new business opportunities with potential partners based on their shared areas of interest through pre-arranged deal-making meetings. During the 2025 Summit, over 800 one-to-one deal-making meetings were arranged featuring more than 300 investment projects.

## PROJECT SECTORS COVERAGE

Technology
